William J. Duiker

World History in Documents Peter N. Stearns, 2008-04-15 Promotes the ability to study history with primary sources and the ability to compare aspects of major societies.

World History ,2000

The Twentieth Century R. Keith Schoppa, 2021 From the collapse of empires to the rise of decolonized nation-states on the global stage. A chronological narrative of the recent past and a valuable historical standpoint from which to view the twenty-first century world

The No-nonsense Guide to World History Chris Brazier, 2001 This guide integrates concisely the conventional narratives of history with the stories of the continents and communities of Asia, Africa and Latin America.

Global History Noel Cowen, 2013-05-09 This short book offers a clear and engaging introduction to the history of humankind, from the earliest movements of people to the contemporary epoch of globalization. Cowen traces this complex history in a manner which offers both a compelling narrative and an analytical and comparative treatment. Drawing on a new perspective on global history, he traces the intersection of change in economics, politics and human beliefs, examining the formation, enlargement and limits of human societies. Global History shows how much of human history encompasses three intersecting forces - trading networks, expanding political empires and crusading creeds. Abandoning the limits of a Eurocentric view of the world, the book offers a number of fresh insights. Its periodization embraces movement across continents and across the millennia. The indigenous American civilizations are included, for instance. The book also ranges over the early civilizations of China and Europe as well as the Russian and Islamic worlds. Modern American and Japanese civilizations are, in addition, a focus for attention. The author examines national and regional histories in relation to wider themes, sequences and global tendencies. In conclusion, he seeks to address the question of the extent to which a global society is beginning to crystallize.

World History and You Vivian Bernstein, 1997-01-01

The Super Summary of World History Revised Alan Dale Daniel, 2008-10-20 The Super Summary of World History Revised is a new and very compact history of the world emphasizing western culture and political processes as of 2010. Mr. Daniel has completely reviewed and rewritten major sections of his original work, *The Super Summary of World History*, and published his updated work as the *Super Summary of World History Revised*. The Super Summary is for the thinking person. This new history raises exciting questions and puts events into new perspectives to stimulate real thinking about history rather than accepting that the past as set in stone. History isn't just names and dates, but a range of decisions and actions that often turn on the smallest circumstance. The Super Summary analyzes a few events in depth but most are put into their historical framework so the reader discern where and how all of this action escorts us to the present day. If history seems dull, pick up *The Super Summary* to discover that Western History is alive with controversy and consequence. The book has 612 pages, over 83 Figures most of which are maps - a detailed Table of Contents, a time line of essential events, a list of important on-line sources, an extensive index, and 391 footnotes. At the end of key chapters is a list of reading and on-line sources to help the reader expand their knowledge of history Plus a new Let Us Learn section

detailing what history can teach us. Throughout the text, critical names are in bold, and extremely important events are in bold and italic print.

World History Larry Krieger, Kenneth Neill, Steven L. Jantzen, 1992

Timelines of World History DK, 2022-06-07 An illustrated record covering all the major events and achievements in human history. Designed for history aficionados, trivia buffs, or anyone with a curious mind, Timelines of World History takes an innovative approach to the traditional, text-driven style of a date-by-date chronology. Tracing the progress of humanity from the dawn of history to the present day, the book follows major historical events, cultural milestones, the expansions of empires, and the inventions and achievements of civilizations. Important events are cross-referenced with specific dates, important historical figures are profiled, and introductory essays profile what was happening and why. With more than 500 photographs and illustrations and over 25 maps, this is the most authoritative visual chronological record of the last 20,000 years.

Ways of the World: A Brief Global History with Sources, Combined Volume

Robert W. Strayer, Eric W. Nelson, 2015-10-02 Ways of the World is one of the most successful and innovative textbooks for world history. The brief-by-design narrative is truly global and focuses on significant historical trends, themes, and developments in world history. Authors Robert W. Strayer, a pioneer in the world history movement with years of classroom experience, along with new co-author Eric W. Nelson, a popular and skilled teacher, provide a thoughtful and insightful synthesis that helps students see the big picture while teaching students to consider the evidence the way historians do.

World Past to World Present Peter N. Stearns, 2021-09-01 World Past to World Present: A Sketch of Global History provides an unusually brief and present-focused treatment of human history beginning with the advent of agriculture and ending with considerable attention to world history developments since World War II. This accessible and concise text covers a very real but selected history of the human experience. The book emphasizes the importance of contacts and exchanges among different cultures and economies up to contemporary globalization, and consistent attention is devoted to comparisons among major regional societies. The characteristics of agricultural, and later industrial, societies help establish a larger framework within the text. Peter N. Stearns works to connect past developments to contemporary global patterns and problems, explicitly balancing major changes with significant continuities. Key features include: A no-frills approach to an expansive stretch of human history Encourages students to understand the importance of studying history by focusing on aspects of the past that are particularly useful in assessing the current state of the world Invites instructors to combine the advantages of systematic summary coverage with varied supplementary reading Nine maps illustrate important movements and civilizations throughout the world. Truly international in coverage, this book has been specifically designed as a core text for Global History survey courses.

A People's History of the World Chris Harman, 2008-04-17 Building on A People's History of the United States, this radical world history captures the broad sweep of human history from the perspective of struggling classes. An "indispensable volume" on class and capitalism throughout the ages—for readers reckoning with the history they were taught and history as it truly

was (Howard Zinn) From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of "Great Men," of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of "history from below." In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. A vital corrective to traditional history, *A People's History of the World* is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress.

A Companion to World History Douglas Northrop, 2014-12-15 *A Companion to World History* presents over 30 essays from an international group of historians that both identify continuing areas of contention, disagreement, and divergence in world and global history, and point to directions for further debate. Features a diverse cast of contributors that include established world historians and emerging scholars Explores a wide range of topics and themes, including and the practice of world history, key ideas of world historians, the teaching of world history and how it has drawn upon and challenged traditional teaching approaches, and global approaches to writing world history Places an emphasis on non-Anglophone approaches to the topic Considers issues of both scholarship and pedagogy on a transnational, interregional, and world/global scale

What Is Global History? Sebastian Conrad, 2016-01-12 The first comprehensive overview of the innovative new discipline of global history Until very recently, historians have looked at the past with the tools of the nineteenth century. But globalization has fundamentally altered our ways of knowing, and it is no longer possible to study nations in isolation or to understand world history as emanating from the West. This book reveals why the discipline of global history has emerged as the most dynamic and innovative field in history—one that takes the connectedness of the world as its point of departure, and that poses a fundamental challenge to the premises and methods of history as we know it. *What Is Global History?* provides a comprehensive overview of this exciting new approach to history. The book addresses some of the biggest questions the discipline will face in the twenty-first century: How does global history differ from other interpretations of world history? How do we write a global history that is not Eurocentric yet does not fall into the trap of creating new centrism? How can historians compare different societies and establish compatibility across space? What are the politics of global history? This in-depth and accessible book also explores the limits of the new paradigm and even its dangers, the question of whom global history should be written for, and much more. Written by a leading expert in the field, *What Is Global History?* shows how, by understanding the world's past as an integrated whole, historians can remap the terrain of their discipline for our globalized present.

A Nation Among Nations Thomas Bender, 2006 Publisher Description

World History Candice Lee Goucher, Linda A. Walton, 2008 Using a thematic

approach supported by a variety of evidence and multidisciplinary interpretations, *World History: Journeys from Past to Present* provides a dynamic framework for the study of the vast reaches of our common past. Distinguished by truly global coverage, this survey helps us to discover the connections between past and present from earliest prehistory to the present age of globalization. Thematic chapters explore mobility and the interrelationship of peoples; their connections with the environment; the communities they form; the patterns of dominance and submission involved in the ways they organize themselves politically, economically, and socially; and the ways in which they construct and express cultures through ideas, religion art, and architecture. *World History* has many student-friendly features, including: primary source material to support the thematic argument over ninety images and maps to enhance and illuminate the text guided links to online resources, including the multimedia website *Bridging World History* a support website with discussion questions to assist revision and understanding. *World History: Journeys from Past to Present* will be an invaluable resource for students of college or university courses on world history or world civilization, and for anyone interested in a comprehensive framework for grasping world history.

America in World History Susan Crean, Tom Lansford, 2010 America has played a significant role in world affairs from first contact between Europeans and Native Americans into the twenty-first century. This title explores the core historical events, trends, and personalities from US history within the context of global history and international relations.

Twentieth Century World History William J. Duiker, 2001-11-21 This text presents a comprehensive, balanced history of the world in the twentieth century. In addition to providing a chronicle of the key events in this revolutionary century, it takes a global approach to examining the underlying issues that have shaped the times. At the same time, it does justice to the distinctive character of individual civilizations and regions. Political, economic, social, and cultural history are integrated into a chronologically ordered synthesis that is presented through a consistent, engaging single-author narrative.

The Essential World History William J. Duiker, Jackson J. Spielvogel, 2020

A World History Daniel Roselle, 1963
