Reducing Underage Drinking Institute of Medicine,National Research Council,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Developing a Strategy to Reduce and Prevent Underage Drinking,2004-03-26 Alcohol use by young people is extremely dangerous - both to themselves and society at large. Underage alcohol use is associated with traffic fatalities, violence, unsafe sex, suicide, educational failure, and other problem behaviors that diminish the prospects of future success, as well as health risks – and the earlier teens start drinking, the greater the danger. Despite these serious concerns, the media continues to make drinking look attractive to youth, and it remains possible and even easy for teenagers to get access to alcohol. Why is this dangerous behavior so pervasive? What can be done to prevent it? What will work and who is responsible for making sure it happens? Reducing Underage Drinking addresses these questions and proposes a new way to combat underage alcohol use. It explores the ways in which may different individuals and groups contribute to the problem and how they can be enlisted to prevent it. Reducing Underage Drinking will serve as both a game plan and a call to arms for anyone with an investment in youth health and safety.

*Growing Up Tobacco Free* Institute of Medicine,Committee on Preventing Nicotine Addiction in Children and Youths,1994-02-01 Tobacco use kills more people than any other addiction and we know that addiction starts in childhood and youth. We all agree that youths should not smoke, but how can this be accomplished? What prevention messages will they find compelling? What effect does tobacco advertising—more than \$10 million worth every day—have on youths? Can we responsibly and effectively restrict their access to tobacco products? These questions and more are addressed in *Growing Up Tobacco Free*, prepared by the Institute of Medicine to help everyone understand the troubling issues surrounding youths and tobacco use. *Growing Up Tobacco Free* provides a readable explanation of nicotine's effects and the process of addiction, and documents the search for an effective approach to preventing the use of cigarettes, chewing and spitting tobacco, and snuff by children and youths. It covers the results of recent initiatives to limit young people's access to tobacco and discusses approaches to controls or bans on tobacco sales, price sensitivity among adolescents, and arguments for and against taxation as a prevention strategy for tobacco use. The controversial area of tobacco advertising is thoroughly examined. With clear guidelines for public action, everyone can benefit by reading and acting on the messages in this comprehensive and compelling book.

**A Counter-Blaste to Tobacco** Henry King James I,James I King James I,2008-01-01 Anti-smoking campaigns are not new to the 20th century. King James was preaching against tobacco in the 17th century. James was King of Great Britain. He was James IV of Scotland, James I of England and king of Ireland. James was born in 1566 and was credited with being a wise scholar. His epithet read the wisest fool in Christendom. *A Counter-Blaste to Tobacco* was written in 1604. James spoke out against tobacco especially smoking. In *A Counter-Blaste to Tobacco*, James blames the Indians for bringing tobacco to Europe, he complains about passive smoking, warns his readers about possible lung damage, and finds the odor offensive. James wrote Have you not reason then to bee ashamed, and to forbear this filthie noveltie, so basely grounded, so foolishly received and so grossely mistaken in the right use thereof? In your abuse thereof sinning against God, harming your selves both in persons and goods, and raking also thereby the markes and notes of vanitie upon you: by the custome thereof making your selves to be wondered at by all forraine civil Nations, and by all strangers that come among you, to be scorned and contemned. A custome lothsome to the eye, hatefull to the Nose, harmefull to the braine, dangerous to the Lungs, and in the blacke stinking fume thereof, nearest resembling the horrible Stigian smoke of the pit that is bottomelesse.

*A Counter-Blaste to Tobacco* King James I,2020-02-07 King Jame VI of Scotland and I of England wrote this anti-smoking tract in 1604. It is a classic example of being right for all the wrong reasons, and of being ahead of its time. Smoking definitely is bad for your health, but not because it disturbs the four humours.

**Tobacco Use** Thomas P. Houston,1999-04 Report of a conference on the effects of tobacco use on health. Each workshop report contains background information relevant to the issue & recommendations for the future for each area. The recommendations are also summarized at the end of this report. Covers: women's issues; children & youth issues; minority issues; environmental tobacco smoke; regulation of tobacco products; excise tax; tobacco marketing & promotion; international health & tobacco use; state & local tobacco control battles; legal issue sin tobacco control; agricultural policy; \$ nicotine dependence. Workshop recommendations.

**Smoking** Paul Slovic,2001-05-23 This book presents a counter-view, based on a survey of several thousand young persons and adults, probing attitudes, beliefs, feelings, and perceptions of risk associated with smoking. The authors agree that young smokers give little or no thought to health risks or the problems of addiction. The survey data contradicts the model of informed, rational choice and underscores the need for aggressive policies to counter tobacco firms' marketing and promotional efforts and to restrict youth access to tobacco.
