I Play Against Pieces Svetozar Gligoric, 2002-10-31 Yugoslav grandmaster Svetozar Gligoric, once rated the strongest European chess player outside of Russia, has pursued a long and distinguished chess career. This highly acclaimed collection of over 100 of his best games, including classic wins against world champions and other top players such as Euwe, Botvinnik, Smyslov, Tal, Petrosian, Spassky, Fischer, Keres, Korchnoi, Larsen, Najdorf, and Reshevsky, now appears for the first time in English. The title of the book 'I Play Against Pieces' reflects Gligoric's thoroughly objective approach to chess, which has always been characterised by great clarity and logic, resulting in a wealth of model games. The fact that these games, replete with instructive tactics and strategies, are classified under openings will particularly benefit readers interested in the study of Queen's Pawn Openings as White and the King's Indian Defence and Ruy Lopez as Black of which Gligoric was a true connoisseur.

Computer Chess Compendium D. LEVY,2013-06-29 For many years I have been interested in computer chess and have collected almost every learned paper and article on the subject that I could find. My files are now quite large, and a considerable amount of time, effort and expense has been required to build up this collection. I have often thought how difficult it must be for many computer chess enthusiasts to acquire copies of articles that they see referenced in some other work. Unless one has access to a good reference library, the task is almost impossible. I therefore decided to try to make available, in one volume, as many as possible of the most interesting and important articles and papers ever written on the subject. Such a selection is naturally somewhat subjective, and I hope that I will not offend authors whose works have been excluded. In particular I have decided to exclude any material which has appeared in the Journal of the International Computer Chess Association (ICCA), or in its precursor, the ICCA Newsletter. The reason is simply that the ICCA itself is in the process of compiling a compendium containing the most important material published in those sources. For further information on ICCA membership and publications the reader is invited to contact: Professor H. 1. van den Herik, or Dr Jonathan Schaeffer University of Limburg, Computing Science Department, Department of Computer Science University of Alberta, 6200 MD Maastricht Edmonton Netherlands Alberta, Canada T6G 2H1.

Tal, Petrosian, Spassky and Korchnoi Andrew Soltis,2018-12-06

This book describes the intense rivalry--and collaboration--of the four players who created the golden era when USSR chess players dominated the world. More than 200 annotated games are included, along with personal details--many for the first time in English. Mikhail Tal, the roguish, doomed Latvian who changed the way chess players think about attack and sacrifice; Tigran

Petrosian, the brilliant, henpecked Armenian whose wife drove him to become the world's best player; Boris Spassky, the prodigy who survived near-starvation and later bouts of melancholia to succeed Petrosian--but is best remembered for losing to Bobby Fischer; and Evil Viktor Korchnoi, whose mixture of genius and jealousy helped him eventually surpass his three rivals (but fate denied him the title they achieved: world champion).
