A Rhythm of Prayer Sarah Bessey, 2021-02-09 NEW YORK TIMES BESTSELLER • For the weary, the angry, the anxious, and the hopeful, this collection of moving, tender prayers offers rest, joyful resistance, and a call to act, written by Barbara Brown Taylor, Amena Brown, Nadia Bolz-Weber, and other artists and thinkers, curated by the author Glennon Doyle calls “my favorite faith writer.” It’s no secret that we are overworked, overpressured, and edging burnout. Unsurprisingly, this fact is as old as time—and that’s why we see so many prayer circles within a multitude of church traditions. These gatherings are a trusted space where people seek help, hope, and peace, energized by God and one another. This book, curated by acclaimed author Sarah Bessey, celebrates and honors that prayerful tradition in a literary form. A companion for all who feel the immense joys and challenges of the journey of faith, this collection of prayers says it all aloud, giving readers permission to recognize the weight of all they carry. These writings also offer a broadened imagination of hope—of what can be restored and made new. Each prayer is an original piece of writing, with new essays by Sarah Bessey throughout. Encompassing the full breadth of the emotional landscape, these deeply tender yet subversive prayers give readers an intimate look at the diverse language and shapes of prayer.

**History, Disrupted** Jason Steinhauer, 2021-12-07 The Internet has changed the past. Social media, Wikipedia, mobile networks, and the viral and visual nature of the Web have inundated the public sphere with historical information and misinformation, changing what we know about our history and History as a discipline. This is the first book to chronicle how and why it matters. Why does History matter at all? What role do history and the past play in our democracy? Our economy? Our understanding of ourselves? How do questions of history intersect with today’s most pressing debates about technology; the role of the media; journalism; tribalism; education; identity politics; the future of government, civilization, and the planet? At the start of a new decade, in the midst of growing political division around the world, this information is critical to an engaged citizenry. As we collectively grapple with the effects of technology and its capacity to destabilize our societies, scholars, educators and the general public should be aware of how the Web and social media shape what we know about ourselves - and crucially, about our past.

Beam Dynamics Etienne Forest, 2018-05-08 This volume lays down the foundations of a theory of rings based on finite maps. The purpose of the ring is entirely discussed in terms of the global properties of the one-turn map. Proposing a theory of rings based on such maps, this work offers another perspective on storage ring theory.
