### **Fear and Clothing: Unbuckling American Style**

Cintra Wilson, 2015-09-08 As the former New York Times Critical Shopper, and voted one of Fashionista's 50 Most Influential People in New York Fashion, Cintra Wilson knows something about clothes. And in *Fear and Clothing*, she imparts her no-holds-barred, totally outrageous, astute, and hilarious wisdom to the reader. Wilson reports the findings of her fashion road trip across the United States, a journey that took three years and ranges across the various economic belt regions of America: the Cotton, Rust, Bible, Sun, Frost, Corn, and Gun Belts. Acting as a kind of fashion anthropologist, she documents and decodes the sartorial sensibilities of Americans across the country. Our fashion choices, she argues, contain a riot of visual cues that tell everyone instantly who we are, where we came from, where we feel we belong, what we want, where we are going, and how we expect to be treated when we get there. With this philosophy in hand, she tackles and unpacks the meaning behind the uniforms of Washington DC politicians and their wives, the costumes of Kentucky Derby spectators, the attractive draw of the cowboy hat in Wyoming, and what she terms the stealth wealth of distressed clothing in Brooklyn. In this smart and rollicking book, Wilson illustrates how every closet is a declaration of the owner's politics, sexuality, class, education, hopes, and dreams. With her signature wit and utterly irreverent humor, Wilson proves that, by donning our daily costume, we create our future selves, for good or ill. Indeed: your fate hangs in your closet. Dress wisely.

**Havana Street Style** Conner Gorry, Gabriel

Solomons, 2014-01-01 When it comes to fashion, few metropolitan areas are more synonymous with style than New York, London, Paris and Milan. But the couture capitals of tomorrow may be located in less likely locales. Addressing the interplay between the development of fashion centres across the world and their relationship to consumption and street style in both local and global contexts, the books in the Street Style series aim to record emerging fashion capitals and their relationship to the physical landscapes of the street. By examining how particular ecologies of fashion are connected to the formation of gender, class and generational identities, this series establishes a new methodology for recording and understanding identity and its connection to style. Havana Street Style is the first book that explores and reveals the relationship between culture, city and street fashion in Cuba's capital. Matching visual ethnography with critical analysis, the book documents a unique street style few in the United States have yet experienced.
