Social Media and Politics in Central and Eastern Europe Paweł Surowiec, Václav Štětka, 2017-09-05 Social media are increasingly revolutionising the ways in which political communication works, and their importance for engaging citizens in politics and public affairs is well understood by political actors. This book surveys current developments in social media and politics in a range of Central and Eastern European countries, including Ukraine and Russia. It explores the process of adoption of social media by politicians, journalists and civic activists, examines the impact of the different social and cultural backgrounds of the countries studied, and discusses specific political situations, such as the 2012 protests in Moscow and the 2014 EuroMaidan events in Ukraine, where social media played an important role. The book concludes by addressing how the relationship between social media and politics is likely to develop and how it might affect the still relatively new democracies in the region.

Paid, Owned, Earned Nick Burcher,2012-03-03 The complexity of media that now sees multiple channels accessed through multiple devices has created major challenges for today's marketing and advertising professionals. Consumer time is split between TVs, laptops, iPads, X-Boxes and smartphones, with traditional media, websites, videos, social networks and apps all competing for attention, meaning it's difficult for brands to decide how best to reach and engage their audiences. Paid, Owned, Earned defines the constituents of each area of 'paid', 'owned' and 'earned' media and shows how they are linked together. It proposes a blueprint for how to think and navigate across this space using a framework made up of key elements such as communities and content, social media optimisation, seeding and viral distribution, broadcast mass media, social performance media and measurement.

Why Occupy a Square? Jeroen Gunning, Ilan Zvi Baron, 2014-01-10 On 25 January 2011, tens of thousands of Egyptians came out on the streets to protest against emergency rule and police brutality. Eighteen days later, Mubarak, one of the longest sitting dictators in the region, had gone. How are we to make sense of these events? Was this a revolution, a revolutionary moment? How did the protests come about? How were they able to outmaneuver the police? Was this really a 'leaderless revolution,' as so many pundits claimed, or were the demonstrations an outgrowth of the protest networks that had developed over the past decade? Why did so many people with no history of activism participate? What role did economic and systemic crises play in creating the conditions for these protests to occur? Was this really a Facebook revolution? Why Occupy a Square? is a dynamic exploration of the shape and timing of these extraordinary events, the players behind them, and the tactics and protest frames they developed. Drawing on social movement theory, it traces the interaction between protest cycles, regime responses and broader structural changes over the past decade. Using theories of urban politics, space and power, it reflects on the exceptional state of non-sovereign politics that developed during the occupation of Tahrir Square.
