**Benjamin Nickl**

*Coming Out to the Mainstream* David Jones, JoAnne C. Juett, 2010-08-11 *Coming Out to the Mainstream* is a collection of essays written from a range of perspectives, from scholars to film producers, who seek to contextualize and reframe New Queer Cinema from a 21st century perspective—decades after Stonewall, the emergence of the HIV-AIDS crisis, and the initial years of the gay marriage movement. These essays situate themselves in the 21st century as an attempt to assess what appears to be a mainstreaming of New Queer Cinema, a current wave of New Queer Cinema film that holds potential for influencing film viewers beyond the original limits of an independent film audience, critics, and the academy. Specifically, these essays examine whether and how the filmmaking styles and themes of New Queer Cinema have been mainstreamed—rendered familiar as points of interest in popular culture of the 21st century, challenging a queer-phobic cultural climate, and providing an incisive set of visual representations that can help inform continuing debates over queerness in public culture. For instance, what do we make of the burgeoning number of queer stories that are circulating not just in arthouses but in mainstream media? How much of a transformation in our collective sensibilities does this trend represent, and will it carry us toward a cultural landscape where identity is commonly understood and valued as multiple, fluid, and performative? While the editors of this collection find there is significant evidence that New Queer Cinema has achieved success in forging greater mainstream acceptance of queer perspectives in cinema and everyday culture, the essays we present offer a variety of voices, a timely set of observations on queer images in film, television, and popular culture.

Mainstream News Wil Mara, 2018-08-01 Using the new C3 Framework for Social Studies Standards, *Mainstream News* in the *Global Citizens: Modern Media* series explores the topic through the lenses of History, Geography, Civics, and Economics. Text and photos look at the history, basic philosophies, and geography of mainstream news. As they read, students will develop questions about the text, and use evidence from a variety of sources in order to form conclusions. Data-focused backmatter is included, as well as a bibliography, glossary, and index.

Mainstream Mathematical Economics in the 20th Century PierCarlo Nicola, 2013-03-14 To write everything about nothing, or to write nothing about everything: this is the problem. (Anonym, circa 1996-97) The first idea to write a book on Mathematical Economics, more or less ordered in a historical sequence, occurred to me in 1995, when I was asked, by Istituto delta Enciclopedia Italiana, to write the entry *Storia dell'economia 1 2 matematica*, for the collective work *Storia del XX Secolo*. I thought that it would be interesting to elaborate on the text presented to the editors, to turn it into a book aiming at giving a panorama of what, in my opinion, are the main 20th century contributions to mathematical economics. Of course, only a narrow set of the contributions made by economic theorists could be included, both for space limitations and necessity, because 3 of the limited competence of any single author. For instance, I have paid very limited attention to what is now called Macroeconomics, and also to Game Theory, which actually has grown so much as to acquire scientific independence as a living branch of applied mathematics. For the same reason, I have also left completely untouched such fields as Mathematical Finance, Public Economics, Theory of Taxation, etc. I have always based my presentation on published material only, assuming that what is contained in working papers still waits to be confirmed, possibly in the first years of the 21st century.

Inequality, Class, and Economics Eric Schutz, 2022-01-24 What if neoclassical economics addressed the question of class? This accessible overview of economic theory launches this investigation The COVID-19 pandemic exposed the economic inequalities pervading every aspect of society— and then multiplied them to a staggering degree. A mere nine months into the lockdown, the net worth of the infamous Forbes 400 increased by one trillion

dollars; In a single year the US poverty rate rose by the largest amount ever since record-keeping began sixty years ago. At the same time, mass unemployment imperiled or erased the fragile right to quality health care for a substantial number of people living in states without Medicaid. In *Inequality, Class, and Economics*, Eric Schutz illumines the pillars undergirding the monstrous polarities which define our times— and reveals them as the very same structures of power at the foundations of the class system under today's capitalism. Employing both traditional and novel approaches to public policy, *Inequality, Class, and Economics* offers prescriptions that can genuinely address the steepening and hardening of class boundaries. This book pushes past economists' studied avoidance of the problem of class as a system of inequality based in unequal opportunity, and exhorts us to tackle the heart of the problem at long last.

Turkish German Muslims and Comedy Entertainment Benjamin Nickl, 2020-10-26

Turkish German comedy culture and the lived realities of Turkish Muslims in Germany Comedy entertainment is a powerful arena for serious public engagement with questions of German national identity and Turkish German migration. The German majority society and its largest labour migrant community have been asking for decades what it means to be German and what it means for Turkish Germans, Muslims of the second and third generations, to call Germany their home. Benjamin Nickl examines through the social pragmatics of humour the dynamics that underpin these questions in the still-evolving popular culture space of German mainstream humour in the 21st century. The first book-length study on the topic to combine close readings of film, television, literary and online comedy, and transnational culture studies, *Turkish German Muslims and Comedy Entertainment* presents the argument that Turkish German humour has moved from margin to mainstream by intervening in cultural incompatibility and Islamophobia discourse. Ebook available in Open Access. This publication is GPRC-labeled (Guaranteed Peer-Reviewed Content).

**Century 21**, 2006

**Rethinking Warfare in the 21st Century** Iulian Chifu, Greg Simons, 2023-07-31 A critical and multifaceted analysis of the problems created by the politics and communicated representation of contemporary warfare.

**International Environmental Law and Policy for the 21st Century** Ved

Nanda, George (Rock) Pring, 2012-10-12 A significant contribution to the field, and a welcome addition to the growing literature on international environmental law and an important reference for every scholar, lawyer, and layperson interested in the field.

*International Political Economy in the 21st Century* Roy Smith, Imad El-Anis, Christopher Farrands, 2017-02-10 Understanding of the theories that underpin international political economy (IPE), and their practical applications, is crucial to the study of international relations, politics, development and economics. This is a comprehensive and accessible introduction to the field, with an engaging and coherent foundation to the subject. It considers traditional and alternative approaches to IPE, and in doing so elucidates key concepts, assumptions and the intellectual and historical context in which they arose and developed. At all times, it makes clear their relevance to issues from trade, finance and government, to environment, technology, health, labour, security, migration, development and culture. The book encourages independent reflection and critical thinking through a range of in-text guiding features. In addition, each chapter presents theoretical analysis alongside contemporary issues, helping the reader to relate to the real world of IPE and to better understand how theory helps inform interpretation of it. New to this edition: comprehensively updated to include key coverage of the post-2015 framework of the Sustainable Development Goals, the financial crisis and international government responses - successful or otherwise - to recent challenges; fully updated data, reflective questions, recommended readings, concept and example boxes, and illustrations; new

chapters on health, migration and labour; additional coverage of trade theories and key contemporary issues, such as national versus human security, economic versus human development and illegal networks in global trade.

*Improving Reading and Reading Engagement in the 21st Century* Clarence Ng, Brendan Bartlett, 2017-05-31 This book presents cutting-edge research findings in areas critical to advancing reading research in the 21st century context, including new literacies, reading motivation, strategy instruction, and reading intervention studies. While students' reading performance is currently receiving unprecedented attention, there is a lack of research that adopts an international perspective and draws on research expertise from different parts of the world to present a concerted effort, discussing key research models and findings on how to improve reading education. Addressing this gap in the literature, the book also responds to the challenge of promoting higher levels of literacy, and supporting and developing readers who can enjoy and critique texts of every genre.

*Framing Africa* Nigel Eltringham, 2013-06-30 The first decade of the 21st century has seen a proliferation of North American and European films that focus on African politics and society. While once the continent was the setting for narratives of heroic ascendancy over self (*The African Queen*, 1951; *The Snows of Kilimanjaro*, 1952), military odds (*Zulu*, 1964; *Khartoum*, 1966) and nature (*Mogambo*, 1953; *Hatari!*, 1962; *Born Free*, 1966; *The Last Safari*, 1967), this new wave of films portrays a continent blighted by transnational corruption (*The Constant Gardener*, 2005), genocide (*Hotel Rwanda*, 2004; *Shooting Dogs*, 2006), 'failed states' (*Black Hawk Down*, 2001), illicit transnational commerce (*Blood Diamond*, 2006) and the unfulfilled promises of decolonization (*The Last King of Scotland*, 2006). Conversely, where once Apartheid South Africa was a brutal foil for the romance of East Africa (*Cry Freedom*, 1987; *A Dry White Season*, 1989), South Africa now serves as a redeemed contrast to the rest of the continent (*Red Dust*, 2004; *Invictus*, 2009). Writing from the perspective of long-term engagement with the contexts in which the films are set, anthropologists and historians reflect on these films and assess the contemporary place Africa holds in the North American and European cinematic imagination.

**Synthetic Cinema** Wheeler Winston Dixon, 2019-02-05 In this book, Wheeler Winston Dixon argues that 21st-century mainstream filmmaking is increasingly and troublingly dominated by synthetic cinema. He details how movies over the last two decades have fundamentally abandoned traditional filmmaking values through the overwhelming use of computer generated imagery, digital touch ups for the actors, and extensive use of green screen technology that replace sets and location shooting. Combined with the shift to digital cinematography, as well as the rise of comic book and franchise cinema, the temptation to augment movies with lavish, computer generated spectacle has proven irresistible to both directors and audiences, to the point that, Dixon argues, 21st-century commercial cinema is so far removed from the real world that it has created a new era of flawless, fake movies.

### **Seminar ,1998**

*The Political Economy of Work* David Spencer, 2008-09-25 Against the background of increasing interest in the changing nature and quality of work, *The Political Economy of Work* offers a new and unique assessment of the theoretical analysis of work. The author challenges some common preconceptions about work and promotes an original approach to the field, contemplating the nature and development of ideas on work and its impact on human well-being drawing on such burgeoning literatures as the 'economics of happiness'. Spencer approaches the subject through a careful examination of the history of thought on work over the last three hundred years. A key focus is the development of ideas on work in mainstream economics, starting with the mercantilists and the classical economists, and continuing with neoclassical economists (e.g. Jevons, Marshall). The contributions of modern approaches including the new 'information-theoretic' economics and the new

'economics of happiness' are also discussed. The author sees flaws in the depiction of work in mainstream economics and instead draws insight from the writings of critics of the mainstream paradigm, such as the nineteenth century 'utopian' writers (Godwin, Fourier, Carlyle, Ruskin, Morris), Marx, and the old institutional economists (Commons, Veblen). The alternative approach outlined in the book stresses the barriers to rewarding work under capitalism and develops a case for radical change in the organisation of work. The book cuts across different disciplinary boundaries and is likely to appeal to researchers in a number of different fields, including labour economics, labour history, the sociology of work, industrial relations, and human resource management. It will appeal to all those who wish to promote a more critical understanding of the role that work can and ought to play in society.

*Artificial Intelligence and the Apocalyptic Imagination* Michael J. Paulus Jr., 2023-05-15  
The increasing role and power of artificial intelligence in our lives and world requires us to imagine and shape a desirable future with this technology. Since visions of AI often draw from Christian apocalyptic narratives, current discussions about technological hopes and fears present an opportunity for a deeper engagement with Christian eschatological resources. This book argues that the Christian apocalyptic imagination can transform how we think about and use AI, helping us discover ways artificial agency may participate in new creation.

*Remaking the American Mainstream* Richard D. Alba, Victor Nee, 2009-06-30  
In this age of multicultural democracy, the idea of assimilation--that the social distance separating immigrants and their children from the mainstream of American society closes over time--seems outdated and, in some forms, even offensive. But as Richard Alba and Victor Nee show in the first systematic treatment of assimilation since the mid-1960s, it continues to shape the immigrant experience, even though the geography of immigration has shifted from Europe to Asia, Africa, and Latin America. Institutional changes, from civil rights legislation to immigration law, have provided a more favorable environment for nonwhite immigrants and their children than in the past. Assimilation is still driven, in claim, by the decisions of immigrants and the second generation to improve their social and material circumstances in America. But they also show that immigrants, historically and today, have profoundly changed our mainstream society and culture in the process of becoming Americans. Surveying a variety of domains--language, socioeconomic attachments, residential patterns, and intermarriage--they demonstrate the continuing importance of assimilation in American life. And they predict that it will blur the boundaries among the major, racially defined populations, as nonwhites and Hispanics are increasingly incorporated into the mainstream.

**Jesse Ventura's Marijuana Manifesto** Jesse Ventura, 2016-09-06  
New York Times Bestselling Author! In this groundbreaking book – for the first time in paperback and fully-updated with all the latest legal information - outspoken freethinker Jesse Ventura lays out his philosophy. Now more than ever before, our country needs full legalization of medical/recreational marijuana and hemp. Seemingly with every day that goes by we find out more positive things about marijuana, a medicinal plant in abundant supply, yet legalization finds stronger resistance from government agencies and big business. Find out why the US government patented CBD and what Big Pharma companies have exclusive rights to create marijuana medication and why the DEA can't be trusted. Jesse Ventura's Marijuana Manifesto calls for an end to the War on Drugs. Legalizing marijuana will serve to rejuvenate our pathetic economy and just might make people a little happier. Ventura's book will show us all how we can take our country back. "More celebs than ever are jumping on the 'Legalize' bandwagon. Why? Because it's safe now. It won't impact your career anymore. But Jesse Ventura has been a solid proponent of legal cannabis for decades. In Jesse Ventura's Marijuana Manifesto, he lays out the good sense of legalization,

as well as the sheer insanity of prohibition. As a proud American, he pulls no punches calling out the political elite. - Dan Skye, High Times editor-in-chief "Ventura is ultimately quite convincing about the ineffectuality of the War on Drugs, and on the contradictions and corruptions of the Drug Enforcement Administration, a particular bugbear of his." - Michael Lindgren, The Washington Post

**Finding Out** Deborah T. Meem, Jonathan Alexander, Key Beck, Michelle A. Gibson, 2022-08-02 Finding Out, Fourth Edition introduces readers to lesbian-gay-bisexual-transgender-queer (LGBTQ) studies. Meem, Jonathan Alexander, Key Beck, and Michelle A. 21st-Century Hollywood Wheeler Winston Dixon, Gwendolyn Audrey Foster, 2011-08-31 They are shot on high-definition digital cameras—with computer-generated effects added in postproduction—and transmitted to theaters, websites, and video-on-demand networks worldwide. They are viewed on laptop, iPod, and cell phone screens. They are movies in the 21st century—the product of digital technologies that have revolutionized media production, content distribution, and the experience of moviegoing itself. 21st-Century Hollywood introduces readers to these global transformations and describes the decisive roles that Hollywood is playing in determining the digital future for world cinema. It offers clear, concise explanations of a major paradigm shift that continues to reshape our relationship to the moving image. Filled with numerous detailed examples, the book will both educate and entertain film students and movie fans alike.

**TWENTY-FIRST CENTURY DYNAMICS OF MULTICULTURALISM** Martin Guevara Urbina, 2014-09-19 In the twenty-first century few studies have delineated the U.S. multiculturalism story beyond black and white, to include the truths and realities of other Americans over time, resulting in highly skewed academic publications. While the white experience and, to a lesser extent, the black experience, has been well documented, the brown experience, for instance, has been neglected, minimized, or excluded from the pages of history. Clearly, there has been a great need for researchers to examine the multiple intertwining forces of historical and contemporary movements defining, shaping, and governing the everyday experience of America's people. In the face of centuries of manipulation, exploitation, oppression, and sometimes brutal violence, blacks, browns, reds, yellows, and others are still here, fighting not only for ethnic and racial tolerance but also for equality, justice, respect, and human dignity. In fact, despite the long legacy of hate, violence, and oppression against America's most disadvantaged communities, particularly undocumented people, the minority population will continue to grow and, with pressing demographic shifts, ethnic and racial minorities will soon become the new face of America. In delineating the dynamics of multiculturalism over the years, contributing authors illustrate that the United States is nowhere near a post-racial society, and thus we must prioritize equality, justice, and multiculturalism if the U.S. is in fact going to have a balanced system. Globally, the United States must actively engage in significant and positive social transformation in the new millennium, if the U.S. is going to be situated and reflective of a post-racial society in the twenty-first century. Twenty-First Century Dynamics of Multiculturalism will be of benefit to professionals in the fields of sociology, history, minority studies, Mexican American (Chicano) studies, ethnic (Latino) studies, law, political science, and also those concerned with sociolegal issues.
