The long way back to Europe. Minority protection in Bulgaria Bernd Rechel,2012-02-27

The protection of minorities in Bulgaria presents a paradox. Although minority protection played a prominent role in the accession of the country to the European Union, hardly any positive minority rights were adopted in post-communist Bulgaria. Apart from the reversal of communist assimilation campaigns, only limited progress has been made in the area of minority protection. Positive minority rights have remained very restricted, some minorities, notably Pomaks and Macedonians, have been denied recognition, and the formal adoption of legislation or policy documents has often not been followed by implementation. By charting minority rights policies in Bulgaria in the period between 1989 and 2004, this study clarifies the main reasons for the limited progress in the post-communist period. While, in contrast to some other countries in Central and Eastern Europe, minority "kin-states" did not play a major role in post-communist Bulgaria, the European Union and the Council of Europe were instrumental in putting minority questions on the agenda of Bulgarian governments. However, their impact was smaller than much of the literature on enlargement and conditionality would suggest. Domestic factors were crucial in shaping minority rights policies in post-communist Bulgaria. Of particular importance was the communist legacy, which acted as a brake on the development of minority rights.

Relaciones de género en la amazonía ecuatoriana Alicia Garcés,2006 Valioso estudio que profundiza en el conocimiento de la realidad actual de las comunidades indígenas amazónicas, enfocándose en las relaciones de género y su vínculo con los recursos naturales.

Ethnonationalist Conflict in Postcommunist States Maria Koinova,2013-07-01 Ethnonationalist Conflict in Postcommunist States investigates why some Eastern European states transitioned to new forms of governance with minimal violence while others broke into civil war. In Bulgaria, the Turkish minority was subjected to coerced assimilation and forced expulsion, but the nation ultimately negotiated peace through institutional channels. In Macedonia, periodic outbreaks of insurgent violence escalated to armed conflict. Kosovo's internal warfare culminated in NATO's controversial bombing campaign. In the twenty-first century, these conflicts were subdued, but violence continued to flare occasionally and impede durable conflict resolution. In this comparative study, Maria Koinova applies historical institutionalism to conflict analysis, tracing ethnonationalist violence in postcommunist states to a volatile, formative period between 1987 and 1992. In this era of instability, the incidents that brought majorities and minorities into dispute had a profound impact and a cumulative effect, as did the interventions of international agents and kin states. Whether the conflicts initially evolved in peaceful or violent ways, the dynamics of their disputes became self-perpetuating and informally institutionalized. Thus, external policies or interventions could affect only minimal change, and the impact of international agents subsided over time. Regardless of the constitutions, laws, and injunctions, majorities, minorities, international agents, and kin states continue to act in accord with the logic of informally institutionalized conflict dynamics. Koinova analyzes the development of those dynamics in Bulgaria, Macedonia, and Kosovo, drawing on theories of democratization, international intervention, and path-dependence as well as interviews and extensive fieldwork. The result is a compelling account of the underlying causal mechanisms of conflict perpetuation and change that will shed light on broader patterns of ethnic violence.

Struggles of Voice Jose Antonio Lucero,2008 Over the last two decades, indigenous populations in Latin America have achieved remarkable visibility and political effectiveness,

particularly in Ecuador and Bolivia. Lucero compares Ecuador's united indigenous movement to the more fragmented situation in Bolivia, and analyzes the mechanisms at work in political and social structures to explain the different outcomes in each country.

The Making Of Social Movements In Latin America Arturo Escobar, 2018-02-19 This book, paying attention to the axes of identity, strategy, and democracy, grew out of the authors' shared and growing interest in contemporary social movements and the vast theoretical literature on these movements produced during the 1980s, particularly in Latin America and Western Europe.

Remaking the Nation Sarah Radcliffe, Dr Sallie Westwood, Sallie Westwood, 2005-08-12 Remaking the Nation presents new ways of thinking about the nation, nationalism and national identities. Drawing links between popular culture and indigenous movements, issues of 'race' and gender, and ideologies of national identity, the authors draw on their work in Latin America to illustrate their retheorisation of the politics of nationalism. This engaging exploration of contemporary politics in a postmodern, post new-world-order uncovers a map of future political organisation, a world of plurinations and ethnicised identities in the ever-changing struggle for democracy.

The far right in the Balkans Vera Stojarova, 2016-05-16 This is the first book to provide comprehensive coverage of the far right political party phenomenon in the Balkans. The author focuses on parties generally described as lying on the far right in academic literature and examines their development from 2000 until 2010. The book provides a detailed analysis of the historical legacy essential in understanding the overall context of nationalism in the region as well as an overview of the far right political parties in each country. It discusses parties individually, detailing their ideological features, strategy, internal organisation and leadership, and compares their political, social, economic, ethno-cultural and international characteristics. It reveals the main factors that were influential in the successes and failures of the far right, and offers a comparison between the typical far right voter living in the Balkans and his counterpart in Western Europe. The implementation and enforcement of legislature such as hate speech laws is also examined, along with other legal issues affecting the extremist parties in the region.
