The Colour Of Magic Terry Pratchett, 2022-09-27 NAMED AS ONE OF THE BBC'S 100 MOST INSPIRING NOVELS 'It was octarine, the colour of magic. It was alive and glowing and vibrant and it was the undisputed pigment of the imagination . . .' Somewhere between thought and reality exists the Discworld, a magical world not totally unlike our own. Except for the fact that it travels through space on the shoulders of four giant elephants who in turn stand on the shell of an astronomically huge star turtle, of course. Rincewind is the world's worst wizard who has just been handed a very important job: to look after the world's first tourist, upon whose survival rests the peace and prosperity of the land. Unfortunately, their journey across the Disc includes facing robbers, monsters, mercenaries, and Death himself. And the whole thing's just a game of the gods that might send them over the edge . . . 'If you've never read a Discworld novel, what's the matter with you?' Guardian 'Pratchett uses his other world to hold up a distorting mirror to our own' The Times The Colour of Magic is the first book in the Wizards series, but you can read the Discworld novels in any order.

Split Infinity Piers Anthony, 2012-02-14 On the technological, decadent world of Proton, someone was trying to destroy Stile, serf and master Gamesman. His only escape lay through a mysterious "curtain" revealed by a loving robot. Beyond the curtain lay Phaze—a world totally ruled by magic. There, his first encounter was with an amulet that turned into a demon determined to choke him to death. And there, he soon learned, his alternate self had already been murdered by sorcery, and he was due to be the next victim. "Know thyself!" the infallible Oracle told him. But first he must save himself as he shuttled between worlds. On Proton, his fate depended on winning the great Games. On Phaze, he could survive only by mastering magic. And if he used any magic at all, the werewolf and the unicorn who were his only friends were determined to kill him at once!

Webster begins with an overall picture of each color's major aspects—its psychological influence, healing qualities, emotional impact, and magical characteristics.
