*Color Blindness Test* Sam Bel,2020-12 This book is not intended to be used for diagnosis purposes.This color blindness test based on Ishihara plates style for color perception vision testing, perfect for optometrists and eye doctors, who want to test color vision deficiency in their patients. Also perfect for science teachers showing students, children examples of color blindness books.This book contains 24 plates with an explanation table to identify the eye deficiency related to the result of testing.

*Ishihara Test Chart 24 Plate Edition* By Prof N L Shraman,2019-10-09 The original Ishihara color blindness test was introduced in early last century and since then, it is by far the most well known color vision deficiency test all around the world. Dr. Shinobu Ishihara from Japan produced three different test sets which are widely used and which all based on the same pseudoisochromatic plates. This test is actually designed to be used in a booklet and is usually executed by an eye doctor.But I have made an online version of the test, available right here. The online test is based on the 24 plates edition and will give you a little feedback at the end of the test. As this test is only made to check for red-green color blindness, any other form of CVD can not be detected. And at the end if you like you can even share your test result with your friends.This way they can see how you performed and try the test themselves if they like to. Be aware: This test consist of scanned plates. The colors are not exactly the same as in the original version. You also have to consider, that every computer screen has different color settings and therefore the test results might alter between different trials. If you would like to see all the 24 plates in an overview, you can find them at [Ishihara Test for Colour Deficiency 24 Plates Edition](#).

COLORBLINDNESS/COLOURBLINDNESS/COLOR BLINDNESS/COLOUR BLINDNESS Accepted by leading authorities as a simple and accurate method for discovering congenital color blindness and red-green blindness, each in two forms, complete and incomplete. Includes four special plates for tests to determine the kind and degree of defect in color vision. Makes use of the peculiarity that in red-green blindness, blue and yellow appear remarkably bright compared with

red and green. Color plates encased in specially designed album-type books for ease of handling. Detailed instructions included. Product Description The color plates are available in an album-type book for ease of handling. The books are printed in colour photo paper and are protected by international copyright.

*Ishihara's Tests for Colour Deficiency* S. Ishihara,1998-09-04 These series of plates provide a quick and accurate assessment of congenital, the most common form, of colour blindness. They distinguish between total colour blindness and strong and mild forms of both protan and deutan deficiency. A brief guide to use and interpretation is provided. Used principally by ophthalmologists for a complete classification.

**“Key” to Ishihara 38 Plates-Treatment of Colour Blindness, Colour Vision** Prof N L Shraman,2020-05-17 This book has been written for those who are partial colour blind or having colour vision deficiency and are not able to read Ishihara book to pass a medical examination. This book had been designed on the basis of Brain mapping System Techniques for colour blindness. Anyone suffering from colour blindness can identify colours and pass medical examinations conducted by various authorities like police, army, military, air force, navy, chemist, doctors, railway, armed forces, mining, police officers etc. You have to practice with red plates and normal plates daily at least 2-3 hours per day for 21 days minimum. You will surely pass medicals and get the job without losing the opportunity. This is a self-learning book and no other training required. If you are colour blind and are unable to read Ishihara book, you can use this “Key” to learn all plates and see the plates as others see. If you see the plate in the original book and then the key of the plate, you will start learning colours and reading Ishihara. However, We have included both original plates and Key to facilitate reading but for better results use a hard copy of Ishihara. You can treat colour blindness at your home. Please practice a minimum of 21 days. All the light colour(Yellowish) in “Key” picture are red colours and other dark(light black) part is green. Editor
