*Promises on Prior Obligations at Common Law* Kevin M. Teeven,1998-08-27 An historical analysis of the development and reform of the law of prior obligations as expressed in preexisting duty rule and past consideration rule. Teeven's principal focus is on the judicial rationalization of common law reforms to partially remove the bar to enforcement of promises grounded in the past. This study traces American deviations from English common law doctrine over the past two centuries in developing theories to overcome traditional impediments to recovery presented by the law of prior obligations. It also explores ideas for further reforms found buried in past case law. The growing unease with both the dashing of legitimate consensual expectations and the perceived unfairness to naive, ill-informed, and otherwise disadvantaged parties served as the impetus for liberalization of the exclusive contract bargain test. The resultant reforms adhered to the modern realist emphasis on fairness. The expansion of contractual liability to include promises looking to the past encompasses some of the most important reforms of the consideration contract since its genesis. As a consequence, contractual liability can no longer be defined solely in terms of bargain consideration since contract law now includes a broader range of promissory liability.

*English Learning in the Digital Age* Shuang Zeng,2018-11-23 Moving beyond the ‘Web 2.0’ and ‘digital native’ rhetoric, this book addresses the complex experiences of learners of English as a foreign language (EFL) in a world embedded with interactive and participatory technologies. Adopting a sociocultural perspective, it investigates EFL learners’ behaviours concerning digital technology, and guides exploration into their contextually mediated choices and learning practices in the ‘2.0’ era. The argument is developed on the basis of the findings of a mixed sequential study that focused on 1485 Chinese undergraduates’ use and non-use of online tools and applications outside the English classroom. Particular attention is paid to the role of context and agency when understanding their learning choices and behaviours in the context of digital technology. In particular, the book acknowledges the explanatory power of agency in the minority instances of ‘good practices’ among these EFL learners. At the same time it demonstrates that for most learners, use of the current web is limited and mostly non-interactive. The barriers to ‘2.0’ transfer are largely contextual and the so-called ‘communicative opportunities’ and ‘participatory culture’ in particular did not fit into the learners’ sociocultural context of (language) learning. Overall, the compelling argument proposes that the technology-facilitated changes in EFL practices are a ‘bottom up’ process that is taking place in day-to-day situations and constrained by the learning context within which the learner is situated. Based on these arguments, the book provides a framework that challenges the existing beliefs about (language) learning with online technology, and that contributes to our understanding of how context mediates EFL learners’ behaviours surrounding digital technologies. It is a valuable resource for teachers, researchers and policy makers, providing them with insights into using digital technology to stimulate ‘good learning practices’ outside the classroom.
