Proto-Austronesian Phonology with Glossary John U. Wolff, 2018-10-18 This work, divided into two volumes, is the study of the history of words in the Austronesian (An) languages—their origin in Proto-Austronesian (PAn) or at later stages and how they developed into the forms that are attested in the current An languages. A study of their history entails the reconstruction of the sound system (phonology) of PAn and an exposition of the sound laws (rules) whereby the original sounds changed into those attested in the current An languages. The primary aim of this work is to examine exhaustively the forms that can be reconstructed for PAn and also for the earliest stage after the An languages began to spread southward from Taiwan. For the later stages—that is, forms that can be traced no further back than to the proto-languages of late subgroups, we do not attempt to be exhaustive but confine ourselves to only some of the forms that are traceable to those times, treating those that figure prominently in the literature on historical An linguistics or those that have special characteristics important for understanding in general how forms arose and the processes that led to change. In short, the aim of this study is not just to reconstruct protomorphemes and order the reflexes according to the entries they fit under, but rather to account for the history of each form that is attested and explain what happened historically to yield the attestations. Volume 2 of the Proto-Austronesian Phonology is divided into four parts and contains a glossary,

finder lists from the English translation, a bibliography, and an index.

The Girl Who Wrote Loneliness Kyung-Sook Shin, 2016-03-01 Homesick and alone, a teenaged girl has just arrived in Seoul to work in a factory. Her family, still in the countryside, is too impoverished to keep sending her to school, so she works long, sunless days on a stereo-assembly line, struggling through night school every evening in order to achieve her dream of becoming a writer.

Motion Control (MC'98) D. Georges, 1999 Paperback. This workshop comprised three plenary sessions, three invited sessions and fifty-six regular papers which were selected by the International Programme Committee and came from twenty-one countries. The three plenary sessions covered the following topics: Control of Self-Optimizing Exercise Machines; Motion Control Problems in Automotive Control; and Control for Simulated Human and Animal Motion. The three invited sessions were devoted to: Non Holonomic Motion Control; Hybrid Control of Mechanical Systems; and Intelligent Motion Control. The regular sessions covered the following domains: Friction and Backlash; High Precision Motion Control; Actuators and Sensors; Mobile Robots and Non Holonomic Systems; Automotive Control; Rigid Robot Control; Flexible Structures; Walking Robots; High Precision Motion Control; Motion Control; AC Motor Drives; and Intelligent Motion Control.

A Dictionary of the Chinese Language Robert Morrison, 1815

Escape from Camp 14 Blaine Harden, 2012-03-29 With a New Foreword The heartwrenching New York Times bestseller about the only known person born inside a

North Korean prison camp to have escaped. North Korea's political prison camps have existed twice as long as Stalin's Soviet gulags and twelve times as long as the Nazi concentration camps. No one born and raised in these camps is known to have escaped. No one, that is, except Shin Dong-hyuk. In *Escape From Camp 14*, Blaine Harden unlocks the secrets of the world's most repressive totalitarian state through the story of Shin's shocking imprisonment and his astounding getaway. Shin knew nothing of civilized existence—he saw his mother as a competitor for food, guards raised him to be a snitch, and he witnessed the execution of his mother and brother. The late “Dear Leader” Kim Jong Il was recognized throughout the world, but his country remains sealed as his third son and chosen heir, Kim Jong Eun, consolidates power. Few foreigners are allowed in, and few North Koreans are able to leave. North Korea is hungry, bankrupt, and armed with nuclear weapons. It is also a human rights catastrophe. Between 150,000 and 200,000 people work as slaves in its political prison camps. These camps are clearly visible in satellite photographs, yet North Korea's government denies they exist. Harden's harrowing narrative exposes this hidden dystopia, focusing on an extraordinary young man who came of age inside the highest security prison in the highest security state. *Escape from Camp 14* offers an unequalled inside account of one of the world's darkest nations. It is a tale of endurance and courage, survival and hope.

Staying on Track Nigel Mansell, 2015-09-24 After finishing as runner-up three times in the drivers' world championship, in 1992 Mansell finally secured the title. It was the crowning achievement of a hugely successful career, in which he won 31 Grand Prix, a record for a British driver that stood until Lewis Hamilton overhauled him in 2014. Always

an aggressive driver, his exciting style meant he was hailed as a hero by his millions of fans in the UK and around the world. Out of the car, he was outspoken and charismatic, which merely served to enhance his reputation. Now, 20 years after he retired from F1, Mansell looks back on a stellar career in which he battled against many legends of the sport, from Lauda through the Senna and Prost years and on to Schumacher. He provides vivid insights into what it was like to race against those greats in an era when the risks to drivers were enormous. He explains what motivated him to get to the top, and takes the reader behind the scenes to give an unrivalled insight into the sport and the key moments of his career. Still closely involved in Formula One, Mansell assesses how F1 has changed, and gives his authoritative verdict on the sport, the cars and the drivers. It is an unmissable account from one of Britain's greatest sporting heroes.

Concise Oxford English Dictionary Angus Stevenson, Maurice Waite, 2011-08-18
Offers definitions for English words and phrases, along with observations about the evolution of the dictionary since its first edition and tables that contain information for such topics as countries and chemical elements.

Combinatorial Algorithms T. C. Hu, M. T. Shing, 2012-04-26 This updated edition presents algorithms for shortest paths, maximum flows, dynamic programming and backtracking. Also discusses binary trees, heuristic and near optimums, matrix multiplication, and NP-complete problems. Includes 153 black-and-white illustrations and 23 tables.

Please Look After Mom Kyung-Sook Shin,2011-04-05 WINNER OF THE MAN ASIAN LITERARY PRIZE When sixty-nine-year-old So-nyo is separated from her husband among the crowds of the Seoul subway station, her family begins a desperate search to find her. Yet as long-held secrets and private sorrows begin to reveal themselves, they are forced to wonder: how well did they actually know the woman they called Mom? Told through the piercing voices and urgent perspectives of a daughter, son, husband, and mother, Please Look After Mom is at once an authentic picture of contemporary life in Korea and a universal story of family love.
