Skokie Swift, the Commuter's Friend Chicago Transit Authority. Research and Planning Department,Thomas Buck,1968

The Chicago "L" Greg Borzo,2007 Offers a history of the world famous Chicago L, the elevated railroad that has operated since 1892 and has been ridden by more than ten billion people.

CTA at 45 George Krambles,Arthur H. Peterson,1993 This book is a book for historians, transit professionals, urban planners, & rail & bus buffs. It shares valuable insights for political & financial decision makers who manage urban transportation. It is a case study of how transit meets the dynamics of a changing urban life. In Chicago, public ownership was adopted in 1947 when Chicago Transit Authority, using revenue bond money, bought out the bus, streetcar & rapid transit companies. Initially CTA was funded entirely from fares. CTA's pioneering Skokie Swift in 1964 was an innovative example of using then meager public funds for a demonstration project. It was successful. Not only did it foreshadow today's light rail transit systems, it also showed a new way to fund beneficial public transit projects. In the 1970s, public money began to support transit operations area-wide. This was not enough. Age-old problems continued. In 1993, public transit nationwide faces major crises. The challenge of public transit--successes & disappointments--is recounted in this 144-page illustrated book by George Krambles & Art Peterson. Together they bring a wealth of experience to the reader. Krambles has served in public transit since 1936 & Peterson since 1970.
