The Criminal Law's Person Claes Lernestedt, Matt Matravers, 2022-02-10 The state's use of the threat, and imposition, of punishments to regulate conduct is thought (or at least said) by many to be legitimised by the idea that the criminal law's burdens only fall on those who are blameworthy for their conduct. However, the formal concept of 'blameworthiness' needs to be made substantive. This puts various ideas regarding the criminal law's person at the heart of debates about blame, guilt, and responsibility. How is the criminal law's person constructed, by whom, and with what disciplinary norms? How is it threatened by new 'knowledge', and how do those threats play out amongst the various stakeholders who claim the criminal law's person as 'theirs'? To address these and cognate questions, this volume brings together an international group of academics to engage with the criminal law's person from a range of disciplinary perspectives.

**Transforming the Workforce for Children Birth Through Age 8** National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

How People Learn II National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Science Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on How People Learn II: The Science and Practice of Learning, 2018-09-27 There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000, *How People Learn: Brain, Mind, Experience, and School: Expanded Edition* was published and its influence has been wide and deep. The report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan, there have been important discoveries about influences on learning, particularly sociocultural factors and the structure of learning environments. *How People Learn II: Learners, Contexts, and Cultures* provides a much-needed update incorporating insights gained from this research over the past decade. The book expands on the foundation laid out in the 2000 report and takes an in-depth look at the constellation of influences that affect individual learning. *How People Learn II* will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults.

Providing for the Casualties of War Bernard D. Rostker, 2013-04-29 War has always been a dangerous business, bringing injury, wounds, and death, and--until recently--often disease. What has changed over time, most dramatically in the last 150 or so years, is the care these casualties receive and who provides it. This book looks at the history of how humanity has cared for its war casualties and veterans, from ancient times through the aftermath of World War II.

**The Way I Used to Be** Amber Smith, 2022-12-29 THE TIKTOK SENSATION THAT EVERYONE IS TALKING ABOUT 'After finishing this book, my heart was pounding and I couldn't find words big enough to describe how brilliant, beautiful, and powerful it is.' L.E. Flynn, author of *All Eyes On Her* All Eden wants is to rewind the clock. To live that day again. She would do everything differently. Not laugh at his jokes or ignore the way he was looking at her that night. And she would definitely lock her bedroom door. But Eden can't turn back time. So she buries the truth, along with the girl she used to be. She pretends she doesn't need friends, doesn't need love, doesn't need justice. But as her world unravels, one thing becomes clear: the only person who can save Eden ... is Eden.

**Relativization in Ojibwe** Michael D. Sullivan, 2020 In *Relativization in Ojibwe*, Michael D. Sullivan Sr. compares varieties of the Ojibwe language and establishes subdialect groupings for Southwestern Ojibwe, often referred to as Chippewa, of the Algonquian family. Drawing from a vast corpus of both primary and archived sources, he presents an overview of two strategies of relative clause formation and shows that relativization appears to be an exemplary parameter for grouping Ojibwe dialect and subdialect relationships. Specifically, Sullivan targets the morphological composition of participial verbs in Algonquian parlance and categorizes the variation of their form across a number of communities. In addition to the discussion of participles and their role in relative clauses, he presents original research linking geographical distribution of participles, most likely a result of historic movements of the Ojibwe people to their present location in the northern midwestern region of North America. Following previous dialect studies concerned primarily with varieties of Ojibwe spoken in Canada, *Relativization in Ojibwe* presents the first

study of dialect variation for varieties spoken in the United States and along the border region of Ontario and Minnesota. Starting with a classic Algonquian linguistic tradition, Sullivan then recasts the data in a modern theoretical framework, using previous theories for Algonquian languages and familiar approaches such as feature checking and the split-CP hypothesis.

*Mitochondria as Targets for Phytochemicals in Cancer Prevention and Therapy* Dhyana Chandra, 2013-12-11 This book highlights the importance of phytochemicals and mitochondria in cancer prevention and therapy. Recent scientific discoveries have identified that naturally occurring biologically active compounds (i.e. phytochemicals) target multiple steps of tumorigenesis leading to the inhibition or delay in cancer progression. Mitochondria, organelles within a cell, are a critical target for phytochemicals in regulating the initiation, promotion, and progression of cancer. The book is divided into three parts to better communicate the important findings related to phytochemicals and mitochondria in cancer research. The first part describes updates on environmental and genetic factors causing cancer initiation and progression, the role of mitochondria function in regulating the process of tumorigenesis, and the role of mitochondria in regulating cell death such as apoptosis, autophagy, and necroptosis. The second part focuses on the elucidation of key target proteins that could be exploited for cancer prevention, and the role of phytochemicals in cancer prevention, updates on basic research related to phytochemicals action critical for cancer prevention, and updates on translational knowledge on cancer prevention by phytochemicals. The third part provides updates on phytochemicals targeting mitochondria for cancer therapy, an overview of action of phytochemicals on cancer stem cells, updates on the role of microRNA in phytochemicals-based therapy of cancer, and updates on phytochemicals-based translation research on therapy for metastatic cancer.

Economic Development in Africa Report 2019 United Nations Conference on Trade and Development (UNCTAD), 2019-06-26 The African Continental Free Trade Area (AfCFTA) represents a historic opportunity for the continent to boost intra-African trade and accelerate structural transformation. However, this relies on a critical policy instrument: the effective implementation of preferential trade liberalization among the AfCFTA members. Whether in practice African firms will utilize tariff preferences under the AfCFTA depends on a critical factor: rules of origin (RoO) and the net benefits of complying with them. This report argues for the adoption of flexible RoO and a strengthening of institutional capacities to ensure an impartial, transparent, predictable, consistent and neutral implementation of agreed RoO.

**Meridian** Amber Kizer, 2009-08-11 Half-human, half-angel, Meridian Sozu has a dark responsibility. Sixteen-year-old Meridian has been surrounded by death ever since she can remember. As a child, insects, mice, and salamanders would burrow into her bedclothes and die. At her elementary school, she was blamed for a classmate's tragic accident. And on her sixteenth birthday, a car crashes in front of her family home—and Meridian's body explodes in pain. Before she can fully recover, Meridian is told that she's a danger to her family and hustled off to her great-aunt's house in Revelation, Colorado. It's there that she learns that she is a Fenestra—the half-angel, half-human link between the living and the dead. But Meridian and her sworn protector and love, Tens, face great danger from the Aternociti, a band of dark forces who capture vulnerable souls on the brink of death and cause chaos.

Martin Waldseemüller's 'Carta Marina' of 1516 Chet Van Duzer, 2020-10-09 This open access book presents the first detailed study of one of the most important masterpieces of Renaissance cartography, Martin Waldseemüller's Carta marina of 1516. By transcribing, translating into English, and detailing the sources of all of the descriptive texts on the map, as well as the sources of many of the images, the book makes the map available to scholars in a wholly unprecedented way. In addition, the book provides revealing insights into how Waldseemüller went about making the map -- information that can't be found in any other source. The Carta marina is the result of Waldseemüller's radical re-evaluation of what a world map should be; he essentially started from scratch when he created it, rejecting the Ptolemaic model and other sources he had used in creating his 1507 map, and added more descriptive texts and a wealth of illustrations. Given its content, the book offers an essential reference work not only on this map, but also for anyone working in sixteenth-century European cartography. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. **The Daily 5** Gail Boushey, Joan Moser, 2023-10-10 The Daily 5: Fostering Literacy in the Elementary Grades, Second Edition retains the core literacy components that made the first edition one of the most widely read books in education and enhances these practices based on years of further experience in classrooms and compelling new brain research. The Daily 5 provides a way for any teacher to structure literacy (and now math) time to increase student independence and allow for individualized attention in small groups and one-on-one. Teachers and schools implementing the Daily 5 will do the following: Spend less time on classroom management and more time teaching Help students develop independence, stamina, and accountability Provide students with abundant time for practicing reading, writing, and math Increase the time teachers spend with students one-on-one and in small groups Improve schoolwide achievement and success in literacy and math. The Daily 5, Second Edition gives teachers everything they need to launch and sustain the Daily 5, including materials and setup, model behaviors, detailed lesson plans, specific tips for implementing each component, and solutions to common challenges. By following this simple and proven structure, teachers can move from a harried classroom toward one that hums with productive and engaged learners. What's new in the second edition: Detailed launch plans for the first three weeks Full color photos, figures, and charts Increased flexibility regarding when and how to introduce each Daily 5 choice New chapter on differentiating instruction by age and stamina Ideas about how to integrate the Daily 5 with the CAFE assessment system New chapter on the Math Daily 3 structure

*Science of Microscopy* P.W. Hawkes, John C.H. Spence, 2008-08-29 This fully corrected second impression of the classic 2006 text on microscopy runs to more than 1,000 pages and covers up-to-the-minute developments in the field. The two-volume work brings together a slew of experts who present comprehensive reviews of all the latest

instruments and new versions of the older ones, as well as their associated operational techniques. The chapters draw attention to their principal areas of application. A huge range of subjects are benefiting from these new tools, including semiconductor physics, medicine, molecular biology, the nanoworld in general, magnetism, and ferroelectricity. This fascinating book will be an indispensable guide for a wide range of scientists in university laboratories as well as engineers and scientists in industrial R&D departments.

Libidinal Economy Jean-Francois Lyotard,2004-01-01 Is regarded as the most important response to the philosophies of desire, as expounded by thinkers such as de Sade, Nietzsche, Bataille, Foucault and Deleuze and Guattari. It is a major work not only of philosophy, but of sexual politics, semiotics and literary theory, that signals the passage to postmodern philosophy.

*Discourse on the State of the Jews* Simone Luzzatto,2019-07-08 In 1638, a small book of no more than 92 pages in octavo was published “appresso Gioanne Calleoni” under the title “Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice.” It was dedicated to the Doge of Venice and his counsellors, who are labelled “lovers of Truth.” The author of the book was a certain Simone (Simḥa) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto’s political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are “wellsuited for trade,” much more so than others (such as “foreigners,” for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto’s argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism’s alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto’s resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto’s texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.
