📖 **The Art of Wallpaper** Victoria & Albert Museum,2018-01-16 Color, complete, and create wallpaper patterns inspired by a dazzling range of historical designs The choice of wallpaper—an intricate floral motif, a complex repeat pattern, or a bold abstract design—can transform a room. The Art of Wallpaper showcases inspirational wallpapers from the V&A’s outstanding collection, from intricate hand-drawn designs to bold, woodblocked prints, and invites readers to create designs of their own. The book begins with a brief history of wallpaper manufacture and design. The activities are divided into four sections, becoming progressively more difficult: Experiment with Color, Complete the Repeat, Fill in the Gaps, and Create Your Own. Thumbnails at the end of the book identify all the featured designs. Wallpaper’s ubiquity and versatility have allowed designers to innovate and experiment with color, technique, and style. The Art of Wallpaper encourages readers to explore the endless variety of this medium and provides inspiration for new designs.

When her husband deems she needs a rest cure after the birth of their child, they rent an abandoned colonial mansion with a queer air about it. The narrator’s room has horrible yellow wallpaper which incites her decent into madness. This short story is an early American feminist work and explores the role of women in a patriarchal society. 📖 **The Yellow Wallpaper** Charlotte Gilman,2015-07-15 Unabridged & Original version with all 50 pages The Yellow Wallpaper (original title: The Yellow Wallpaper. A Story) is a 6,000-word short story by the American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine. It is regarded as an important early work of American feminist literature, illustrating attitudes in the 19th century toward women’s health, both physical and mental. Presented in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Foregoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment she is forbidden from working, and is encouraged to eat well and get plenty of exercise and air, so she can recuperate from what he calls a temporary nervous depression - a slight hysterical tendency, a diagnosis common to women in that period. She hides her journal from her husband and his sister the housekeeper, fearful of being reproached for overworking herself. Because it’s a nursery the room’s windows are barred, to prevent children from climbing through them, and there is a gate across the top of the stairs, though she and her husband have access to the rest of the house and its adjoining estate. The story depicts the effect of understimulation on the narrator’s mental health and her descent into psychosis. With nothing to stimulate her, she becomes obsessed by the pattern and color of the wallpaper. It is the strangest yellow, that wall-paper! It makes me think of all the yellow things I ever saw - not beautiful ones like buttercups, but old foul, bad yellow things. But there is something else about that paper - the smell! ... The only thing I can think of that it is like is the color of the paper! A yellow smell. In the end, she imagines there are women creeping around behind the patterns of the wallpaper and comes to believe she is one of them. She locks herself in the room, now the only place she feels safe, refusing to leave when the summer rental is up. For outside you have to creep on the ground, and everything is green instead of yellow. But here I can creep smoothly on the floor, and my shoulder just fits in that long smooch around the wall, so I cannot lose my way.

2 *Paint and Paper in Decoration* David Oliver, 2007 Paint and wallpaper are usually the least expensive element in any interior design yet also the most difficult to get right. This book simplifies the process, using Oliver’s simple, straightforward but extremely stylish approach to color and light. David Oliver’s use of color in interior design has brought him both great acclaim and a star-studded roster of private clients. This is his first book, and it functions as a master class in paint, paper, and light. The book also explores his tonal color-by-number system for ceilings, cornices, walls, and woodwork, creating a harmonious balance of light and color by accentuating various interior elements in a room. It combines an array of practical ideas and planning advice with actual case studies making it an inspirational reconsideration of color for anyone interested in interior design.
