Wild Life on the Rockies Enos A Mills,2014-03-01 This was Enos A. Mills' first major book, originally published by Houghton Mifflin. By 1909 he had climbed Long's Peak 257 times, and this book includes one of his most memorable trips to the top with little Harriet Peters. He also tells of his days as a Colorado Snow Observer, a canine argument between his dog Scotch and a pack of cunning coyotes, and a tale of two prospectors besieged in their cabin by three black bears. Fourteen stories round out this entertaining book. Extraordinary interest attaches to his narratives of exciting adventure with snow slides, wild beasts and wild weather. He communicates to the reader something of his own sense of the beauties of the mountains and the delight of tramping among them. Philadelphia Press The book is one which lovers of Nature should read; one which all who know the majesty of the continental divide will read with interest. Mr. Mills knows his subject as well as any writer in the country. There is not an uninteresting page between the covers. Springfield (Mass.) Republican This book will be read with vast pleasure by innumerable nature-lovers who have lacked Mr. Mills's rare opportunities for most intimate association with Dame Nature in all her moods. It gives a clearer idea of the Rockies, their trees, flowers, plant life, birds, and beasts that may be gleaned from any other volume of its kind. Lincoln (Neb) Star The fourteen essays in 'Wild Life on the Rockies' contain personal adventures, observations of nature, of trees and animals, told in a peculiarly ingenuous, simple manner that is extremely attractive. Mr. Mills conveys the spirit of the mountains to his readers. New York Sun With the publication of this book Mr. Mills takes a place in the front rank of American nature writers. It is the outcome of the demands of thousands of his hearers that the personal experiences woven into his talks be put into permanent form. It is a book by a nature-lover of genuine enthusiasm, based on actual experiences in the fascinating region that he knows and loves. His text is as simple and straightforward as his own personality. It is convincing. It is adequate. He is equally at home in the technical and in the descriptive, and he tells a story well. Altogether, it is one of the most informing, entertaining, and fascinating nature books that one has seen in many a day. The Chicago Inter-Ocean Mr. Mills has the faculty of making converts. He is a kind of evangelist of the wilderness, and when he preaches the gospel of the wilds you are convinced of the sincerity of its divine invitation. His book has the same convincing and fascinating quality as his lectures. The illustrations are exceptionally fine. St. Paul Dispatch

A Lady's Life in the Rocky Mountains Isabella Bird,2020-12-30 A Lady's Life in the Rocky Mountains is a travel book, by Isabella Bird, describing her 1873 trip to the Rocky Mountains of Colorado. The book is a compilation of letters that Isabella Bird wrote to her sister, Henrietta. In 1872, Isabella left Britain, going first to Australia, then to Hawaii, which she refers to as the Sandwich Islands. In 1873 she travelled to Colorado, then the Colorado Territory. After living a time in Hawaii, she takes a boat, to San Francisco. She passed the area of Lake Tahoe, to Cheyenne, Wyoming, to ultimate Estes Park, Colorado, also elsewhere in and near the Rocky Mountains of the Colorado Territory. Early in Colorado, she met Rocky Mountain Jim, described as a desperado, but with whom she got along quite well. She described him as, He is a man whom any woman might love but no sane woman would marry. She was the first white woman to stand atop Longs Peak, Colorado, pointing out that Jim dragged me up, like a bale of goods, by sheer force of muscle. Rocky Mountain Jim treated her quite well, and it is sad to note, he was shot to death, seven months later. After many other adventures, Isabella Bird ultimately took a train, east. Upon publication, A Lady's Life in the Rocky Mountains proved an instant bestseller and is still considered to be her best work.

Bark Canoes and Skin Boats of North America Edwin Tappan Adney,Howard I. Chapelle,2007-10-17 The bark canoes of the North American Indians, particularly those of birchbark, were among the most highly developed manually propelled primitive watercraft. Built with Stone Age tools from available materials, their design, size, and appearance were varied to suit the many requirements of their users. Even today, canoes are based on these ancient designs, and this fascinating guide combines historical background with instructions for constructing one. Author Edwin Tappan Adney, born in 1868, devoted his life to studying canoes and was practically the sole scholar in his field. His papers and research have been assembled by a curator at the Smithsonian Institution.

National Geographic Guide to National Parks of the United States 9th Edition National Geographic,2021-02-02 There's simply no better getaway in the United States than a visit to one of the country's 62 national parks from Alaska to the Virgin Islands, from Maine to America Samoa. Whether you're looking to explore the underground world of Mammoth Caves or make your way through the mangroves of Everglades National Park, you'll find a destination that suits your needs, and inspiration to plan your next wild adventure. In addition to park details and descriptions, this sparkling new edition features week-long regional road trip itineraries s so you can visit multiple parks in one vacation. Filled with more than 300 dazzling photographs and 80 full-color maps, this inspiring book reveals the best the United States has to offer-right in its own backyard.

Ansel Adams' Yosemite Ansel Adams,2019-10-01 America's greatest photographer on his greatest subject--featuring the Yosemite Special Edition Prints, a collectible collection of photographs selected by Ansel Adams during his lifetime, yet never before published in book form. The photographs of Ansel Adams are among America's finest artistic treasures, and form the basis of his tremendous legacy of environmental activism. In the late 1950s, Adams selected eight photographs of Yosemite National Park to offer exclusively to park visitors as affordable souvenirs. He hoped that these images might inspire tourists to become activists by transmitting to them the same awe and respect for nature that Yosemite had instilled in him. Over the following decades, Adams added to this collection to create a stunning view of Yosemite in all its majesty. These photographs, the Yosemite Special Edition Prints, form the core of this essential volume. Adams' luminous images of Yosemite's unique rock formations, waterfalls, meadows, trees, and nature details are among the most distinctive of his career. Today, with America's public lands increasingly under threat, his creative vision remains as relevant and convincing as ever. Introduced by bestselling photographer Pete Souza, with an essay by Adams' darkroom assistant Alan Ross, Ansel Adams' Yosemite is a powerful continuation of Adams' artistic and environmental legacies, and a compelling statement

during a precarious time for the American earth.

The developmental implications of Sino-African economic and political relations George Schoneveld, Laura German, Davison Gumbo, 2014-03-26 This scoping study evaluates the nature, scope, and scale of Chinese trade and investment relations in the primary sector of mineral-rich Zambia. It details how, despite diplomatic ties dating back to the liberation struggle of the 1960s, economic and political relations between the two countries matured only over the 2000s. This has focused primarily on the mining sector, with Chinese companies, many of which are state owned, investing heavily in mineral prospecting, copper mining and smelting, and associated (service) industries. With most investment activities targeting the mining sector, contrary to popular perception, China's direct participation in other primary sectors, such as forestry and agriculture, is negligible.

With Zambia's economy long struggling under external debts, Chinese investments have made a valuable contribution to Zambia's economic recovery. Most significantly, capital injections in the mining sector have led to a rehabilitation of dilapidated mining infrastructure, while enhancing the country's production capacity through the construction of new processing facilities and the development of greenfield mines. These investments have proven to be more stable and less subject to commodity price fluctuations than their Western counterparts. Moreover, while Chinese investors are widely criticized for their poor corporate performance, on most labor-related and environmental dimensions, Chinese mines perform on-par with industry averages. Chinese investors do appear more inclined to rely on close relations with the Zambian government and geographic clustering with other Chinese investors to forge a favorable and stable operating environment, which could adversely impact on their social responsiveness and government revenue generation. However, early evidence appears to contradict many of the long-held assumptions about Chinese economic and political participation in resource-rich countries.

Sustainable Commodity Use Maximilian Eduard Oehl, 2021-12-07 This open access book examines the governance and legal landscape of the global commodity sector. For that purpose, the author conceptualises both Global Commodity Governance (GCG) as well as Transnational Commodity Law (TCL). He defines the key terms of Global Commodity Governance, delineates the underlying legal framework of Transnational Commodity Law, and assesses the effectiveness of Transnational Commodity Law in fostering a functional commodity sector. "Sustainable Commodity Use" is based on a comprehensive analysis of over 250 international agreements, standards, and guiding documents. The author distils the main findings into a conceptualisation of Transnational Commodity Law and provides the reader with a succinct overview of its normative configurations as well as regulatory gaps. Moreover, he elaborates a taxonomy of International Commodity Agreements. In addition, an outline of the normative substance of Transnational Commodity Law features in an appendix to the main text. The author concludes by making concrete suggestions on how rules regulating commodity activities de lege ferenda could and should be designed to improve the effectiveness of law regulating transnational commodity activity. In doing so, he demonstrates the application of the sustainable use principle as the overall objective and purpose of Transnational Commodity Law and discusses International Commodity Agreements as future regulatory instruments. This book may assist lawmakers, practitioners, civil society advocates, and academics worldwide in developing a legal framework for sustainable global commodity activity.

Managing Protected Areas in Central and Eastern Europe Under Climate Change Sven Rannow, Marco Neubert, 2014-01-18

Beginning with an overview of data and concepts developed in the EU-project HABIT-CHANGE, this book addresses the need for sharing knowledge and experience in the field of biodiversity conservation and climate change. There is an urgent need to build capacity in protected areas to monitor, assess, manage and report the effects of climate change and their interaction with other pressures. The contributors identify barriers to the adaptation of conservation management, such as the mismatch between planning reality and the decision context at site level. Short and vivid descriptions of case studies, drawn from investigation areas all over Central and Eastern Europe, illustrate both the local impacts of climate change and their consequences for future management. These focus on ecosystems most vulnerable to changes in climatic conditions, including alpine areas, wetlands, forests, lowland grasslands and coastal areas. The case studies demonstrate the application of adaptation strategies in protected areas like National Parks, Biosphere Reserves and Natural Parks, and reflect the potential benefits as well as existing obstacles. A general section provides the necessary background information on climate trends and their effects on abiotic and biotic components. Often, the parties to policy change and conservation management, including managers, land users and stakeholders, lack both expertise and incentives to undertake adaptation activities. The authors recognise that achieving the needed changes in behavior - habit - is as much a social learning process as a matter of science-based procedure. They describe the implementation of modeling, impact assessment and monitoring of climate conditions, and show how the results can support efforts to increase stakeholder involvement in local adaptation strategies. The book concludes by pointing out the need for more work to communicate the cross-sectoral nature of biodiversity protection, the value of well-informed planning in the long-term process of adaptation, the definition of acceptable change, and the motivational value of exchanging experience and examples of good practice.

Advanced GNSS Tropospheric Products for Monitoring Severe Weather Events and Climate Jonathan Jones, Guergana

Guerova, Jan Douša, Galina Dick, Siebren de Haan, Eric Pottiaux, Olivier Bock, Rosa Pacione, Roeland van Malderen, 2019-09-16 The book (COST Action Final report) summarises the proceedings from COST Action ES1206. COST Action ES1206, Advanced GNSS Tropospheric Products for Severe Weather Events and Climate (GNSS4SWEC), was a 4-year project, running from 2013 to 2017, which coordinated new and improved capabilities from concurrent developments in GNSS, meteorological and climate communities. For the first time, the synergy of multi-GNSS constellations was used to develop new, more advanced tropospheric products, exploiting the full potential of multi-GNSS on a wide range of temporal and spatial scales - from real-time products monitoring and forecasting severe weather, to the highest quality post-processed products suitable for climate research. The Action also promoted the use of meteorological data as an input to real-time GNSS positioning, navigation, and timing services and has stimulated knowledge and data transfer throughout Europe and beyond.
