Chinese Biblical Anthropology Jian Cao, 2019-06-28 In this study that is largely intellectual history, Cao Jian observes how Old Testament motifs were introduced by Protestant missionaries and Bible translators, with the help of Chinese co-workers in the beginning, and how those motifs drew attention from local converts and led to discussions among them in light of the norms in Confucianism. Then, Cao demonstrates how Confucian reformists started reacting to missionary publications and showing interest in Old Testament motifs. After the defeat of China in 1894-1895 in the Sino-Japanese War, the response to the Old Testament became more active and influential among China's population. The author shows new interests and tendencies in Old Testament interpretation among educated Chinese with various political ideals at a time of national crisis. He also demonstrates how the vernacular movement in Bible translating and missionary Old Testament education popularized and modernized Old Testament reading and studies in Chinese society. After that transitional period, discussions of Old Testament motifs became even more abundant and diverse. The author concentrates on those regarding the notion of God and monotheism. In China's nationalism, the Old Testament proved no less stimulating. The author deals with Moses and the prophets to understand how they became valid to those active in both religious and secular realms.

The Bible in China Jost Oliver Zetzsche, 1999 The Union Version, China's preeminent and most widely used translation of the Bible, had achieved the status of a sacred Chinese classic within the Chinese Church not long after its publication in 1919. Jost Zetzsche's monograph on this remarkable translation traces the historical and

linguistic background that led to the decision to translate the Union Version, with detailed analyses of the translation efforts that preceded it. Special attention is given to the cooperation and confrontation among Protestant denominations as well as the rising prominence of the Chinese translators as these groups attempted to form a cohesive translation of the Bible. This is set against the background of the development of the Chinese language during the 30-year translation process, both in the perception of the translators and in the country at large.

Biblical Translation in Chinese and Greek Toshikazu S. Foley,2009 This study integrates three independent subjects - translation theory, Mandarin aspect, and Greek aspect - for the purpose of formulating a working theory applicable to translating the Bible. The primary objectives are defined in terms of grammatical translation of Greek aspect into Mandarin aspect at the discourse level. A historical overview of the Chinese Bible is provided as a way of introducing major translation issues related to linguistic, conceptual, and logistical challenges. The proposed theory provides the translator with a powerful tool, which is tested in two sample passages from John 18-19 and 1 Corinthians 15. Provided, also, are critical reviews of over sixty Chinese Bible versions, Nestorian, Manichaean, Catholic documents, and a translation written according to the proposed theory.

The Catholic Church, The Bible, and Evangelization in China Cindy Yik-yi Chu, 2022-01-01 This edited volume starts from the perspectives of Beijing in how it sees that religion should serve the interests of the state. From China's viewpoint, religion should act as a stabilizing force of society, or else the Christian Churches will lose their reason for existence. This might be incomprehensible to Western Christians, who believe in the freedom of religion and their right to embrace their faith. This collection of articles represents the concerted efforts of Chinese, Italians, and an American—who live in China, Europe, and the United States and belong to different disciplines, such as History, Religious Studies, and Language Studies—to promote a better understanding of the Catholic Church in the world and in China.
