student!

Class of 2024 School Supplies for Students,2019-07-30 This is an amazing weekly planner for the 8th grade student. It is perfect for staying organized once you're at school. At the beginning of each week this weekly planner will give you a bird's eye view of what's ahead. There is room to write your class assignments, due dates, and notes. At the end of the book is a month by month calendar. This feature makes it easier to plan out when you have time for your social life, when you'll work on larger tasks that need a large chunk of time, and when you'll have some down time. There are also pages specifically designed to help you organize projects you are required to complete. This planner will make a big difference in how you go through your day because everything is streamlined and helps you avoid forgetting anything important.

How to Teach Maths Steve Chinn,2020-11-23 How to Teach Maths challenges everything you thought you knew about how maths is taught in classrooms. Award-winning author Steve Chinn casts a critical eye over many of the long-established methods and beliefs of maths teaching. Drawing from decades of classroom experience and research, he shows how mathematics teaching across the whole ability range can be radically improved by learning from the successful methods and principles used for the bottom quartile of achievers: the outliers. Chinn guides readers through re-adjusting the presentation of maths to learners, considering learners' needs first, and explains the importance of securing early learning to create a conceptual foundation for later success. This highly accessible book uses clear diagrams and examples to support maths teachers through many critical issues, including the following: The context of maths education today Topics that cause students the most difficulty Effective communication in the mathematics classroom Addressing maths anxiety The perfect resource for maths teachers at all levels, this book is especially useful for those wanting to teach the foundations of mathematics in a developmental way to learners of all ages and abilities. It has the potential to change the way maths is taught forever.
