Naldi, 2019-11-23 This book constitutes the refereed proceedings of the 16th International Conference on Economics of Grids, Clouds, Systems, and Services, GECON 2019, held in Leeds, UK, in September 2019. The 12 full papers and 10 short papers presented in this book were carefully reviewed and selected from 48 submissions. This GECON 2019 proceedings was structured in selected topics, namely: blockchain technology and smart contracts; cost-based computing allocation; resource, service and communication federations; economic assessment, business and pricing models; blockchain and network function virtualization technologies; economic models for cyber-physical systems, industry 4.0 and sustainable systems; resource management; and emerging ideas.

Cloud Computing Kris Jamsa, 2022-03-21 Cloud Computing, Second Edition accounts for the many changes to the then-emerging business model and technology paradigm.

Next-Generation Video Coding and Streaming Benny Bing, 2015-10-05 Reviews the new High Efficiency Video Coding (HEVC) standard and advancements in adaptive streaming technologies for use in broadband networks and the Internet This book describes next-generation video coding and streaming technologies with a comparative assessment of the strengths and weaknesses. Specific emphasis is placed on the H.265/HEVC video coding standard and adaptive bit rate video streaming. In addition to evaluating the impact of different types of video content and powerful feature sets on HEVC coding efficiency, the text provides an in-depth study on the practical

performance of popular adaptive streaming platforms and useful tips for streaming optimization. Readers will learn of new over-the-top (OTT) online TV advancements, the direction of the broadband telecommunications industry, and the latest developments that will help keep implementation costs down and maximize return on infrastructure investment. Reviews the emerging High Efficiency Video Coding (HEVC) standard and compares its coding performance with the MPEG-4 Advanced Video Coding (AVC) and MPEG-2 standards Provides invaluable insights into the intra and inter coding efficiencies of HEVC, such as the impact of hierarchical block partitioning and new prediction modes Evaluates the performance of the Apple and Microsoft adaptive streaming platforms and presents innovative techniques related to aggregate stream bandwidth prediction, duplicate chunk Includes end-of-chapter homework problems and access to instructor slides Next-Generation Video Coding and Streaming is written for students, researchers, and industry professionals working in the field of video communications. Benny Bing has worked in academia for over 20 years. He has published over 80 research papers and 12 books, and has 6 video patents licensed to industry. He has served as a technical editor for several IEEE journals and an IEEE Communications Society Distinguished lecturer. He also received the National Association of Broadcasters (NAB) Technology Innovation Award for demonstrations of advanced media technologies.

Cloud Computing Victor C.M. Leung,Min

Chen,2014-04-29 This book constitutes the thoroughly refereed post conference proceedings of the 4th International Conference on Cloud Computing, Cloud Comp 2013, held in Wuhan, China, in October 2013. The 28 revised full papers were carefully reviewed and selected

from numerous submissions and cover topics such as mobile cloud computing, services, applications, IoT on cloud, architectures and big data, cloud-assisted pervasive computing and services, management and virtualization for cloud, cloud security.

An Introduction to Clouds Ulrike Lohmann, Felix Lüönd, Fabian Mahrt, 2016-06-23 An Introduction to Clouds provides a fundamental understanding of clouds, ranging from cloud microphysics to the large-scale impacts of clouds on climate. On the microscale, phase changes and ice nucleation are covered comprehensively, including aerosol particles and thermodynamics relevant for the formation of clouds and precipitation. At larger scales, cloud dynamics, mid-latitude storms and tropical cyclones are discussed leading to the role of clouds on the hydrological cycle and climate. Each chapter ends with problem sets and multiple-choice questions that can be completed online, and important equations are highlighted in boxes for ease of reference. Combining mathematical formulations with qualitative explanations of underlying concepts, this accessible book requires relatively little previous knowledge, making it ideal for advanced undergraduate and graduate students in atmospheric science, environmental sciences and related disciplines.

Cloud Computing and Security Xingming Sun, Zhaoqing Pan, Elisa Bertino, 2018-09-25 This six volume set LNCS 11063 – 11068 constitutes the thoroughly refereed conference proceedings of the 4th International Conference on Cloud Computing and Security, ICCCS 2018, held in Haikou, China, in June 2018. The 386 full papers of these six volumes were carefully reviewed and selected from 1743 submissions. The papers cover ideas and achievements in the theory and practice of all areas of inventive systems which includes control, artificial

intelligence, automation systems, computing systems, electrical and informative systems. The six volumes are arranged according to the subject areas as follows: cloud computing, cloud security, encryption, information hiding, IoT security, multimedia forensics

Global ICT Industry and Market Report: 2013

Edition MIC Research Team, 2016-08-01 The rigid economic conditions in 2012 stemming from the European debt crisis, slow recovery of mature economies, and less expected growth in the emerging markets had caused government and enterprise sectors to cut down their spending and led to low consumer confidence. Improved broadband service quality and increased income per capita in emerging countries have made smart handheld devices and other consumer electronic devices the engine of growth for the ICT Industry. This report profiles the development of motherboard, notebook PC (including netbook), server, tablet, smartphone, large-, medium, and small LCD panels, LCD TV, and DSC (Digital Still Camera) in 2013 and examines their future trends beyond.

Digital Media Contracts Alan Williams, Duncan Calow, Andrew Lee, 2011-04-07 *Digital Media Contracts* contains a collection of sample agreements, presenting annotated contracts from the digital media industry in typical formats for the industry. Included are agreements for digital downloads, user generated content, social networks, wireless apps and cloud computing. It goes beyond traditional precedents by giving practical, commercially-grounded commentary and background information to assist both readers intending to draft their own documents and those looking for hands-on guidance when reviewing standard form documents received from other parties. Lawyers working in the digital media industry, private practitioners and in-house lawyers will

find this work especially useful. Its jurisdictional scope is primarily focused on the UK with comparative comments on similar agreements in the US, with input from lawyers based in the US. This comprehensive guide will provide practical support in the form of checklists and flow-charts, and will include additional supporting documents such as standard NDAs and sample Heads of Agreement.

Mobile TV: Customizing Content and Experience

Aaron Marcus, Anxo Cereijo Roibás, Riccardo

Sala, 2009-12-01 Developing usable, useful, and appealing solutions for the customer or user experience requires customization according to specific users' needs amidst frequently changing physical and social environments.

Complex design problems like these require interdisciplinary perspectives that cover software functionality, human interaction and communication experiences, and perceived value. After defining and summarizing current research and development, this book focuses on Mobile TV experience in everyday life, innovative conceptual and participatory design methods, contextual analysis methods, social context for interactive multimedia systems, advanced interaction with mobile digital content, and future trends for the wide range of products and services that will be offered in the decade to come. The Editors have carefully balanced the theoretical and empirical approaches providing a valuable insight into principles and methods, as well as actionable guidelines and recommendations for all those interested in exploring how to achieve the core objectives of usability, usefulness, and social appeal of this new mobile-video technology. The book answers many questions, and raises some new ones that only future technology development and deployment in mobile human-computer interaction and communication can answer.

The Technology, Business, and Economics of Streaming Video Eli Noam, 2021-01-29 Along with its interrelated companion volume, *The Content, Impact, and Regulation of Streaming Video*, this book covers the next generation of TV—streaming online video, with details about its present and a broad perspective on the future. It reviews the new technical elements that are emerging, both in hardware and software, their long-term trend, and the implications. It discusses the emerging ‘media cloud’ of video and infrastructure platforms, and the organizational form of such TV.

International Communication Strategies of Chinese Radio and TV Networks Duan Peng, 2017-04-13 This book discusses the effect of communication strategies in the course of China’s national image building from both a theoretical and a practical perspective. The research data are collected via researcher’s in-depth observation as well as focus group analysis and case study of selected Chinese radio and TV networks. On the basis of the empirical study and drawing on theories of international communication and political communication, this book also introduces an analytical framework that can be used to evaluate the effect of communication strategies in practice. Especially, the framework is applied to systematically analyze the formation and application of Chinese Communist Party’s communication strategy with an aim at improving the national image and increasing its global influence. This book is of interest to graduate students and researchers who are interested in the broadcast communication in China.

The Content, Impact, and Regulation of Streaming Video Eli Noam, 2021-01-29 Along with its interrelated companion volume, *The Technology, Business, and Economics of Streaming Video*, this book examines the

next generation of TV—online video. It reviews the elements that lead to online platforms and video clouds and analyzes the software and hardware elements of content creation and interaction, and how these elements lead to different styles of video content.

The Language Situation in China Li Yuming, Li Wei, 2019-07-22 China, with the world's largest population, numerous ethnic groups and vast geographical space, is also rich in languages. Since 2006, China's State Language Commission has been publishing annual reports on what is called language life in China. These reports cover language policy and planning initiatives at the national, provincial and local levels, new trends in language use in a variety of social domains, and major events concerning languages in mainland China, Hong Kong, Macau and Taiwan. Now for the first time, these reports are available in English for anyone interested in Chinese language and linguistics, China's language, education and social policies, as well as everyday language use among the ordinary people in China. The invaluable data contained in these reports provide an essential reference to researchers, professionals, policy makers, and China watchers.

Al Jazeera English P. Seib, 2016-04-30 Although Al Jazeera English has yet to receive the attention accorded to its Arabic-language elder sibling, it is in many ways the more interesting of the two. It seeks to redefine global news coverage by focusing on areas that are traditionally neglected by most news organizations, and its potential audience is many times larger than that of the Arabic channel. This will be the first book to thoroughly examine this channel's coverage methods, effects on its audience, and its place in the world of mediated geopolitics. Al Jazeera recognized that if it was to expand

its worldwide influence, it could not do so wholly in Arabic. And so, in 2006, it launched Al Jazeera English, the first English-language news channel to be headquartered in the Middle East. With its principal broadcast centers in Doha, Washington, London, and Kuala Lumpur, the channel faced the task of proving itself to be more than a curiosity and just a junior version of the all-news English-language channels such as the BBC or CNN. After several years of operation, Al Jazeera English seems well on its way to defining its place in the market. The breadth of its coverage, particularly its emphasis on reporting from the global South, has distinguished it from many of its competitors. Thorough coverage from the Middle East and from Africa provides a perspective that other major satellite channels have rarely offered their audiences. Initially, Al Jazeera English was available to 80 million cable and satellite households. It was, however, accessible by only a small number of viewers in the United States (mainly those accessing it through several online providers) primarily because of political reasons. Whatever the political back-story may be, gaining access to a larger global market will depend on audience demand. If Al Jazeera English does a better job of covering major stories, particularly in the Middle East and the global South, than other channels do, and if its competitors find themselves saying, As Al Jazeera English reported today . . . , news consumers will eventually demand access. This book will examine these political issues and will also analyze the channel's audience base, particularly in Africa and South Asia. The book will also offer evaluations of Al Jazeera English's defining moments to date - its reporting during the 2008-2009 war in Gaza (written by Palestinian and Israeli scholars), and its coverage of the Ground Zero Mosque controversy in 2010. The volume will also consider

Al Jazeera English in the context of public diplomacy and the growing significance of diasporic populations.
