A Lublin Survivor Esther Minars, 2018-10-10 Daughter of Holocaust survivors, wife, mother, grandmother and genealogist Esther was given the opportunity to document her mother's wartime survival. In transcribing verbal testimony to book form, she has engaged deeply with historical records and studied how such awful events played out over the years of Nazi rule. The memories recorded are of a vibrant pre-war Jewish Lublin life extinguished forever and for her mother Eva, survival against all odds.

Snacks Janis Thiessen, 2017-09-08 Snacks is a history of Canadian snack foods, of the independent producers and workers who make them, and of the consumers who can't put them down. Janis Thiessen profiles several iconic Canadian snack food companies, including Old Dutch Potato Chips,

Hawkins Cheezies, and chocolate maker Ganong. These companies have developed in distinctive ways, reflecting the unique stories of their founders and their intense connection to specific locations. These stories of salty or sweet confections also reveal a history that is at odds with popular notions of “junk food.” Through extensive oral history and archival research, Thiessen uncovers the roots of our deep loyalties to different snack foods, what it means to be an independent snack food producer, and the often-quirky ways snacks have been created and marketed. Clearly written, extensively illustrated, and lavish with detail about some of Canadians’ favorite snacks, this is a lively and entertaining look at food and labour history.

Food Culture in Belgium Peter Scholliers, 2008-11-30 Belgian food and drink, often overshadowed by the those of powerhouse neighbors France and Germany, receive much deserved attention in this thorough overview, the most comprehensive available in English. Belgian waffles, chocolate, and beer are renowned, but *Food Culture in Belgium* opens up the entire food culture spectrum and reveals Belgian food habits today and yesterday. Students and food mavens learn about the question of Belgianness in discussions of the foodways of distinct regions of Flanders, Wallonia, and Brussels. Packed with daily life insight, consumption statistics, and trends gathered from the culinary community on the Web, this is the ultimate source for discovering what has been called the best-kept culinary secret in Europe. Scholliers thoroughly covers the essential information in the topical chapters on history, major foods and ingredients, cooking, typical meals, special occasions, eating out, and diet and health. He is keen to illuminate how Belgium's unique food culture has developed through time. Before independence in 1830, Belgian regions had been part of the Celtic, Roman, Spanish, Austrian, French, Dutch, and German empires, and Belgium's central location has meant that it has long been a trade center for food products. Today, Brussels is the European Union administrative center and a cosmopolitan dining destination. Readers learn about the ingredients, techniques, and dishes that Belgium gave to the world, such as pommes frites, endive, and beer dishes. A timeline, glossary, selected bibliography, resource guide with websites and films, recipes, and photos complement the essays.

Cocoa and Chocolate, 1765–1914 William Gervase Clarence-Smith,2003-09-02 Cocoa and Chocolate,1765-1914 focuses on the period from the Seven Years War, to the First World War, when a surge of economic liberalism and globalisation should have helped cocoa producers to overcome rural poverty, just as wool transformed the economy of Australia, and tea that of Japan. The addition of new forms of chocolate to Western diets in the late nineteenth century led to a great cocoa boom, and yet economic development remained elusive, despite cocoa producers having certain advantages in the commodity lottery faced by exporters of raw materials. The commodity chain, from sowing a cocoa bean to enjoying a cup of hot chocolate, is examined in Cocoa and Chocolate, 1765-1914 under the broad rubrics of chocolate consumption, the taxation of cocoa beans, the manufacture of chocolate, private marketing channels, land distribution, ecological impact on tropical forests, and the coercion of labour. Cocoa and Chocolate, 1765-1914 concludes that cocoa failed to act as a dynamo for development.
