Her Rebel Heart Jamie Farrell, 2017-03-05 "A poignant, unapologetically southern, laugh out loud look at what it means to truly be seen and loved." – Kait Nolan A sexy military pilot is about to meet his match in an unpredictable physics professor! Kaci Boudreaux is every Southern mama's nightmare, including her own. This former Miss Grits would rather tromp around in boots shooting off potato guns—and her mouth—than dress pretty and play nice with the boys. Especially her chauvinistic fellow professors, her ex-husband, and those military cargo pilots she accidentally started a war with. Lance Wheeler is every Southern belle's dream, except his ex-fiancé's. After being left at the altar, he'd love to take his C-130 and fly far, far away. But since his bird technically belongs to Uncle Sam (as does he), a distraction in the form of a feisty fireball of a physics professor will do while he's waiting for his next deployment with the Air Force. He's into her for the fun. She's into him for the challenge. But when their secrets start slipping out, their hearts will be on the line. She needs roots. He wants to see the world. What will they do about needing each other?

What the Hell Did I Just Read David Wong, 2017-10-03 It's the story They don't want you to read. Though, to be fair, They are probably right about this one. To quote the Bible, Learning the truth can be like loosening a necktie, only to realize it was the only thing keeping your head attached. No, don't put the book back on the shelf -- it is now your duty to purchase it to prevent

others from reading it. Yes, it works with e-books, too, I don't have time to explain how. While investigating a fairly straightforward case of a shape-shifting interdimensional child predator, Dave, John and Amy realized there might actually be something weird going on. Together, they navigate a diabolically convoluted maze of illusions, lies, and their own incompetence in an attempt to uncover a terrible truth they -- like you -- would be better off not knowing. Your first impulse will be to think that a story this gruesome -- and, to be frank, stupid -- cannot possibly be true. That is precisely the reaction they are hoping for. John Dies at the End's smart take on fear manages to tap into readers' existential dread on one page, then have them laughing the next (Publishers Weekly) and This Book is Full of Spiders was unlike any other book of the genre (Washington Post). Now, New York Times bestselling author David Wong is back with What the Hell Did I Just Read, the third installment of this black-humored thriller series.

The Equalizer Michael Sloan, 2014-08-19 Michael Sloan, co-creator of the classic 1980s TV series-- the basis for the feature films starring Denzel Washington--reinvents the story of the mysterious, former covert intelligence officer who helps desperate people who are in need of his unique and deadly skills. Robert McCall is a former covert operations officer for the CIA who tries to atone for past sins by offering, free of charge, his services as a troubleshooter (often literally), a protector, and an investigator. People in need find him through a newspaper ad and on the

internet: Got a problem? Odds against you? Call the Equalizer. Aided by a group of sometimes-mysterious contacts (some of whom date back to his spying days), McCall traverses the streets of New York City, visiting justice upon those who prey upon the weak. In this novel, based on the 1980s television show, and timed to come out shortly before the feature film version starring Denzel Washington, McCall goes up against an old enemy, a Chechen nightclub owner, who now runs an elite assassination service to try and save the life of an innocent woman.

If He Had Been with Me Laura Nowlin, 2013-04-02
If he had been with me everything would have been different... I wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

John Dies at the End David Wong, Jason Pargin, 2009-09-29
Jon Dies at the End is a genre-bending, humorous account of two college drop-outs inadvertently charged with saving their small town--and the world--from a host of supernatural and paranormal invasions. Now a Major Motion Picture. [Pargin] is like a mash-up of Douglass Adams and Stephen King... 'page-turner' is an understatement. —Don Coscarelli, director, *Phantasm I-V*, Bubba Ho-tep STOP. You should not have touched this flyer with your bare hands. NO,

don't put it down. It's too late. They're watching you. My name is David. My best friend is John. Those names are fake. You might want to change yours. You may not want to know about the things you'll read on these pages, about the sauce, about Korrok, about the invasion, and the future. But it's too late. You touched the book. You're in the game. You're under the eye. The only defense is knowledge. You need to read this book, to the end. Even the part with the bratwurst. Why? You just have to trust me. The important thing is this: The sauce is a drug, and it gives users a window into another dimension. John and I never had the chance to say no. You still do. I'm sorry to have involved you in this, I really am. But as you read about these terrible events and the very dark epoch the world is about to enter as a result, it is crucial you keep one thing in mind: None of this was my fault.

U.S. Marines In Vietnam: Fighting The North Vietnamese, 1967 Maj. Gary L. Telfer, Lt.-Col. Lane Rogers, Dr. V. Keith Fleming Jr., 2016-08-09 This is the fourth volume in an operational and chronological series covering the U.S. Marine Corps' participation in the Vietnam War. This volume details the change in focus of the III Marine Amphibious Force (III MAF), which fought in South Vietnam's northernmost corps area, I Corps. This volume, like its predecessors, concentrates on the ground war in I Corps and III MAF's perspective of the Vietnam War as an entity. It also covers the Marine Corps participation in the advisory effort, the operations of the two Special Landing Forces of the U.S. Navy's Seventh Fleet,

and the services of Marines with the staff of the U.S. Military Assistance Command, Vietnam. There are additional chapters on supporting arms and logistics, and a discussion of the Marine role in Vietnam in relation to the overall American effort.

Dream Country Shannon Gibney, 2019-04-09 The heartbreaking story of five generations of young people from a single African-and-American family pursuing an elusive dream of freedom. Gut wrenching and incredible.”— Sabaa Tahir #1 New York Times bestselling author of *An Ember in the Ashes* This novel is a remarkable achievement.—Kelly Barnhill, New York Times bestselling author and Newbery medalist Beautifully epic.—Ibi Zoboi, author *American Street* and National Book Award finalist *Dream Country* begins in suburban Minneapolis at the moment when seventeen-year-old Kollie Flomo begins to crack under the strain of his life as a Liberian refugee. He's exhausted by being at once too black and not black enough for his African American peers and worn down by the expectations of his own Liberian family and community. When his frustration finally spills into violence and his parents send him back to Monrovia to reform school, the story shifts. Like Kollie, readers travel back to Liberia, but also back in time, to the early twentieth century and the point of view of Togar Somah, an eighteen-year-old indigenous Liberian on the run from government militias that would force him to work the plantations of the Congo people, descendants of the African American slaves who colonized Liberia almost a century

earlier. When Togar's section draws to a shocking close, the novel jumps again, back to America in 1827, to the children of Yasmine Wright, who leave a Virginia plantation with their mother for Liberia, where they're promised freedom and a chance at self-determination by the American Colonization Society. The Wrights begin their section by fleeing the whip and by its close, they are then the ones who wield it. With each new section, the novel uncovers fresh hope and resonating heartbreak, all based on historical fact. In Dream Country, Shannon Gibney spins a riveting tale of the nightmarish spiral of death and exile connecting America and Africa, and of how one determined young dreamer tries to break free and gain control of her destiny.

Integration of the Armed Forces, 1940-1965

Morris J. MacGregor, 2020-06-18 In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical

answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy._x000D_ Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

See You in the Cosmos Jack Cheng, 2017-02-28 "I haven't read anything that has moved me this much since Wonder." –Jennifer Niven, author of All the Bright Places A space-obsessed boy and his dog, Carl Sagan, take a journey toward family, love, hope, and awe in this funny and moving novel for fans of Counting by 7s, Walk Two Moons, and The Curious Incident of the Dog in the Night-Time. 11-

year-old Alex Petroski loves space and rockets, his mom, his brother, and his dog Carl Sagan—named for his hero, the real-life astronomer. All he wants is to launch his golden iPod into space the way Carl Sagan (the man, not the dog) launched his Golden Record on the Voyager spacecraft in 1977. From Colorado to New Mexico, Las Vegas to L.A., Alex records a journey on his iPod to show other lifeforms what life on earth, his earth, is like. But his destination keeps changing. And the funny, lost, remarkable people he meets along the way can only partially prepare him for the secrets he'll uncover—from the truth about his long-dead dad to the fact that, for a kid with a troubled mom and a mostly not-around brother, he has way more family than he ever knew. Jack Cheng's debut is full of joy, optimism, determination, and unbelievable heart. To read the first page is to fall in love with Alex and his view of our big, beautiful, complicated world. To read the last is to know he and his story will stay with you a long, long time. Stellar. —Entertainment Weekly "Life-embracing." —The Wall Street Journal Works beautifully. —The New York Times Book Review "Irresistible." —The Chicago Tribune "The best I've read in a long, long time." —Holly Goldberg Sloan, author of Counting by 7s "Riveting, inspiring, and sometimes hilarious." —Kirkus, starred review "A propulsive stream-of-conscious dive." —Publishers Weekly, starred review "A gift—a miracle." —Paul Griffin, author When Friendship Followed Me Home "Exuberant." —Booklist Full of the real kind of magic. —Ally Condie, author of Matched Absorbing, irresistible. —Common

Sense Media "Incredible." –BookRiot Full of innocence and unwavering optimism. –SLC Inspiring. –Time for Kids "Powerfully affirms our human capacity for grace and love and understanding." –Gary D. Schmidt, author of *Okay for Now*

Ike's Bluff Evan Thomas, 2012-09-25 Evan Thomas's startling account of how the underrated Dwight Eisenhower saved the world from nuclear holocaust. Upon assuming the presidency in 1953, Dwight Eisenhower set about to make good on his campaign promise to end the Korean War. Yet while Eisenhower was quickly viewed by many as a doddering lightweight, behind the bland smile and simple speech was a master tactician. To end the hostilities, Eisenhower would take a colossal risk by bluffing that he might use nuclear weapons against the Communist Chinese, while at the same time restraining his generals and advisors who favored the strikes. Ike's gamble was of such magnitude that there could be but two outcomes: thousands of lives saved, or millions of lives lost. A tense, vivid and revisionist account of a president who was then, and still is today, underestimated, *IKE'S BLUFF* is history at its most provocative and thrilling.

Differentiation in Middle and High School

Kristina J. Doubet, Jessica A. Hockett, 2015-07-14

In this one-stop resource for middle and high school teachers, Kristina J. Doubet and Jessica A. Hockett explore how to use differentiated instruction to help students be more successful learners--regardless of background, native language, learning style, motivation, or school savvy. They explain how to

- * Create a healthy classroom community in which students' unique qualities and needs are as important as the ones they have in common.
- * Translate curriculum into manageable and meaningful learning goals that are fit to be differentiated.
- * Use pre-assessment and formative assessment to uncover students' learning needs and tailor tasks accordingly.
- * Present students with avenues to take in, process, and produce knowledge that appeal to their varied interests and learning profiles.
- * Navigate

roadblocks to implementing differentiation. Each chapter provides a plethora of practical tools, templates, and strategies for a variety of subject areas developed by and for real teachers. Whether you're new to differentiated instruction or looking to expand your repertoire of DI strategies, *Differentiation in Middle and High School* will show you classroom-tested ways to better engage students and help them succeed every day.

I Am a SEAL Team Six Warrior Howard E.

Wasdin, Stephen Templin, 2012-04-24 Discusses an elite group that is trained to do very difficult missions.

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of

Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era.

Power to Explore Andrew J. Dunar, 1999 This scholarly study of NASA's Marshall Space Flight Center places the institution in social, political, scientific, and technological context. It traces the evolution of Marshall, located in Huntsville, Alabama, from its origins as an Army missile development organization to its status in 1990 as one of the most diversified of NASA's field Centers. Chapters discuss military rocketry programs in Germany and the United States, Apollo-Saturn, Skylab, Space Shuttle, Spacelab, the Space Station and various scientific and technical projects including the Hubble Space Telescope. It sheds light not only on the history of space technology, science, and exploration, but also on the Cold War, federal politics, and complex organizations.

A Soldier and A Liar Caitlin Lochner, 2019-02-19 In a world on the brink of war, four superpowered teens must learn to work together for peace in Caitlin Lochner's action-packed debut novel, *A Soldier and A Liar*. Lai Cathwell is good at keeping secrets. As a Nyte, a supernaturally gifted teenager who is feared and shunned by the ungifted, this skill is essential to survival. Orchestrating her own imprisonment to escape military duty has only honed her ability to deceive others. But when rebels start attacking the city, Lai is dragged back into the fight with a new team of Nytes. Thrown together with Jay, a

self-conscious perfectionist consumed by the desire to be accepted; Al, a short-tempered fighter lying for the sake of revenge; and Erik, an amnesiac hell-bent on finding his memories and his place in the world, Lai realizes she's facing an entirely different kind of challenge—one that might just be impossible. But if this team can't learn to work together, the entire sector will be plunged into war.
