Taiwan Today Anita Sharma,Sreemati Chakrabarti,2010-08-15 The 1980s economic boom in East Asia drew the world's attention towards Taiwan. India-Taiwan economic relations have been growing and the setting up of economic and cultural centres has promoted people-to-people contacts. Cultural and educational ties between the two nations are also increasing. This book is inspired by a conference titled 'Taiwan Today' organized by the Department of East Asian Studies, University of Delhi. The Department of East Asian Studies is one of the few academic centres where all the entities in the East Asian region are studied and researched. This book will be very useful for those interested or engaged in research on East Asia.

China-Taiwan Rapprochement Min-Hua Chiang,2015-10-30 This book examines how since about 2008 the economy of Taiwan has become ever more deeply integrated into the economy of China. It goes beyond a consideration of trade and investment flows, and discusses also the large population flows, the growing integration of the two financial systems and the nature of the deep economic integration at the industry and firm level. It considers the impact of growing economic integration on society and politics, assesses how China-Taiwan economic integration is affecting the East Asian region more widely, and explores the implications for international relations, including the United States dominance in the region. Overall, the book presents a comprehensive analysis of all the issues.

Civil-Military Change in China Elites, Institutes, and Ideas after the 16th Party Congress Larry Wortzel,2004 In November 2002, the Chinese Communist Party held its 16th Congress and formally initiated a sweeping turnover of senior leaders in both the Party and the People's Liberation Army (PLA). The meeting heralded not merely a new set of personalities in positions of political and military power, but also the emergence of a new generation of leaders. Who are these individuals, and what does their rise mean for the future of China and its military? The group of China specialists who have written this book have applied their research talents, intelligence, and hands-on experience to clarify and explain the most important issues of the day in China. China obviously matters to the United States because of its size, its spectacular patterns of growth, its profound problems linked to rapid growth, and its military intentions. These specialists have avoided the diseases of bias, demagoguery, predispositions, and showmanship, which infect so many of the analyses of China. Rather, they have examined the facts and the trends to explain the divisions and cohesions in the Chinese leadership and their potential significance to the United States and the rest of the world. These annual conferences have a long continuity stretching back to the early 1990s. Hence, there is a common database for the books produced each year. The writers revisit major problems in China's development, particularly in the military sphere. They also examine how Chinese policies have evolved over the years, and how important the United States has been in influencing China's strategy. What, for instance, will the emerging leadership with its factious differences do about Taiwan and North Korea? The conference took place at the Carlisle Barracks in September 19- 21, 2003, and was sponsored by the American Enterprise Institute, the Heritage Foundation and the Army War College. The exchanges were frank, the atmosphere was filled with camaraderie and tension.

Defending Taiwan Martin Edmonds,Michael Tsai,2013-10-18 Recent concern about mainland China's intentions towards Taiwan, and more general concern about the risk of instability in the region, has led to growing interest in Taiwan's military strategy, in how Taiwan perceives threats to itself, and in how the Taiwanese military are reacting to these perceived threats. This book, which includes contributions by leading Taiwanese military thinkers, explores current military strategy in Taiwan and how it is evolving. It discusses Taiwan's military modernisation, and the implications of the recent defeat after fifty years in power of the Kuomintang Party, implications which include a move away from an authoritarian garrison state culture, and the beginnings of a more open debate about defence. The book concludes with an overall appraisal of Taiwan's defence vision and makes recommendations on how Taiwan's defence might be enhanced.

Taiwan's Relations with Mainland China Chi Su,2008-09-11 Taiwan's Relations with Mainland China is the first book to deal with the role of Taiwan's leadership politics, including the personal political styles of Lee Teng-hui and Chen Shui-bian, in the development of Taiwan's mainland policy and the consequences for U.S.-Taiwan relations. Including analysis of the critical and volatile 1988-2004 period, the Taiwan Straits crisis and cross-strait tension associated with the 2004 Taiwan presidential campaign, Su Chi weaves in his personal participation in Taiwan policy making during critical periods in Taiwan's diplomatic history to provide insight and information on cross-strait relations that is not available elsewhere As a study of Taiwan's mainland and US policy this will be a fascinating read for students and scholars of Taiwan Politics, Chinese Foreign Policy and East Asian Security studies alike.

Press Freedom in Contemporary Asia Tina Burrett,Jeffrey Kingston,2019-11-05 This book analyzes the constraints on press freedom and the ways in which independent reporting and reporters are at risk in contemporary Asia to provide a barometer of democratic development in the region. Based on in-depth country case studies written by academics and journalists, and some who straddle both professions, from across the region, this book explores the roles of mainstream and online media, and how they are subject to abuse by the state and vested interests. Specific country chapters provide up-to-date information on Bangladesh, Kashmir, Malaysia, Myanmar, Nepal, Pakistan, Sri Lanka, Taiwan, Thailand and Vietnam, as well as on growing populist and nationalist challenges to media freedom in the Philippines, India, Indonesia and Japan. The book includes a theoretical chapter pulling together trends and common constraints facing newsrooms across Asia and a regional overview on the impact of social media. Three chapters on China provide insights into the country's tightening information environment under President Xi Jinping. Moreover, the legal environment of the media, political and external pressures, economic considerations, audience support and journalists' standards and ethics are explored. As an international and interdisciplinary study, this book will appeal to undergraduates, graduates and scholars engaged in human rights, media studies, democratization, authoritarianism and Asian Studies, as well as Asia specialists, journalists, legal scholars, historians and political scientists.

Taiwan's Security Bernard Cole,2006-06-19 This is the first explanation and evaluation of Taiwan's defence forces and infrastructure. It examines not only Taiwan's armed forces, but also its Ministry of National Defence, personnel issues, and civil-military relations. This book provides crucial base-line data and evaluation of one of the major participants in an ongoing crisis across the Taiwan Strait that has the potential of involving China and the United States in armed conflict. It examines the danger of a possibly nuclear conflict between China and the United States which would seriously disrupt all of East Asia. It also shows how Taiwan's defence policies and actions do not match the threat - Taipei needs to develop and pursue realistic policies. This is essential reading for all students of East Asian security and Sino-American relations and of international and security studies in general.

China's Capital Markets Kam C. Chan,Hung-gay Fung,Qingfeng "Wilson". Liu,2007-01-01 'This book is a welcome addition to Edward Elgar's series on the Chinese economy. It provides a wealth of information on the historical development and the current state of the Chinese financial system. Particularly useful for readers who do not have access to the original Chinese literature are the overviews of each market and the many detailed accounts of the historical development of markets and regulations.' - Nicolaas Groenewold, Pacific Affairs

Policing Cybercrime David S. Wall,Matthew Williams,2017-12-22 Cybercrime has recently experienced an ascending position in national security agendas world-wide. It has become part of the National Security Strategies of a growing number of countries, becoming a Tier One threat, above organised crime and fraud generally. Furthermore, new techno-social developments in social network media suggest that cyber-threats will continue to increase. This collection addresses the recent 'inertia' in both critical thinking and the empirical study of cybercrime and policing by adding

to the literature seven interdisciplinary and critical chapters on various issues relating to the new generation of cybercrimes currently being experienced. The chapters illustrate that cybercrimes are changing in two significant ways that are asymmetrical. On the one hand cybercrime is becoming increasingly professionalised, resulting in 'specialists' that perform complex and sophisticated attacks on computer systems and human users. On the other, the 'hyper-connectivity' brought about by the exponential growth in social media users has opened up opportunities to 'non-specialist' citizens to organise and communicate in ways that facilitate crimes on and offline. While largely distinct, these developments pose equally contrasting challenges for policing which this book addresses. This book was originally published as a special issue of Policing and Society.

The Information Revolution in Military Affairs in Asia E. Goldman, T. Mahnken, 2004-07-22 The contributors to this volume seek to explore the multi-dimensional (institutional, cultural, technological, and political) environments of several Asian states to determine the amenability of those host environments for the adoption/adaptation of the Revolution in Military Affairs (RMS).

The Political Economy of Press Freedom Jaw-Nian Huang, 2019-08-01 This book offers a political economy analysis of the development and degradation of freedom of the press in Taiwan since 1949, exploring how state-business elites and foreign hegemons interacted to shape the evolution of Taiwan's media. It examines why freedoms increased alongside democratization in the 1990s but deteriorated after the second peaceful turnover of power in 2008 and why significant improvements accompanied Taiwan's close economic connections with the US during the Cold War, only to become eroded as the country developed deeper economic ties with China in the 21st century. Presenting both a domestic and international perspective, this study of the controversial case of Taiwan ultimately argues in favor of three factors. First, state power is not the only threat to press freedom, as corporate organizations and market forces may also play a role in curtailing it. Second, cross-national economic connections do not always improve human and civil rights but may cause damage when they involve more powerful authoritarian countries. Third, just as norms diffuse from liberal contexts to repressive states, repressive norms are also likely to diffuse from powerful authoritarian countries to more liberal but politically and economically weaker ones. Providing a new viewpoint on China's media control overseas, *The Political Economy of Press Freedom* will be useful for students and scholars of Chinese Studies and Taiwan Studies as well as comparative politics, international relations and Media Studies.

The Construction of National Identity in Taiwan's Media, 1896-2012 Chien-Jung Hsu, 2014-03-20 The Construction of National Identity in Taiwan's Media, 1896-2012 provides the most comprehensive analysis of the development of Taiwan's media and the formation of national identity in Taiwan's media from 1896 to 2012.

Colonial Project, National Game Andrew D. Morris, 2011 Morris successfully weaves the intricacies of baseball's history into a compelling narrative while giving us a keen analysis of its larger significance. It is rare to find someone who can pull that off. This is an absorbing and distinguished addition to sports history, to Taiwanese history, and to studies of colonialism and its aftermath.-- William Kelly, Yale University *Colonial Project, National Game* offers an engaging and penetrating analysis of the culture of baseball in Taiwan, in both its local and global conditions. Morris weaves details into a compelling narrative that is as much about the game on the field as the game being played out in the arenas of ethnicity, nationalism and geopolitics. Morris's study is a model of sophistication and lucidity. He demonstrates that through a perceptive reading of the mundane world of curve balls and player contracts, we can better understand the ideological substructure of the social.-- Joseph R. Allen, University of Minnesota, Twin Cities

Advances in Chinese Spoken Language Processing Chin-Hui Lee, 2007 After decades of research activity, Chinese spoken language processing (CSLP) has advanced considerably both in practical technology and theoretical discovery. In this book, the editors provide both an introduction to the field as well as unique research problems with their solutions in various areas of CSLP. The contributions represent pioneering efforts ranging from CSLP principles to technologies and applications, with each chapter encapsulating a single problem and its solutions. A commemorative volume for the 10th anniversary of the international symposium on CSLP in Singapore, this is a valuable reference for established researchers and an excellent introduction for those interested in the area of CSLP.

Chinese Armed Forces in the 21st Century, 2001-05 Examines the armed forces of the People's Republic of China & how they will evolve. Includes papers prepared for the 8th in a series of conferences on the People's Liberation Army (PLA). Papers include: geographic ruminations; the Chinese military & the peripheral states in the 21st cent.; PLA capabilities in the 21st cent.: how does China assess its future security needs?; advanced military technology & the PLA: priorities & capabilities for the 21st cent.; U.S.-Chinese military relations in the 21st cent.; Taiwan's military in the 21st cent.: redefinition & reorganization; Taiwan's military: a view from afar; & the political angle -- new phenomena in Party-Army relations.

The Chinese Armed Forces in the 21st Century, 1999 The debate about China and Taiwan is re-emerging in the United States. The accidental bombing of the Chinese Embassy in Belgrade, of course, put on the front burner the way that nationalistic fervor has grown in China, at least some of it as a result of manipulation by the Communist Party. President Lee Teng-hui's comments about state-to-state relations between Taiwan and the mainland raised the temperature of relations across the strait and among the three concerned parties (China, the United States, and Taiwan). China threatened, China postured, and China ran political campaigns against the United States and Lee. But the questions of military capability, security policy, and intent are rarely treated seriously. This book is a serious look at the armed forces of China and how they will evolve.

Breaking the China-Taiwan Impasse Donald S. Zagoria, 2003-10-30 Tensions between China and Taiwan are not likely to abate in the foreseeable future. The question of Taiwan's sovereignty is the major point of friction, and the continuing impasse between China and Taiwan is worrisome. Zagoria presents perspectives from Washington, Beijing, and Taipei on cross-strait tensions, exploring ways to break the current standoff. Tensions between China and Taiwan are not likely to abate in the foreseeable future. The question of Taiwan's sovereignty is the major point of friction, and the continuing impasse between China and Taiwan is worrisome. Should critical political negotiations falter, relations are likely to take on stronger military overtones, and the PRC may well develop a sense of urgency about Taiwan drifting towards independence. These, at least, are the broad conclusions drawn from the ongoing dialogues among top U.S., Chinese, and Taiwanese figures, sponsored by the National Committee on American Foreign Policy. This Track II project provides a forum for top policy analysts from each country to discuss trilateral relations in a frank and constructive manner, and is an effort to explore means of peacefully resolving the current impasse. Among the more significant findings is that the more serious risks of conflict will probably occur in the distant future, hinging on whether economic integration can gradually lead to a reduction of political tensions, and that the United States should continue to oppose any declaration of independence by Taiwan and any use of force by China.

Cross-Taiwan Straits Relations Since 1979 Kevin G. Cai, 2011 With the KMT regaining power from the DPP on May 20, 2008, both Beijing and Taipei have been adjusting their policies toward each other. However, these recent changes can be seen as part of the overall ongoing process of policy adjustment in both Beijing and Taipei, in response to changing domestic and external conditions since the 1980s. This book explores the process of attitude change and policy adjustment on both sides of the Straits since the 1980s and offers policy recommendations.

The Crab and Frog Motion Paradigm Shift Peter Kien-hong Yu, 2002 In Crab and Frog Motion Paradigm Shift, Peter Kien-hong Yu presents a dialectical approach to the study of Chinese

(Communist) politics. Yu demonstrates that the application of non-dialectical approaches to the study of Chinese politics over the last eighty years is misguided, due to ample evidence showing that Chinese political figures made use of a particular version of dialectics in their thought and actions.
