Managing Sport Mega-Events Stephen Frawley,2016-06-17 Managing Sport Mega-Events explores global developments in the management of sport mega-events. Sport mega-events such as the Olympic Games and the Football World Cup have been examined from a number of academic perspectives including history, sociology, politics, urban planning and economics. What is lacking, however, is a book which identifies and evaluates the current issues and complexities faced by those charged with the responsibility of managing these sport mega-events. This book fills the gap. The book addresses three broad but interconnected themes. First, strategic matters are explored focusing on the rise of sport mega-events, the management of stakeholders and governance issues. Second, how organisers can best ensure the sustainable management of sport mega-events is considered. Third, operational matters and related issues are examined including media management, broadcast management, venue management, risk management, marketing and sponsorship management. The book draws on leading international sport management scholars, each of whom has expertise in the organisation of sport mega-events. It makes a valuable contribution to the existing literature.

Citizen Coke: The Making of Coca-Cola Capitalism Bartow J. Elmore,2014-11-03 Citizen Coke demonstrate[s] a complete lack of understanding about...the Coca-Cola system—past and present. —Ted Ryan, the Coca-Cola Company By examining “the real thing” ingredient by ingredient, this brilliant history shows how Coke used a strategy of outsourcing and leveraged free public resources, market muscle, and lobbying power to build a global empire on the sale of sugary water. Coke became a giant in a world of abundance but is now embattled in a world of scarcity, its products straining global resources and fueling crises in public health.

Pop Brands Nicholas Carah,2010 Corporations engage young people and musicians in brand-building activities. These activities unfold in media-dense social spaces. Social networking sites, the user-generated content of web 2.0, live music events, digital cameras and cell phones are all used in constructing valuable brands. This book addresses the integration of popular music culture, corporate branding, and young people's mediated cultural practices. These intersections provide a rich site for examining how young people build brands within spaces and practices that they perceive as meaningful. The book is based on extensive ethnographic empirical research, drawing on participant observation, textual analysis and interviews with young people, musicians, marketers and other participants in the cultural industries. Contemporary theories of marketing and branding are brought together with critical and cultural accounts of mediated social life. The book explores the distinctive concerns and debates of these different perspectives and the lively interface between them.

Return of the Hustle Eric Sheinkop,2016-03-11 Has a commercial ever brought you to tears? Has a movie ever inspired you so much you change your way of life? Has the series finale of a television show ever broken your heart? Has a video game ever altered your perception of reality? If you're like most consumers, you answered 'yes' to at least one of those questions. Whether you remember it or not, the music of that ad, film, show or game probably played a big role in influencing your emotional response during that experience. In fact, music is included in media specifically for the purpose of connecting with audiences on a deeper level that visuals alone cannot access. A strong music strategy is fundamental to the success of television, film, brands and video games. Because of higher expectations for audiovisual content, it will take more than clever animation or a celebrity cameo to connect with consumers in an authentic, organic way. By providing audiences with a genuine music experience, whether with an exclusive song through an artist partnership or by featuring new music from an emerging band, you can build a bond that extends far beyond product experience. Music touches us emotionally in a way that words seldom do. We feel it – we remember it. In *Return of The Hustle*, a leading music and marketing industry insider discusses the diverse audio touchpoints for four key industries and shows how marketers, storytellers, and advertisers can use music to effectively guide audiences along the customer journey from passive consumers to brand advocates. *Return of The Hustle* provides readers with a blueprint for music strategy that professionals at any level in any industry can use to attract consumers, immerse them into the content, and extend relationships between them and the brand long after the commercial ends or the credits roll. With detailed case studies, exhaustive interviews, and thorough research, *Return of the Hustle* gives readers the playbook to use the marketing power of music to drive business results.

The Making of a Market Guru Aaron Anderson,2010-05-03 Ken Fisher is founder and CEO of Fisher Investments, an independent money management firm managing over \$35 billion (as of Dec. 31/09) for individuals and institutions. And, Fisher has written the monthly Portfolio Strategy column for *Forbes* magazine for the last twenty-five years—since 1984—making him, so far, the fourth longest-running columnist in the magazine’s history. During this time, he’s seen everything from the stock market crash of 1987 and the great bull markets of the 1980s and 1990s to the Tech bubble of 2000 and the global market meltdown of 2008. Now, with *The Making of a Market Guru*, you’ll gain an insightful look at Fisher’s prolific career over the years and discover the high-profile market calls he’s made so far in these monthly columns. At times engaging and timely, at others revealing and informative, this book is a sweeping look at a recent and eventful slice of stock market history. You’ll read about what’s changed, but you’ll be more amazed by what hasn’t. And you’ll see investing wisdom that still applies, now and for the foreseeable future, from a quarter-century of Fisher’s concise and witty market wisdom. Preceding Fisher’s columns for each year are a few pages of commentary—putting them in historic context, pointing out areas that are still salient, and others where Fisher’s perspective has changed over the years—highlighting key points that deserve extra attention. Chapter by chapter, this book offers practical investment advice from a leading market voice, while: Looking at Fisher’s market analysis over the years and providing an industry insider’s view of major, and not-so-major, market events Examining how Fisher called three of the last four bear markets Showing that what many commonly think impacts markets doesn’t—and some very surprising things that do impact markets that few are aware of. And much more The more things change, the more they stay the same—at least when it comes to investing. And seeing history through the eyes of a market guru can help improve your overall investment endeavors today. If you take the time to read this unique, historic compilation, you’ll be taking your first steps to understanding how to become your own market guru.

Girl Making Gerry Bloustien,2003 Through the innovative methodology of asking them to record their experiences on videotape, this book offers an evocative and fascinating cross-cultural exploration into the everyday lives of a number of teenage girls from their own broad social, cultural and ethnic perspectives. The use of the video camera by the girls themselves reveals their exploration and experimentation with possible identities, highlighting their awareness that the self is not ready made but rather constituted in the process of continuous performance. The result is an active self-conscious exploration of the continuous art of self-making. Through their play, the teenagers are shown to strategically test out various possibilities, while keeping such explorations within the bounds of what is acceptable and permissible in their own micro-cultural worlds. The resulting material challenges previous findings in those feminist and youth anthropological studies based on too narrow a concept of class, ethnicity or populist approaches to culture.
