Chinese Astrology Shelly Wu,2005-06-15 “He who knows others is learned. He who knows himself is wise.” –Lao-Tzu The quest for self-knowledge has been a universal human pursuit for millennia. Who are we? And could our destiny be written in the stars? Why do some commit their wings to life's flames, while others tiptoe through life so cautiously? In a quest for answers to these questions, there has been an explosion of renewed interest in Chinese astrology. Awareness of our essential nature provides insight into our most intimate relationships...and into ourselves. Chinese Astrology: Exploring the Eastern Zodiac/i> explains our “natural endowment” or “inner being”—our personality from the beginning. This 5,000-year-old art paints a remarkable picture of personality and potential using the archetypes of the 12 signs of the ancient Eastern zodiac. While each one of us possess some qualities of all 12 signs, we each have a dominant sign and birth element. Be prepared for some ah ha! moments as you explore this ancient art and gain insight into the characters of those you meet along life’s path. You may notice interesting similarities to your friends and family, and you may never look at yourself the same way again. This is a timeless system that is as pertinent today as it was many centuries ago. In a book that will fascinate both devotees of Western astrology and those who have never even checked their horoscopes in the newspaper, you’ll learn – The twelve signs of the Eastern Zodiac and what they tell you about yourself and others. – The Five Elements, and how your birth element influences your destiny. – Chinese love signs, karmic connections, and the secrets of soul mates. – Your Chinese birth hour “companion”—your other self.

Ming Shu Derek Walters,Dereck Walters,1987 Describes the twelve animals of the Chinese zodiac, lists the characteristics of individuals born under each sign, and shows how to prepare a horoscope.

The Definitive Book of Chinese Astrology Shelly Wu,2010-01-21 This is the only Chinese astrology book you'll ever need! You may be familiar with the Chinese birth-year animals, but did you know you actually have four of them? Each year, each month, each day, and each two-hour period of the day is distinct and denoted by a particular animal sign (branch) and one of the five elements (stems). In The Definitive Book of Chinese Astrology, you will learn how to forecast your love- and life-cycles; understand the indicators of health, wealth, and happiness in your chart; and identify balances and cures. You will also discover Zi Wei Dou Shu, the best-kept astrological secret for millennia and formerly accessible only to royalty. The most accurate and profound divination tool ever discovered—a sort of Dewey decimal system of the universe—this system of astrology will help you identify your inborn capabilities, achievement potential, and life path. Finally, you will learn about the Eastern astrological subspecialties, including the I-Ching, feng shui, 9 Star Ki, and Chinese palmistry. The included interactive CD-Rom makes it easy to create Chinese astrological charts for yourself, your friends, and family members. *The CD contains 1391 KB of information in total so it is not blank. If the customer's operating system is not any of the following (Windows 7, 98se, 2000, XP, or Vista), he or she will not be able to install the program and hence will not be able to view the instructional text.

Chinese Astrology Man-Ho Kwok,2006 Astrology is one of the most ancient Chinese arts. Unlike Western astrology which revolves around the movement of the sun and the planets, Chinese astrology relates to the movement of the moon, which is why the Chinese New Year falls at a different time to the Western New Year. Celebrating the Chinese New Year has become a popular tradition in the West and most people are familiar with their Chinese animal sign, but how many actually know what their sign represents, how compatible it is with other signs, and how it relates to the wider and more mysterious field of Chinese divination? Chinese Astrology shows you, clearly, and simply, how to make accurate readings about every aspect of your life based on your date and time of birth according to the Chinese calendar. From your love life to your business prospects, and from your own personality to your compatibility with others, it offers a wealth of advice which gives invaluable insight into almost any situation. It also draws on material never before published in the West, courtesy of the Taoist Association's network of astrologers across mainland China.

Chinese Astrology Kay Tom,2023-11-08 People may be familiar with the celebrations around Chinese New Year (usually towards the end of January or beginning of

February) and how the year is devoted to a particular animal. As with the more commonly known form of astrology, there are 12 signs (such as the ox, the rabbit, the dragon and the tiger), but these signs are also combined with a 60-year calendar and the five elements of metal, wood, water, fire and earth to form a fascinating and unique system that gives insight into people's characters and considers how they will be affected during different years of the calendar's cycle. Drawing on the principles of yin and yang and the Chinese philosophical theory of the three harmonies, this fascinating work is a wonderful introduction to the subject.

He in all probability has millions of rules and laws such as law of gravitation, vastu, fengshui, Chinese astrology, vedic astrology, numerology, dowsing and not denying some sciences that we developed like Chemistry, Physics. God has set a path to run this world and these hidden knowledge were discovered only when God allowed. This book teaches basics of understanding one of many rules and laws which we term as Vedic Astrology.
