**The Color of Madness** Krystal Black,2016-10-21 The Color of Madness is the true story of my eldest sister, Ciska, second of nine offspring. Some may recognize themselves or a loved one or an acquaintance in this individual, who watches the horizon of her hopes recede as she grows older and becomes more aware of her world. After winning a much-coveted scholarship at the age of eleven, Ciskas future promises to be as bright as the firework hurled over the fence into the backyard by neighbors eager to congratulate her and the family. However, like a shooting star, she very briefly lights up the world around her with her brilliance before disintegrating into oblivion. Indeed, her inability to adapt to absurd racial biases will plunge her loved ones into daily havoc and challenge her sanity. Consequently, Ciska repudiates a world that rejects her and seeks refuge among the insane in an attempt to preserve her sanity.

***What Is the Color of Madness?*** Alma B. Callender-Mcleod,2006-05-09 This traumatic real life story begins in the Island of Trinidad in 1972, when two little girls witness the violent and senseless murder of their mother. What happens to the family of seven motherless children over the years will shake you to the core. Slowly and ever so carefully the author painstakingly takes us on a journey into her personal life and into the lives of her six siblings. As the years unfold, she and her three brothers and sisters must face the storms and perils of life without the love and security of their mother. She is forced to deal with issues such as the repeated attempted rape by her older brother, the heartbreaking suicide of her other brother, her sister's brutal rape, trauma, drug abuse, homelessness... Each character encounters real pain and real life situations and deals with his or her trauma in a unique way. Some find forgiveness, healing, and closure by creating their own coping mechanism while others do not.

**Black Madness** Therí Alyce Pickens,2019-06-07 In *Black Madness :: Mad Blackness* Therí Alyce Pickens rethinks the relationship between Blackness and disability, unsettling the common theorization that they are mutually constitutive. Pickens shows how Black speculative and science fiction authors such as Octavia Butler, Nalo Hopkinson, and Tananarive Due craft new worlds that reimagine the intersection of Blackness and madness. These creative writer-theorists formulate new parameters for thinking through Blackness and madness. Pickens considers Butler's *Fledgling* as an archive of Black madness that demonstrates how race and ability shape subjectivity while constructing the building blocks for antiracist and anti-ableist futures. She examines how Hopkinson's *Midnight Robber* theorizes mad Blackness and how Due's *African Immortals* series contests dominant definitions of the human. The theorizations of race and disability that emerge from these works, Pickens demonstrates, challenge the paradigms of subjectivity that white supremacy and ableism enforce, thereby pointing to the potential for new forms of radical politics.

*Disabilities of the Color Line* Dennis Tyler,2022-02-15 Rather than simply engaging in a triumphalist narrative of overcoming where both disability and disablement are shunned alike, *Disabilities of the Color Line* argues that Black authors and activists have consistently avowed disability as a part of Black social life in varied and complex ways. Sometimes their affirmation of disability serves to capture how their bodies, minds, and health have been and are made vulnerable to harm and impairment by the state and society. Sometimes their assertion of disability symbolizes a sense of commonality and community that comes not only from a recognition of the shared subjection of blackness and disability but also from a willingness to imagine and create a world distinct from the dominant social order. Through the work of David Walker, Henry Box Brown, William and Ellen Craft, Charles Chesnutt, James Weldon Johnson, and Mamie Till-Mobley, *Disabilities of the Color Line* examines how Black writer-activists have engaged in an aesthetics of redress: modes of resistance that show how Black communities have rigorously acknowledged disability as a response to forms of racial injury and in the pursuit of racial and disability justice--
