The Yellow Wall-Paper and Selected Writings Charlotte Perkins Gilman,2020-02-25 A collection of the groundbreaking feminist writer's most famous works, with a thought-provoking introduction by bestselling author Kate Bolick. A Penguin Vitae Edition Wonderfully sardonic and slyly humorous, the writings of landmark American feminist and socialist thinker Charlotte Perkins Gilman were penned in response to her frustrations with the gender-based double standard that prevailed in America as the twentieth century began. Perhaps best known for her chilling depiction of a woman's mental breakdown in her unforgettable 1892 short story *The Yellow Wall-Paper*, Gilman also wrote *Herland*, a wry novel that imagines a peaceful, progressive country from which men have been absent for 2,000 years. Both are included in *The Yellow Wall-Paper and Selected Writings*, along with a selection of Gilman's major short stories and her poems. New York Times bestselling author Kate Bolick contributes an illuminating introduction that explores Gilman's fascinating yet complicated life. Penguin Classics launches a new hardcover series with five American classics that are relevant and timeless in their power, and part of a dynamic and diverse landscape of classic fiction and nonfiction from almost seventy-five years of classics publishing. Penguin Vitae provides readers with beautifully designed classics that have shaped the course of their lives, and welcomes new readers to discover these literary gifts of personal inspiration, intellectual engagement, and creative originality.

Demand My Writing Jeanne Cortiel, 1999-01-01 In this major study of the work of Joanna Russ, Jeanne Cortiel gives a clear introduction to the major feminist issues relevant to Russ's work and assesses its development. The book will be especially valuable for students of SF and feminist SF, especially in its concern with the function of woman-based intertextuality. Although Cortiel deals principally with Russ's novels, she also examines her short stories, and the focus on critically neglected texts is a particularly valuable feature of the study. I recommend this book to any reader interested in Russ's fiction, or in women's science fiction generally.—Science Fiction Studies

Planning for Learning through Opposites Judith Harries, 2013-02-28 Plan for six weeks of learning covering all six areas of learning and development of the EYFS through the topic of opposites. The Planning for Learning series is a series of topic books written around the Early Years Foundation Stage designed to make planning easy. This book takes you through six weeks of activities on the theme of opposites. Each activity is linked to a specific Early Learning Goal, and the book contains a skills overview so that practitioners can keep track of which areas of learning and development they are promoting. This book also includes a photocopiable page to give to parents with ideas for them to get involved with their children's topic, as well as ideas for bringing the six weeks of learning together. The weekly themes in this book include: words and concepts: happy/sad; big/small; old/new; hot/cold; loud/quiet; up/down. It all ends with a pyjama party with children enjoying night time things during the day!

Karst Geohazards Barry F. Beck, 2018-12-19 Geologists and geographers study how to develop how and where karst develops and how sinkholes form, but engineers must use this information to develop karst terrane. Over the past ten years, these multidisciplinary conferences on the applied aspects of karst hydrogeology and engineering have been successful in bringing together engineers, geologists, other scientists and government regulators who must safely establish human infrastructure on karst terrane whilst protecting the environment. The essences of these conferences has always been communication between geologists and engineers with an emphasis on practical applications and case studies. This text contains the proceedings of the fifth conference on karst geohazards. It presents 65 papers that cover topics such as: groundwater contamination through sinkholes and the karst surface; stormwater drainage and flooding problems; and foundation considerations and improvements in karst.

Dwell , 2004-06 At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has

been conspicuous by its absence in most design and architecture magazines.
