Roasting Coffee Jessica Simms, 2017-09-06 I Know Coffee Series: Book 3 How a bean is grown determines its flavor potential, but it's the roasting that brings those flavors out and creates the rich, complex flavors in the coffee that we drink. Changing the roast level can bring out completely different notes and flavors from a bean, and is just as important to the cup's ultimate profile as the growing and processing. This book will explore how coffee beans are roasted, both in large-scale operations and by home enthusiasts. Find out: What roast levels work best with what beans How to roast for a certain brewing method What you'll need to set up your own roaster at home What are the coffee roasting process and stages The different coffee bean types Where to get unroasted coffee beans Coffee roasting profiles How to roast your own coffee commercially Traditional coffee roasting at home The perfect coffee roasting time

The World Atlas of Coffee James Hoffmann, 2018-10-04 The worldwide bestseller - 1/3 million copies sold 'With his expert guidance we travel around the globe, from Burundi to Honduras via Vietnam, sipping and spitting as we go. This is high geekery made palatable by the evident love pulsing through every sentence.' - The Guardian 'The subject of coffee has never been more, er, hot, and The World Atlas of Coffee takes a close look at its

history and evolution, the international range of beans and all the best ways to enjoy coffee. Great pics too.' - Susy Atkins, The Telegraph For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

Everything But Espresso Scott Rao, 2014

The Finder Alex Woolf, 2014-05-27 Introducing Waldo Mars – former model, failed inventor, and the best finder east of Alpha Centauri, or at least Uxbridge. Waldo is impeded, rebuked and generally resented at every turn by his put-upon assistant, Rose Duvalle. And if he isn't fighting with Rose, he is having to indulge the delusions of his bizarre clientele. There's Reg, for example, who's mislaid his Tuesday. And Tom, who's mislaid himself. And Gerald, who's lost a little patch of his study – just a small, cube-shaped area, right in the middle... Where do these people come from, and what Waldo wouldn't give for a straightforward case from time to time! An amusing, intriguing and surreal set of mystery stories about a finder who frequently feels a little lost.

Chinese Espresso Grazia Ting Deng, 2024-05-14 Why and how local coffee bars in Italy—those distinctively Italian social and cultural spaces—have been increasingly managed by Chinese baristas since the Great Recession of 2008. Italians regard espresso as a quintessentially Italian cultural product—so much so that Italy has applied to add Italian espresso to UNESCO’s official list of intangible heritages of humanity. The coffee bar is a cornerstone of Italian urban life, with city residents sipping espresso at more than 100,000 of these local businesses throughout the country. And yet, despite its nationalist bona fides, espresso in Italy is increasingly prepared by Chinese baristas in Chinese-managed coffee bars. In this book, Grazia Ting Deng explores the paradox of “Chinese espresso”—the fact that this most distinctive Italian social and cultural tradition is being preserved by Chinese immigrants and their racially diverse clientele. Deng investigates the conditions, mechanisms, and implications of the rapid spread of Chinese-owned coffee bars in Italy since the Great Recession of 2008. Drawing on her extensive ethnographic research in Bologna, Deng describes an immigrant group that relies on reciprocal and flexible family labor to make coffee, deploying local knowledge gleaned from longtime residents who have come, sometimes resentfully, to regard this arrangement as a new normal. The existence of Chinese espresso represents new features of postmodern and postcolonial urban life in a pluralistic society where immigrants assume traditional roles even as they are regarded as racial others. The story of Chinese baristas and

their patrons, Deng argues, transcends the dominant Eurocentric narrative of immigrant-host relations, complicating our understanding of cultural dynamics and racial formation within the shifting demographic realities of the Global North.

Globalization of Professional Services Ulrich Bäumer, Peter Kreutter, Wolfgang Messner, 2012-06-05 In the past, services had a strong local and national focus. Professional services were very likely to be independently and autonomously organized from country to country in order to cater to local needs and local legal requirements. This has since changed radically, and highly integrated business and delivery models around the globe have become the status quo in clients' businesses and strategies. Serving clients on a global level requires professional services firms to adopt a structural change from local to distributed global sales and delivery. This book brings together many years of experience, current perspectives and future ideas of international business practitioners, academics, and market researchers. Along those lines it is structured into four parts. Part I "Winning Strategies and Innovative Ideas" lays the book's foundation: it discusses core strategies behind the globalization movement and introduces the major paradigms and ideas. Part II "Successful Processes for Realization" provides solutions for how to establish successful processes for delivering global professional services. Part III "Inspired Talent Management" goes to the core of the professional services industry:

attracting, developing, and keeping the right talent in the right locations. Finally, Part IV offers “Experiences and Case Studies” on all aspects related to successfully building a globalized professional services firm. In short, this handbook provides professional services firms and their clients alike with a sound foundation for responding strategically to fundamental global changes and turning them into business advantages. It offers a comprehensive perspective of why and how to successfully globalize a professional services firm.

A Finder's Fee Joyce and Jim Lavene, 2013-10-01 The mayor of Duck, North Carolina, Dae O'Donnell, is a woman with a gift for finding lost things. Sometimes it leads her to lost keys or earrings—and sometimes it leads her to murder... *DIRTY CAMPAIGNING* Two weeks before the mayoral election, Dae gets sidetracked from her political aspirations by a spirit in need of rescuing. An antique amber necklace allows Dae to connect with Maggie Madison, a witch who wants Dae to rebury her bones so she can rest in peace. But digging leads Dae to an even bigger mystery, a forty-year-old murder with ties to Randal “Mad Dog” Wilson, her mayoral opponent. Dae wants to run a clean race, but town sentiment is mixed about whether she’s using her abilities to get the election to go her way. And when she learns that her own grandfather—the former sheriff of Dare County—might be mixed up in the long-buried tragedy,

Dae will have to uncover the real killer and put Maggie to rest, before her political career ends up six feet under...

On the Other Shore John Starosta Galante, 2022 *On the Other Shore* explores the social history of Italian communities in South America and the

transnational networks in which they were situated during and after World War I. From 1915 to 1921 Italy's conflict against Austria-Hungary and its aftermath shook Italian immigrants and their children in the metropolitan areas of Buenos Aires, Montevideo, and São Paulo. The war led portions of these communities to mobilize resources--patriotic support, young men who could enlist in the Italian army, goods like wool from Argentina and limes from Brazil, and lots of money--to support Italy in the face of total war. Yet other portions of these communities simultaneously organized a strident movement against the war, inspired especially by anarchism and revolutionary socialism. Both of these factions sought to extend their influence and ambitions into the immediate postwar period. *On the Other Shore* demonstrates patterns of social cohesion and division within the Italian communities of South America; reconstructs varying transatlantic and inter-American networks of interaction, exchange, and mobility in an Italian Atlantic; interrogates how authorities in Italy viewed their South American colonies; and uncovers ways that Italians in Latin America balanced and blended relationships and loyalties to their countries of residence and origin. *On the Other Shore's* position at the intersection of Latin American history, Atlantic history, and the histories of World War I and Italian immigration thereby engages with and informs each of these subject areas in distinctive ways.

How Great Leaders Think Lee G. Bolman, Terrence E. Deal, 2014-07-28 The proven model that offers powerful and elegant strategies for leaders How

Great Leaders Think: the Art of Reframing uses compelling, contemporary examples to show how more complex thinking is the key to better leadership. Leaders who understand what's going on around them see what they need to do to achieve the results they want. Bolman and Deal's influential four-frame model of leadership and organizations—developed in their bestselling book, Reframing Organizations: Artistry Choice and Leadership—offers leaders an accessible guide for understanding four major aspects of organizational life: structure, people, politics, and culture. Tapping into the complexity enables leaders to decode the messy world in which they live, see more options, tell better stories, and find strategies that are more effective. Case examples of leaders like Jeff Bezos at Amazon, Howard Schultz at Starbucks, Tony Hsieh at Zappos, Ursula Burns at Xerox, and the late Steve Jobs at Apple provide concrete lessons that readers can put to use in their own leadership. The book's lessons include: How to use structural tools to organize teams and organizations for better results How to build motivation and morale by aligning organizations and people How to map the terrain and build a power base to navigate the political dynamics in organizations How to develop a leadership story that shapes culture, provides direction, and inspires commitment to excellence
