Researching Elites and Power Francois Denord, Mikael Palme, Bertrand Réau, 2020-08-12 This open access book describes how elite studies theoretically and methodologically construct their object, i.e. how particular conceptualizations of elites are turned into research practice using different methods for collecting, dealing with and analyzing empirical data. The first of four sections focuses on what Mills named the power elite and includes Bourdieu's field of power. The second section addresses studies of the domain of economic power, whereas the third section centers on research on elite education. The fourth and last section highlights research on symbolic power, either

within social fields or as a dimension of social structure at large, areas where recognition is essential. All sections comprise empirical case studies of elites and power, whereby each of which makes explicit the various methodological choices made in the research process. Through focusing on methodological approaches for the study of elites and power and on how such approaches relate to each other as well as to the theoretical perspectives that underpin them, this book will be a valuable source for social scientists.

Irish CoCo Tricia Holbrook,2020-12-17 CoCo Higgins lives in the shadow of her famous artistic father, who has made his name painting nude paintings of her mother. The same mother that walked out of her life when she was only nine years old. Together with her sister, and a baby brother who is obviously not her father's child, they live with this man, who can only truly communicate on canvas. Ten years later CoCo gets a scholarship to the prestigious Art Academy in London. There she finds herself following in her father's footsteps; the same college, the same boarding house with the same landlady. CoCo throws herself into new experiences; the bohemian world of '70's London where love, sex, drugs and a wild evening in the Bunny Club are all part of CoCo's liberated exciting life. Until that fateful Monday morning when a new life drawing model turns up in college. She would recognise that body anywhere, she saw it often enough in her father's paintings. CoCo comes face to face with the woman she hasn't seen since she was nine years old.

Domestic Regulation and Service Trade Liberalization Pierre Sauve, Aaditya Mattoo, 2003-08-29 Trade in services, far more than trade in goods, is affected by a variety of domestic regulations, ranging from qualification and licensing requirements in professional services to pro-competitive regulation in telecommunications services. Experience shows that the quality of regulation strongly influences the consequences of trade liberalization. WTO members have agreed that a central task in the ongoing services negotiations will be to develop a set of rules to ensure that domestic regulations support rather than impede trade liberalization. Since these rules are bound to have a profound impact on the evolution of policy, particularly in developing countries, it is important that they be conducive to economically rational policy-making. This book addresses two central questions: What impact can international trade rules on services have on the exercise of domestic regulatory sovereignty? And how can services negotiations be harnessed to promote and consolidate domestic policy reform across highly diverse sectors? The book, with contributions from several of the world's leading experts in the field, explores a range of rule-making challenges arising at this policy interface, in areas such as transparency, standards and the adoption of a necessity test for services trade. Contributions also provide an in-depth look at these issues in the key areas of accountancy, energy, finance, health, telecommunications and transportation services.

Dressing Modern Frenchwomen Mary Lynn Stewart, 2020-03-03 At a glance, high fashion and feminism seem unlikely partners. Between the First and Second World Wars, however, these forces combined femininity and modernity to create the new, modern French woman. In this engaging study, Mary Lynn Stewart reveals the fashion industry as an integral part of women's transition into modernity. Analyzing what female columnists in fashion magazines and popular women novelists wrote about the new silhouette, Stewart shows how bourgeois women feminized the more severe, masculine images that elite designers promoted to create a hybrid form of modern that both emancipated women and celebrated their femininity. She delves into the intricacies of marketing the new clothes and the new image to middle-class women and examines the nuts and bolts of a changing industry—including textile production, relationships between suppliers and department stores, and privacy and intellectual property issues surrounding ready-to-wear couture designs. *Dressing Modern Frenchwomen* draws from thousands of magazine covers, advertisements, fashion columns, and features to uncover and untangle the fascinating relationships among the fashion industry, the development of modern marketing techniques, and the evolution of the modern woman as active, mobile, and liberated.
