Padhraic Smyth

The Northwestern Druggist ,1927

Cityguide Chicago ,1999 Bruce Campbell's book is the first single-authored treatment of medieval English agriculture at a national scale. It deals comprehensively with the cultivation carried out by or for lords on their demesne farms, the documentation for which is more detailed and abundant than for any other agricultural group either during the medieval period or later. A context is thereby assured for all future work on the medieval and early modern agrarian economies. The book also makes a substantive contribution to ongoing historical debates about the dimensions, chronology, and causes of medieval expansion, crisis, and contraction. Topics dealt with include the scale and composition of seigniorial estates, the geography of land-use, pastoral husbandry, arable husbandry, land productivity, levels of commercialisation, and the size of the population in relation to the consumption of food at any given time.--BOOK JACKET.

Chicago: Its History and its Builders, Volume 5 Josiah Seymour Currey, Maybe there has never been a more comprehensive work on the history of Chicago than the five volumes written by Josiah S. Currey - and possibly there will never be. Without making this work a catalogue or a mere list of dates or distracting the reader and losing his attention, he builds a bridge for every historically interested reader. The history of Windy City is not only particularly interesting to her citizens, but also important for the understanding of the history of the West. This volume is number five out of five and contains more biographies of the most important Chicago citizens in the foundation times.
