Chess Tactics - Volume 2 Carsten Hansen, The follow-up to the internationally bestselling volume 1. Are you ready to seriously improve your game? It has been said that chess is 99% tactics but whether that is an accurate reflection is hard to tell. Nevertheless, it is important. But if you are like most players, you only discover the tactics after you come home and run through your game with a chess engine. So what to do? In the present book, you will be challenged 404 times but unlike most tactics puzzle books you don't know what your objective is: do I need to find a mate, find an opportunity skewer or pin a piece, use a tactical turn to gain a positional advantage and how far do I need to calculate? These questions are you are faced with when you play your own games and therefore this book tries to replicate this position. Your one advantage over the players in the respective positions is that you know that there is supposed to be something in there for you to find. The puzzles vary a lot in difficulty, some are relatively easy, some are incredibly difficult, but most are somewhere in between. However, most of the puzzles are layered so that even when you think the answer is obvious, it is worth looking further because your idea may be the decoy left there for you to get distracted from the actual solution. Working through the puzzles and then carefully play through the thoroughly annotated solutions will help you to up your tactical radar as well as your calculation skills. So if you are up for the challenge, here is the opportunity to take the leap forward. Good luck!

Play Like a Grandmaster A.A. Kotov,2014-01-28 Alexander Kotov's trilogy, of

which this is the second volume and now available in digital format for the first time, marks a landmark in chess literature. For the first time, a leading player managed to tackle the important elements of chess mastery in a methodical way which all chess players could understand, spiced with insight and colourful observation. Furthermore, his ideas and approach are as relevant to players today as they were when the books were first published. Alexander Kotov was one of the strongest players of the immediate post-war period, twice reaching the Candidates stage of the World Championship. He was also one of the leading Soviet trainers but is primarily remembered for his trilogy of classic works on chess coaching, of which *Think Like a Grandmaster*, one of the best-selling chess books of all time, was the first volume, and *Play Like a Grandmaster* the second.

Duels of the Mind Raymond Keene, 2009-12 Everyone is fascinated by great games of chess: the spectacular sacrifices, profound strategic plans and brilliant endgame play produced in the heat of combat are powerful expressions of the creativity of the human mind. But which, of all the hundreds of candidates, are the very greatest games ever played? Here, in this book, is Grandmaster Raymond Keene's personal selection: twelve games, played by the giants of chess, each of them representing a peak in chess-playing genius. From the slashing attacks of Paul Morphy to the classical beauty of Jose Capablanca; from the python like constriction of Aron Nimzowitsch to the dynamic aggression of Gary Kasparov: all styles of chess are present, as are the great names of chess, including Steinitz, Lasker, Alekhine, Spassky and Fischer.
