Steve Chandler

Enthralled Christine A. Chandler, 2017-07-26 When author, Christine Chandler, signed up for a simple meditation retreat, she had no idea she would be severing emotional ties with her ordinary life, in order to obey the intense practices of Tibetan Lamas; becoming one of their many western devotees and "change agents" to help the lamas overwhelm western values and ethics in order to replace them with a Buddhist-disguised Tantric spirituality. After nearly thirty years as a Tibetan "Buddhist," Chandler finally realized that she had been part of a thousand-year old, guru-worshipping cult that uses mindfulness and other contemplative practices, along with ancient and sophisticated techniques, to recruit, commit and entrap westerners into the Tibetan Lama's medieval, misogynistic world. A world where the Tibetan lamas can secretly keep harems of young women, cuckold the men, and financially, physically and spiritually exploit their students. Chandler had a front row seat to the Tibetan Lama hierarchy and how it operates, having taken care of the son of Chogyam Trungpa, the notorious "crazy wisdom guru." This gave Chandler exposure to not only Trungpa's Vajradhatu/Shambhala inner workings, but also to the dozens of celebrity Tibetan lamas, who have been infiltrating our western institutions with their occult Tantra and their western devotees, for the last forty years. Deep inside this Tantric net, Chandler found that all Tibetan Lamas teach from the same guru-worshipping, thought-controlling plan; whether they call it Shambhala, Mahamudra, Dzogchen or Mahayana Buddhism. It is all Tantra: a cult of mass manipulation and coercive persuasion, designed to undermine the reasoning abilities of educated populations; changing their values and behaviors; turning them into obedient devotees; no longer able to think and act for themselves. If someone does leave Tibetan Buddhism and dares to be publicly critical, that person is labelled "too angry," "crazy" or a "liar"; their articles or books discredited; their

message drowned out. Inside the groups they are shunned as "heretics." Chandler takes the reader through her own experiences, from her first mindfulness meditation weekend, at a Boston Shambhala center, through her next decades, studying with the celebrity Tibetan Lamas and their western inner circles, drawn deeper and deeper into their Tantric net, until she finally breaks free; realizing that being well-educated was no protection but, instead, makes westerners more susceptible to the lamas' double-binding: believing they are studying the most esoteric of Buddhist philosophies, while becoming irrational members of a Tantric cult. Enthralled: The Guru Cult of Tibetan Buddhism exposes the many levels of deception, used by Tibetan Lamas, and their western inner circles, including the cover-ups by academia, the entertainment industry and the media. They collect billions of tax-exempt dollars in donations, recruit wealthy sponsors to their mission, and ensnare new student-recruits into a web of free labor, unquestioning devotion, and for some, sexual exploitation by these Tibetan lamas. Chandler deconstructs Tibetan Tantric Lamaism according to the criteria of anti-cult experts, Lifton and Margaret Singer, demonstrating how these lamas radically alter a person's perceptions, to create a "change agent" to further the lamas' globalist ambitions. Chandler's experience finally led her to Crestone, Colorado, a town where the Tibetan Lamas are part of a "Spiritual Alliance" of New-age, world citizens, all mindfully meditating, chanting, humming, and drumming their way backward, to create a global, "spiritual secularism" that is fundamentalist and dangerous to our democratic freedoms. A bold, brave exposition about one of the most misunderstood and misleading "new religious movements" in spirituality today, Enthralled: The Guru Cult of Tibetan Buddhism should not be missed by anyone who cares about truth.

Enthralled Christine A. Chandler C.A.G.S., Christine A. Chandler, 2018-12-19 Interest in Tibet and

Tibetan Buddhism has grown among many demographics in the United States and the West, today. The Dalai Lama and his 'Buddhism' has been promoted as bringing more 'peace, harmony, and compassion' to the world. Now the Dalai Lama and his inner circle of western devotees and fans are promoting his MIndfulness as the key to physical, mental and spiritual health. By explaining the true nature of Tibetan Lamaism and its Tantric roots, as well as the cult methods of recruitment and entrapment that the Tibetan Lamas use, the author opens the eyes of westerners to the dangers Tibetan Tantric Buddhism and its influences continue to present to our open, democratic and free societies.

Ten Commitments to Your Success Steve Chandler, 2010 America's notoriously unorthodox and creative personal growth guru Steve Chandler has written his most compact and powerful book yet in *TEN COMMITMENTS TO YOUR SUCCESS*. By explaining and dramatizing the power of introducing synergy into your life, Chandler demolishes the myth that a balanced life is mediocre. He reveals the underlying dynamic of commitment, how to access it, and how to apply it to the ten categories of your life that you usually don't get committed to. The author delivers exciting new ways to commit to your career, your partner, your wealth, your physical well-being, and your future. The mind-body-spirit synergy, which has been verified and validated by the biosciences as an absolutely necessary synergy for a quality life, is expanded by the author into ten specific commitments to be made and kept on a daily basis. These commitments then combine with each other to produce not a lone voice singing in the wilderness, but a thrilling harmonic chorus that connects the individual to the entire universal web of living, loving beings.

Management Gurus David Collins, 2020-06-01 This book provides a concise, critical expert overview of the elite group of consultants, analysts and commentators known as 'management gurus'. Often dismissed as lacking in substance, this volume demonstrates that gurus must be taken seriously given their impact on the world of management. Noting that the gurus are very much products of the 1980s, the book accounts for the rise of this group while challenging those who have attempted to personify - to name and acclaim - the gurus. Reviewing the research on management gurus the book proceeds from a consideration of 'guru theory' to offer an analysis of 'the guru industry' and 'guru speak'. Building upon this analysis the book offers a critical engagement with those who have sought to understand gurus as performance artists. Concluding with a radical agenda for future research which situates management's gurus within the frame of stand-up comedy, this book will enlighten and entertain scholars across the business disciplines and beyond.
