Trained in the Fear of God Randy Stinson, Timothy Paul Jones, Dr. Randy Stinson and Dr. Timothy Paul Jones have been the primary architects of the theological foundations for what has become known as “family-equipping ministry”—a recognition that the generations need one another and that parents have an inherent responsibility for the discipleship of their children.

Indian Fairy Tales Joseph Jacobs, 2017-08-08 This book is a representative collection of twenty-nine Fairy Tales of India. Take a literary tour through India's rich folk tale tradition in this comprehensive volume by historian and folklorist Joseph Jacobs. These Indian tales resemble the stories that flourished in Europe, such as the tales by the Brothers Grimm and by Aesop, although they have an Indian flavor. The collector of these stories contends that they are very old, older than the legends and folk-tales that later flourished in Europe. He believes that India was the originator of this genre and the stories were possibly brought to Europe by the crusaders or other travelers that passed through India. In this book feature 30 stories taken from popular South Asian oral history.

Democracy and Social Injustice Thomas W. Simon, 1995 In this truly interdisciplinary study that reflects the author's work in philosophy, political science, law, and policy studies, Thomas W. Simon argues that democratic theory must address the social injustices inflicted upon disadvantaged groups. By shifting theoretical sights from justice to injustice, Simon recasts the nature of democracy and provides a new perspective on social problems. He examines the causes and effects of injustice, victims' responses to injustice, and historical theories of disadvantage, revealing that those theories have important repercussions for contemporary policy debates. Finally, Simon considers which institutions and practices come within the grasp of democracy and discusses the concept of a 'Negative Utopia,' or a future without injustice.

Cops, Teachers, Counselors Steven Williams Maynard-Moody, Michael Craig Musheno, 2009-11-10 Whether on a patrol beat, in social service offices, or in public school classrooms, street-level workers continually confront rules in relation to their own beliefs about the people they encounter. *Cops, Teachers, Counselors* is the first major study of street-level bureaucracy to rely on storytelling. Steven Maynard-Moody and Michael Musheno collect the stories told by these workers in order to analyze the ways that they ascribe identities to the people they encounter and use these identities to account for their own decisions and actions. The authors show us how the world of street-level work is defined by the competing tensions of law abidance and cultural abidance in a unique study that finally allows cops, teachers, and counselors to voice their own views of their work. Steven Maynard-Moody is Director of the Policy Research Institute and Professor of Public Administration at the University of Kansas. Michael Musheno is Professor of Justice and Policy Studies at Lycoming College and Professor Emeritus of Justice Studies, Arizona State University.

A Grammar of Kolya Yukaghir Elena Maslova, 2003 The series builds an extensive collection of high quality descriptions of languages around the world. Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality.

Ham Radio For Dummies H. Ward Silver, 2021-03-17 Respond to the call of ham radio Despite its old-school reputation, amateur radio is on the rise, and the airwaves are busier than ever. That's no surprise: being a ham is a lot of fun, providing an independent way to keep in touch with friends, family, and new acquaintances around the world—and even beyond with its ability to connect with the International Space Station! Hams are also good

in a crisis, keeping communications alive and crackling during extreme weather events and loss of communications until regular systems like cell phones and the internet are restored. Additionally, it's enjoyable for good, old-fashioned tech geek reasons—fiddling with circuits and bouncing signals off the ionosphere just happens to give a lot of us a buzz! If one or more of these benefits is of interest to you, then good news: the new edition of *Ham Radio For Dummies* covers them all! In his signature friendly style, longtime ham Ward Silver (Call Sign NØAX)—contributing editor with the American Radio Relay League—patches you in on everything from getting the right equipment and building your station (it doesn't have to be expensive) to the intricacies of Morse code and Ohm's law. In addition, he coaches you on how to prepare for the FCC-mandated licensing exam and tunes you up for ultimate glory in the ham radio hall of fame as a Radiosport competitor! With this book, you'll learn to: Set up and organize your station Communicate with people around the world Prep for and pass the FCC exam Tune into the latest tech, such as digital mode operating Whether you're looking to join a public service club or want the latest tips on the cutting edge of ham technology, this is the perfect reference for newbies and experts alike—and will keep you happily hamming it up for years!

Core Values in School Librarianship Judi Moreillon, 2021-05-11 This title offers pre-service, newly practicing, and seasoned school librarians opportunities for reflection as well as inspiring strategies for enacting four core values of the profession. The school library profession has been in crisis for more than a decade. Educational decision-makers have not been made aware of or sold on the core values of school librarianship and its value to students, classroom teachers, administrators, and the entire school community. Budgetary priorities often do not include school librarians, resulting in a lack of funding and the elimination of many positions, which can cause many school librarians to feel vulnerable and afraid. Guideposts are needed to offer today's school librarians a chance to connect or reconnect with their passion for literacy, learning, and serving that led them to the profession. *Core Values in School Librarianship: Responding with Commitment and Courage* provides preservice, newly practicing, and seasoned school librarians with opportunities for thoughtful reflection alongside inspiring strategies for gathering courage and enacting four core values of the profession. It is an important and visionary book that all school librarians should read as they develop in their role as leaders in their schools.

The Book of Hallowe'en Ruth Edna Kelley, 2018-01-15 Learn the secrets of the most frightening, fun-filled day of the year! The only day when the forces of darkness are openly celebrated, Halloween comes down to us from the strange, shrouded mists of antiquity, originating in the pagan world and the primitive ceremonies that honor Samhain, the dark, mysterious Lord of the Dead, at a time when the veil between our world and theirs is at its thinnest. The strange and weird customs and beliefs of our ancestors live again, every October 31st, in the only day of the year when it is considered okay to dress in frightening costumes, to go door to door begging, and to feast on fear. A true classic in the literature of pagan lore, you will find this book frightening, fascinating and fun!

AUDINT#Unsound:Undead Steve Goodman, Toby Heys, Eleni Ikoniadou, 2019-06-18 Tracing the the potential of sound, infrasound, and ultrasound to access anomalous zones of transmission between the realms of the living and the dead. For as long as recording and communications technologies

have existed, operators have evoked the potential of sound, infrasound, and ultrasound to access anomalous zones of transmission between the realms of the living and the dead. In *Unsound:Undead*, contributors from a variety of disciplines chart these undead zones, mapping out a nonlinear timeline populated by sonic events stretching from the 8th century BC (the song of the Sirens), to 2013 (acoustic levitation), with a speculative extension into 2057 (the emergence of holographic and holosonic phenomena). For the past seven years the AUDINT group has been researching peripheral sonic perception (unsound) and the ways in which frequencies are utilized to modulate our understanding of presence/non-presence, entertainment/torture, and ultimately life/death. Concurrently, themes of hauntology have inflected the musical zeitgeist, resonating with the notion of a general cultural malaise and a reinvestment in traces of lost futures inhabiting the present. This undead culture has already spawned a Lazarus economy in which Tupac, ODB, and Eazy-E are digitally revived as laser-lit holograms. The obscure otherworldly dimensions of sound have also been explored in the sonic fictions produced by the likes of Drexciya, Sun Ra, and Underground Resistance, where hauntology is virtually extended: the future appears in the cracks of the present. The contributions to this volume reveal how the sonic nurtures new dimensions in which the real and the imagined (fictional, hyperstitional, speculative) bleed into one another, where actual sonic events collide with spatiotemporal anomalies and time-travelling entities, and where the unsound serves to summon the undead. Contributors Lawrence Abu Hamdan, Lendl Barcelos, Charlie Blake, Lisa Blanning, Brooker Buckingham, Al Cameron, Erik Davis, Kodwo Eshun, Matthew Fuller, Kristen Gallerneaux, Lee Gamble, Agnès Gayraud, Steve Goodman, Anna Greenspan, Olga Gurionova, S. Ayesha Hameed, Tim Hecker, Julian Henriques, Toby Heys, Eleni Ikoniadou, Amy Ireland, Nicola Masciandaro, Ramona Naddaff, Anthony Nine, The Occulture, Luciana Parisi, Alina Popa, Paul Purgas, Georgina Rochefort, Steven Shaviro, Jonathan Sterne, Jenna Sutela, Eugene Thacker, Dave Tompkins, Shelley Trower, and Souzana Zamfe.

Calling Me Home Julie Kibler,2013-02-12 A National Best Seller! *Calling Me Home* by Julie Kibler is a soaring debut interweaving the story of a heartbreaking, forbidden love in 1930s Kentucky with an unlikely modern-day friendship Eighty-nine-year-old Isabelle McAllister has a favor to ask her hairdresser Dorrie Curtis. It's a big one. Isabelle wants Dorrie, a black single mom in her thirties, to drop everything to drive her from her home in Arlington, Texas, to a funeral in Cincinnati. With no clear explanation why. Tomorrow. Dorrie, fleeing problems of her own and curious whether she can unlock the secrets of Isabelle's guarded past, scarcely hesitates before agreeing, not knowing it will be a journey that changes both their lives. Over the years, Dorrie and Isabelle have developed more than just a business relationship. They are friends. But Dorrie, fretting over the new man in her life and her teenage son's irresponsible choices, still wonders why Isabelle chose her. Isabelle confesses that, as a willful teen in 1930s Kentucky, she fell

deeply in love with Robert Prewitt, a would-be doctor and the black son of her family's housekeeper—in a town where blacks weren't allowed after dark. The tale of their forbidden relationship and its tragic consequences makes it clear Dorrie and Isabelle are headed for a gathering of the utmost importance and that the history of Isabelle's first and greatest love just might help Dorrie find her own way.

Unlikely Heroes C.S. Kaddi, 2012-11-08 In September 1991, unpaid soldiers of Zaire and many poor, hungry civilians participate in a massive rampage and looting spree. They march through Kinshasa destroying homes and businesses. Trapped inside this storm, an American family awaits rescue. Jonathan, the Rhodesian ridgeback, knows the family is in danger. His duty is to keep them safe. To protect the family from ensuing chaos, he needs Rainbow, the parrot, to gather information outside the family compound. He must also rely on the family pets that reside inside the house--Muki (the Poodle) and Bandit (the adopted kitten). It is a story of self-discovery, of friendship, of finding one's way home and of being left behind. Jonathan, Rainbow, Muki and Bandit overcome their distrust of one another and work together to calm the fears of the family and guide them to safety. Their heroic and often mischievous deeds will make you laugh and bring you to tears. Through their eyes, we witness the heartbreak, resilience and beauty that is Africa.
