Chief's Clipboard Ronny J. Coleman, 2005-03 A beloved, well-respected figure in the fire community, Chief Ronny Coleman has spent the last 20 years imparting his wisdom in the pages of Fire Chief Magazine. Chief's Clipboard collects 100 of the most influential columns from Chief Coleman's writings. These columns address a broad range of issues from leadership, to health and safety, to succession planning that all fire chiefs face in the course of their daily work. Many of the columns reflect actual events and critical turning points in the careers of firefighters moving up through the ranks. Chief's Clipboard offers sound advice on how fire chiefs should develop their leadership, engage their staff, survive political situations within their organizations and communities, take care of themselves, and bring honor to the profession. Chief Coleman's real-world approach and his ability to summon the future of the fire service and place it in a context that all can understand make this an invaluable addition to any fire chief's reading list.

Notes from the Back of the Clipboard Michael Brackett, 2008-10-01 Notes From The Back of the Clipboard contains a variety of anecdotes about experiences the author encountered during his life and the lessons he learned from those experiences. The anecdotes include growing up as a child, running a cattle ranch, operating a historic tug boat, managing an international consulting business, holding a variety of management positions, emergency service work (fire rescue, medical, law enforcement), a multitude of recreational activities, and raising three boys. The anecdotes come from simply observing people in the act of being themselves. Some anecdotes are funny, some are heart warming, some are serious, and some are sad, but they are all facts of life. Each anecdote presents a lively story that ends with a message for the reader. These anecdotes provide the reader a

fresh perspective on life and may refresh experiences the reader had that could lead to a more rewarding and fulfilling life.

A Data Scientist's Guide to Acquiring, Cleaning, and Managing Data in R Samuel E. Buttrey, Lyn R. Whitaker, 2017-12-18 The only how-to guide offering a unified, systemic approach to acquiring, cleaning, and managing data in R Every experienced practitioner knows that preparing data for modeling is a painstaking, time-consuming process. Adding to the difficulty is that most modelers learn the steps involved in cleaning and managing data piecemeal, often on the fly, or they develop their own ad hoc methods. This book helps simplify their task by providing a unified, systematic approach to acquiring, modeling, manipulating, cleaning, and maintaining data in R. Starting with the very basics, data scientists Samuel E. Buttrey and Lyn R. Whitaker walk readers through the entire process. From what data looks like and what it should look like, they progress through all the steps involved in getting data ready for modeling. They describe best practices for acquiring data from numerous sources; explore key issues in data handling, including text/regular expressions, big data, parallel processing, merging, matching, and checking for duplicates; and outline highly efficient and reliable techniques for documenting data and recordkeeping, including audit trails, getting data back out of R, and more. The only single-source guide to R data and its preparation, it describes best practices for acquiring, manipulating, cleaning, and maintaining data Begins with the basics and walks readers through all the steps necessary to get data ready for the modeling process Provides expert guidance on how to document the processes described so that they are reproducible Written by seasoned professionals, it provides both introductory and advanced techniques Features case studies with supporting data and R code, hosted on a companion website A Data Scientist's Guide to Acquiring, Cleaning and Managing Data in R is a valuable working resource/bench manual for practitioners who collect and analyze data, lab scientists and research associates of all levels of experience, and graduate-level data mining students.
