Main entries are in Romanized Japanese with Chinese characters, if any. In the second line, parts of speech label ([n.] for nouns and [v.] for verbs) and the entry's Chinese equivalents in Pinyin (Romanized standard Chinese pronunciation) followed by Chinese characters (both simplified and traditional if applicable). Then, in the third line, entry's English equivalents with standard American pronunciation with focus on stressed syllable\*in bold print.. A syllable is part of a word that contains one vowel sound. In every word of two or more syllables, one syllable is stressed. It's called 'stressed syllable'. The vowel sound in that syllable is louder, higher in pitch, and longer than the other vowel sounds in the same word. The contrast between stressed and unstressed syllables is very important because it helps to create the rhythm of English. The native English speakers rely more on stressed syllable to understand what you say than on the individual sounds of the word. This book is ideal for learners of Japanese, Chinese, and English as a second language who want to communicate more effectively. The Chinese and the Japanese Akira Iriye, 2014-07-14 Together these essays tell the story of how two highly self-conscious cultures, with long and proud traditions of their own, have defined themselves both with respect to one another and under the influence of the West. Originally published in 1980. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. **North China and Japanese Expansion, 1933-1937** Marjorie Dryburgh, 2000 This work draws on a wide range of Chinese and Japanese sources to analyse the uncertain loyalties and complex internal pressures that drove Sino-Japanese interaction in prewar north China. It examines the shifting understandings of the North China problem in its practical, political and moral aspects, and challenges existing assumptions concerning Chinese relations with Japan and their impact on domestic politics.

**Chinese Fans of Japanese and Korean Pop Culture** Lu Chen, 2017-09-05 How can Japanese popular culture gain numerous fans in China, despite pervasive anti-Japanese sentiment? How is it that there's such a strong anti-Korean sentiment in Chinese online fan communities when the official Sino-Korean relationship is quite stable before 2016? Avid fans in China are raising hundreds of thousands of dollars in funding to make gifts to their idols in foreign countries. Tabloid reports on Japanese and Korean celebrities have been known to trigger nationalist protests in China. So, what is the relationship between Chinese fandom of Japanese and Korean popular culture and nationalist sentiment among Chinese youth? Chen discusses how Chinese fans of Japanese and Korean popular culture have formed their own nationalistic discourse since the 1990s. She argues that, as nationalism is constructed from various entangled ideologies, narratives, myths and collective memories, popular culture simply becomes another resource for the construction of nationalism. Fans thus actively select, interpret and reproduce the content of cultural products to suit their own ends. Unlike existing works, which focus on the content of transnational cultural flows in East Asia, this book focuses on the reception and interpretation of the Chinese audience.

The Truth about China and Japan (Routledge Revivals) Putnam Weale, 2016-01-29 This title, first published in 1921, aimed to present for the reader a glance into what the position was in Eastern Asia at the beginning of the twentieth century. This book will be of interest to student of history, politics and Asian Studies.

**Writing and Literacy in Chinese, Korean and Japanese** Insup Taylor, Martin M. Taylor, Maurice Martin Taylor, 1995-01-01 Chinese, Japanese, South (and North) Koreans in East Asia have a long, intertwined and distinguished cultural history and have achieved, or are in the process of achieving, spectacular economic success. Together, these three peoples make up one quarter of the world population. They use a variety of unique and fascinating writing systems: logographic Chinese characters of ancient origin, as well as phonetic systems of syllabaries and alphabets. The book describes, often in comparison with English, how the Chinese, Korean and Japanese writing systems originated and developed; how each relates to its spoken language; how it is learned or taught; how it can be computerized; and how it relates to the past and present literacy, education, and culture of its users. Intimately familiar with the three East Asian cultures, Insup Taylor with the assistance of Martin Taylor, has written an accessible and highly readable book. *Writing and Literacy in Chinese, Korean and Japanese* is intended for academic readers (students in East Asian Studies, linguistics, education, psychology) as well as for the general public (parents, business, government). Readers of the book will learn about the interrelated cultural histories of China, Korea and Japan, but mainly about the various writing systems, some exotic, some familiar, some simple, some complex, but all fascinating.

**Chinese Economic History Since 1949** Michael Dillon, 2017-06-01 *Key Papers in Chinese Economic History since 1949* offers a selection of outstanding articles that trace the origins of the modern Chinese economy. Topics covered include agriculture and the rural economy; industrialisation and urbanisation; finance and capital; political economy and international connections.

**Chinese-Japanese Relations in the Twenty First Century** Marie Söderberg, 2003-08-29 This important collection

analyses the changing context of China's relationship with Japan. Its eminent international contributors address core issues including strategic concerns; security; the issue of Taiwan; diplomacy; economic relations; trade; the role of firms and currency. The book brings together a wide range of perspectives to offer a rich and varied understanding of one of Asia's most crucial and complex relationships.

**The Chino-Japanese Negotiations** China,2015-05-05 From the introductory. OFFICIAL STATEMENT BY THE CHINESE GOVERNMENT RESPECTING THE CHINO-JAPANESE NEGOTIATIONS BROUGHT TO A CONCLUSION BY CHINA'S COMPLIANCE WITH THE TERMS OF JAPAN'S ULTIMATUM DELIVERED ON MAY 7, 1915 At three o'clock on the afternoon of May 7, 1915, His Excellency Japanese Minister in Peking delivered to the Chinese government in person an Ultimatum from the Imperial Japanese Government, with an accompanying Note of seven articles. The concluding sentences of the Ultimatum read thus: The Imperial Government hereby again offer their advice and hope that the Chinese Government, upon this advice, will give a satisfactory reply by six o'clock p.m. on the ninth day of May. It is hereby declared that if no satisfactory reply is received before or at the specified time the Imperial Government will take such steps as they may deem necessary. The Chinese Government- having received and accepted the Ultimatum- feel constrained to make a frank and plain statement of the facts connected with the negotiations which were abruptly terminated by this drastic action on the part of Japan. The Chinese Government have constantly aimed, as they still aim, at consolidating the friendship existing between China and Japan, and, in this period of travail in other parts of the world, have been particularly solicitous of preserving peace in the Far East. Unexpectedly on January 18, 1915, His Excellency the Japanese Minister in Peking, in pursuance of instructions from his Government, adopted the unusual procedure of presenting to His Excellency the President of the Republic of China a list (hereto appended) of twenty-one momentous demands, arranged in five Groups. The first four Groups were each introduced by a preamble, but there was no preamble or explanation to the Fifth Group. In respect of the character of the demands in this Group, however, no difference was indicated in the document between them and those embodied in the preceding Groups. Although there was no cause for such a demarche, the Chinese Government, in deference to the wishes of the Imperial Japanese Government, at once agreed to open negotiations on those articles which it was possible for China to consider, notwithstanding that it was palpable that the whole of the demands were intended to extend the rights and interests of Japan without securing a quid pro quo of any kind for China. China approached the pending conferences in a spirit of utmost friendliness and with a determination to deal with all questions frankly and sincerely. Before negotiations were actually commenced the Japanese Minister raised many questions with regard to the number of delegates proposed to represent China, the number of conferences to be held in each week, and the method of discussion. The Chinese Government, though their views differed from those of the Japanese Minister, yielded in all these respects to his contentions in the hope of avoiding any delay in the negotiations.

*Chinese Battleship vs Japanese Cruiser* Benjamin Lai,2019-02-21 The 1894-95 war between China and Japan, known in the West as the First Sino-Japanese War, lasted only nine months, but its impact resonates today. The Chinese Beiyang (Northern) Fleet was led by her flagship, Dingyuan, and her sister ship, Zhenyuan, which were the biggest in Asia; German-built armoured turret ships, they were armed with four 12in guns and two 6in guns, plus six smaller guns and three torpedo tubes. For their part the Japanese fleet, including the Matsushima and her sister ships Itsukushima and Hashidate, were each armed with a single 12.6in Canet gun and 11 or 12 4.7in guns, plus smaller guns and four torpedo tubes. The scene was set for a bloody confrontation that would stun the world and

transform the relationship between China and Japan. Fully illustrated with stunning artwork, this is the engrossing story of the Yalu River campaign, where Chinese and Japanese ironclads fought for control of Korea.

*The Japanese Informal Empire in China, 1895-1937* Peter Duus, Ramon H. Myers, Mark R. Peattie, 2014-07-14 Building upon a previous study of Japan's colonial empire, this volume examines the period from 1895 to 1937 when Japan's economic, social, political, and military influence in China expanded so rapidly that it supplanted the influence of Western powers competing there. These fourteen essays discuss how Japan's informal empire emerged in China and how that empire influenced Japan's own internal development. Describes in rich detail Japan's organization of a wide range of cultural, educational, economic, military, and bureaucratic institutions that formed the mainstays of Japanese influence in China along with the trading, manufacturing, intelligence-gathering, and political intriguing which they managed.--Wen-hsin Yeh, *The Journal of Asian Studies* Originally published in 1989.
