**Translation and Bilingual Dictionaries** Chan Sin-wai,2013-02-06 Is the bilingual dictionary really the translator's best friend? Or is it the case that all translators hate all dictionaries? The truth probably lies half-way. It is difficult to verify anyway, as the literature on the subject(s) is limited, not helped by the fact that Lexicography and Translation have stood apart for decades despite their commonality of purpose. Here is a volume, based on the proceedings of a successful conference at Hong Kong, that may at last provide some answers.

*Terminology Translation in Chinese Contexts* Saihong Li,William Hope,2021-02-22 Terminology Translation in Chinese Contexts: Theory and Practice investigates the theory and practice of terminology translation, terminology management, and scholarship within the distinctive milieu of Chinese and explores the complex relationship between terminology translation (micro level) and terminology management (macro level). This book outlines the contemporary challenges of terminology translation and terminology management within Chinese contexts in specialized fields including law, the arts, religion, Chinese medicine, and food products. The volume also examines how the development and application of new technologies such as big data, cloud computing, and artificial intelligence have brought about major changes in the language service industry. Technology such as machine translation and computer-assisted translation has spawned new challenges in terminology management practices and has facilitated their evolution in contexts of ever greater internationalization and globalization. This book recontextualizes terminology translation and terminology management with a special focus on English–Chinese translation. It is hoped that the volume will enable and enhance dialogue between Chinese and Western scholars and professionals in the field. All chapters have been written by specialists in the different subfields and have been peer-reviewed by the editors.

**Robert Morrison: Translator in China** Ambassador,2017-08-17 Robert Morrison was the first Protestant missionary to China and a forerunner of the modern medical missionaries. He accomplished incredible things for God, including a translation of the Bible into Chinese, an Anglo-Chinese dictionary, and hundreds of Chinese tracts and translations. Morrison toiled for twenty-five years in China, and though his ministry was not blessed by great numbers of converts, he paved the way for other missionaries to come to China. His work for Christ was what mattered, not the praise of friends or the blame of his enemies. He worked ceaselessly, never faltering from the path of duty, which enabled him to accomplish work which seemed impossible. To all Christians he is a wonderful example.
