The Irish GardenThe Irish Garden PETER. DALE,2021-09 Don't leave yet. Let there be one more piece of magic to remember the place by.Is there something especially Irish about Irish gardens? The climate, soils, availability of plants and skills of green-fingered people generate an unusually benign environment, it's true, but not one that is unique to Ireland. Irish gardens tend to avoid magnificence in favour of a quiet and domesticated beauty, but that is not peculiar to Ireland either.Strains of Irishness run through these gardens like seams of ore. Seen not just as zones of horticultural bravura, but also as reflections of historical, cultural, political and religious events and values, the gardens accrue an unusual richness of surface and depth of meaning.Atmospherically illustrated by Brian Lalor, The Irish Garden wanders into individual gardens, rather than presenting a sweeping chronology. This book is a rhapsody on themes of Irishness, as if the spirit and soul of Ireland itself were sometimes more visible in these places than in the more conventionally visited locations of battlefields, breweries and bars.

**Celtic Myth & Magick** Edain McCoy,2013-01-01 Tap into the mythic power of the Celtic goddesses, gods, heroes, and heroines to aid your spiritual quests and magickal goals. Human and divine energies complement each other; when joined, they become a potent catalyst for true magick and change. Celtic Myth & Magick describes the energies of over 300 cross-referenced Celtic deities and heroic figures so you can quickly determine which one can best help you in attaining specific goals through magick—such as greater prosperity (Cernunnos), glowing health (Airmid), or a soul partner (Aengus MacOg). This guidebook explains how to use creative Pagan ritual and pathworking to align yourself with the energy of these powerful archetypes. Undertake three magickal quests to the inner plane—where you'll join forces with Cuchulain, Queen Maeve, and Merlin the Magician to bring their energies directly into your life. This inspiring, well-researched book is written especially for solitary Pagans who seek to expand the boundaries of their practice to form working partnerships with the divine.

*In Kiltumper* Niall Williams,Christine Breen,2021-09-16 'Poignant ... A meditation on life, love and the importance of nature' IRISH TIMES When they were in their twenties, Niall Williams and Christine Breen made the impulsive decision to leave New York City and move to Christine's ancestral home in the town of Kiltumper in rural Ireland. In the decades that followed, the pair dedicated themselves to writing, gardening and living a life that followed the rhythms of the earth. In 2019, with Christine in the final stages of recovery from cancer and the surrounding land threatened by the arrival of turbines, Niall and Christine decided to document a year - in words and Christine's drawings - of living in their garden and in their small corner of a rapidly changing world. Proceeding month by month through the year, this is the story of a garden in all its many splendours, and a couple who have made their life observing its wonders.

*The Irish Garden* Jane Powers, Jonathan Hession, 2015-04-19 Visit over forty of Ireland's most beautiful gardens without moving from your armchair with this stunning book, ranging from the grand old demesnes of the Anglo-Irish ascendancy to the intensely personal creations of passionate plantsmen and garden makers. Visitors to Ireland are often surprised at the 'palm trees' that make so many gardens look as if they belong in a holiday postcard. How can such exotics survive on an island that is as far north as the prairies of Canada and the pine forests of Siberia? The answer lies in the tail of the Gulf Stream - the North Atlantic Drift - which wraps around this green land on the western edge of Europe. Its warm and watery embrace bestows the renowned 'soft' climate that allows those palm trees (in fact, New Zealand cordylines) to make their homes here - along with tree ferns from Australia and bananas from Japan. Plants from colder regions, including rhododendrons, primulas and all manner of alpiners, are equally happy. So, with a range of plants that runs from the subtropical to the subarctic, and a landscape that varies from gently pastoral to savagely rugged, the aptly named Emerald Isle has some of the most romantic and interesting gardens in the world. The result of a lifetime visiting, considering and writing about gardens in Ireland, and several years of dedicated photography, this is a truly comprehensive exploration of a fascinating subject.
