England and Wales, Ireland, Scotland, Cyprus
Wolfgang Faber,2009-04-27 This is the second volume of a series of national reports on basic issues concerning the acquisition and loss of ownership of movable assets. The series is planned to cover 27 European legal systems, distributed over six volumes. Starting with general property law issues like the concepts of ownership and possession employed in the different legal systems, and the means by which they are protected, the reports primarily focus on the “derivative” transfer of ownership, but their scope extends to good faith acquisition from a non-owner, acquisitive prescription, processing and commingling, and further related issues. The reports, prepared by national property law experts, provide the reader with detailed information about the rules, case law and legal literature in the jurisdictions concerned. They serve as a starting point for further comparative research in property law and also as a tool for practitioners searching for information on foreign legal systems.
