King Cat Calico Finally Flies Free! Aaron Henne,2008

My Two-tailed Halloween Cat Ric Averill,2011 Sydney is a very bright and precocious girl who lives with her divorced father, loves sports, and is just quirky enough to draw the unwanted attention of the older girls who bully her at school. When an odd scientist, Dr. Entwell, comes to school offering to award a parrot to the student who brings in the greatest animal oddity, Sydney claims that she has a two-tailed cat. While gathering scissors, string and fake fur to transform her cat, she comes across the phone number for William, the Witch-You-Could-Have-Everything-You-Want Witch. Sydney dials up the whacky boy, who provides her with the magic to make everyone believe her cat really does have two tails. The ruse works well enough for Sydney to win the parrot. However, she begins to doubt the wisdom of her lie when she's asked to give up her cat to science. In this play, which is part entertainment and part exploration of self-esteem and the world of bullying, Sydney and the audience learn something about truth, lies, friendship and even a little science--P. Cattail Moonshine & Milkweed Medicine Tammi Hartung,2016-09-20 International Herb Association's 2017 Thomas DeBaggio Book Award Winner 2016 Silver Nautilus Book Award Winner History, literature, and botany meet in this charming tour of how humans have relied on plants to nourish, shelter, heal, clothe, and even entertain us. Did you know that during World War II, the US Navy paid kids to collect milkweed's fluffy white floss, which was then used as filling for life preservers? And Native Americans in the deserts of the Southwest traditionally crafted tattoo needles from prickly pear cactus spines. These are just two of the dozens of tidbits that Tammi Hartung highlights in the tales of 43 native North American flowers, herbs, and trees that have rescued and delighted us for centuries.

Total Cat Mojo Jackson Galaxy,2017-10-31 This comprehensive cat care guide from the star of the hit Animal Planet show My Cat from Hell, Jackson Galaxy, shows us how to eliminate feline behavioral problems by understanding cats' instinctive behavior. Cat Mojo is the confidence that cats exhibit when they are at ease in their environment and in touch with their natural instincts—to hunt, catch, kill, eat, groom, and sleep. Problems such as litter box avoidance and aggression arise when cats lack this confidence. Jackson Galaxy's number one piece of advice to his clients is to help their cats harness their mojo. This book is his most comprehensive guide yet to cat behavior and basic cat care, rooted in understanding cats better. From getting kittens off to the right start socially, to taking care of cats in their senior years, and everything in between, this book addresses

the head-to-toe physical and emotional needs of cats—whether related to grooming, nutrition, play, or stress-free trips to the vet.

Coastal Reservoir Technology and Applications Shu-Qing Yang,2022-02-18 Coastal Reservoir Technology and Applications presents the analyses showing that the world is not running out of water, but water is running out of river mouths—we need to work to harness this resource. Compared with inland water storages and desalination technology, coastal reservoirs are a nature-based water solution without disturbing the environment. This book mainly answers the questions of what the coastal reservoir technology is, where we should construct coastal reservoirs, and how to supply sufficient, high-quality and affordable water to the world with minimum environmental/social impacts. Chapter 1 reviews modes of water resources development in the history along with current problems and reasons. Chapter 2 discusses the definition of coastal reservoirs, its classifications and applications, and the SPP/downstream water management strategy. Other chapters analyse water crisis in every continent, as well as their water solutions. The possible coastal reservoir for each major river is suggested as well. Without freshwater, no one can survive. Likewise, without sufficient, high-quality and affordable freshwater, no community can achieve sustainable development. However, water is also a killer when it is too much (floods), too dirty (pollution), and too turbid. Different from other books, this resource shows how to solve these water problems. Coastal reservoirs and SPP strategy are suggested to develop floodwater in a safe way in coastal and inland regions, respectively. Solution of water-food-energy-ecosystem nexus needs a paradigm shift from upstream to downstream water management, i.e., from mountainous dams to coastal reservoirs, which conserves the precious, clean freshwater in seawater environment. Provides an analysis of every large river in the world to help users determine the feasibility of using a coastal reservoir in each location Presents a global coverage, including case studies where this technology has already been implemented Authored by a world expert on coastal reservoirs, with several patents in the area

Application of Multi-Criteria Decision Analysis in Environmental and Civil Engineering Dilber Uzun Ozsahin,Hüseyin Gökçeku, Berna Uzun,James LaMoreaux,2021-02-28 The use of a multi-criteria, decision-making theory was first studied in the 1970s. Its application in civil and environmental engineering is a new approach which can be enormously helpful for manufacturing companies, students, managers, engineers, etc. The purpose of this book is to provide a resource for students and researchers that includes current application of a multi-criteria, decision-making theory in various fields such as: environment, healthcare and engineering. In addition, practical application are shown for students manually. In real life problems there are many critical parameters (criteria) that can directly or indirectly affect the consequences of different decisions. Application of a multi-criteria, decision-making theory is basically the use of computational methods that incorporate several criteria and order of preference in evaluating and selecting the best option among many alternatives based on the desired outcome.

Cat Tale Craig Pittman,2020-01-21 A Garden & Gun Best Book of 2020 “Witty and passionate.” —Lauren Groff “Craig Pittman has a remarkable talent for telling stories set in the Sunshine State that never fail to fascinate and entertain.”—Gilbert King “The definitive book on one of America’s least understood apex predators. The story of how Florida’s panthers were saved from extinction is one that both deserves and needs to be told.” —Dane Huckelbridge The captivating tale of the Florida panther, its survival and rescue from extinction With novelistic detail and an eye for the absurd, Craig Pittman recounts the extraordinary story of the people who brought the panther back from the brink of extinction, the ones who nearly pushed the species over the edge, and the cats that were caught in the middle. This being Florida, there's more than a little weirdness, too. An engrossing narrative of wry humor, sharp writing and exhaustive reportage, Cat Tale shows what it takes to bring one species back and what unexpected costs such a decision brings.
