Washington Information Directory 2019-2020 CQ Press,2019-07-03 The Washington Information Directory is the essential one-stop source for information on U.S. governmental and nongovernmental agencies and organizations. This thoroughly researched guide provides capsule descriptions that help users quickly and easily find the right person at the right organization. The Washington Information Directory offers three easy ways to find information: by name, by organization, and through detailed subject indexes. Although it is a directory, the volume is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or nongovernmental) does related to that topic. It is focused on Washington—in order to be listed, an organization must have an office in the Washington metropolitan area. These descriptions are not boilerplate

advertising material from the organizations; rather, they are hand-crafted by a talented freelance research team. In addition, the Washington Information Directory pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. It has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies. With more than 10,000 listing and coverage of the new presidential administration, the 2019–2020 Edition features contact information for the following: • 116th Congress and federal agencies • Nongovernmental organizations • Policy groups, foundations, and institutions • Governors and other state officials • U.S. ambassadors and foreign diplomats • Congressional caucuses

My Journey as a Combat Medic Patrick

Thibeault, 2012-07-20 Patrick Thibeault has served in the US Army in various capacities since the 1990s, originally training as a Airborne soldier before specialising as a combat medic. My Journey as a Combat Medic covers his original training and deployment before providing a look at the roles he's since played in the US Army's forces, including his recent deployment to Afghanistan. It is a no-holds bar look at the modern medic in the US Army, allowing us a glimpse at the training as a soldier and as a specialist, as well as deployment and front line duties and the impact of

service on civilian life, including an honest look at PTSD, from the author's own personal experience. Rather than a technical manual, *My Journey as a Combat Medic* is a detailed first hand account, concluding with a letter to new medics, providing a career's worth of advice and knowledge as they begin their journeys.

Tactical Combat Casualty Care Handbook United States Army,2017-05-17 Tactical Combat Casualty Care (TCCC) has saved hundreds of lives during our nation's conflicts in Iraq and Afghanistan. Nearly 90 percent of combat fatalities occur before a casualty reaches a medical treatment facility. Therefore, the prehospital phase of care is needed to focus on reducing the number of combat deaths. However, few military physicians have had training in this area and, at the onset of hostilities, most combat medics, corpsmen, and pararescue personnel in the U.S. military have been trained to perform battlefield trauma care through civilian-based trauma courses. These courses are not designed for the prehospital combat environment and do not reflect current practices in the area of prehospital care. TCCC was created to train Soldiers and medical personnel on current best practices for medical treatment from the point of injury to evacuation to Role 3 facilities

Vietnam Studies - Allied Participation In Vietnam [Illustrated Edition] Lieutenant General Stanley Robert Larsen,2014-08-15 [Includes 2 tables, 5 charts, 7 maps, and 28 illustrations] This book forms part of the "Vietnam Studies" series produced by various senior commanders who

had served in the U.S. Army during the Vietnam War; each officer was chosen for their knowledge of the number of specialized subjects that were covered by the series. "More than forty nations provided assistance to the Republic of Vietnam in its struggle against North Vietnam. This aid ranged from economic and technical assistance to educational and humanitarian contributions. Hundreds of Free World civilians worked in Vietnam as doctors, teachers, and technical specialists. Eight nations also provided military assistance. The flags of these Free World countries-the United States, the Republic of Korea, Thailand, Australia, New Zealand, the Philippines, the Republic of China, and Spain-flew alongside the colors of the Republic of Vietnam at the headquarters of the Free World Military Assistance Forces in Saigon. The military contributions of these nations included combat troops, army medical teams, and individual political warfare advisers. The degree of assistance and co-operation among the concerned Free World nations resulted from years of work and involvement. While many nations expressed sympathy for the plight of South Vietnam, aid did not always come easily, quickly, or to the extent desired. Many nations, beset by their own internal economic and political problems, could do little to help; others did nothing. The story of the efforts of the contributing nations and the efforts to enlist their aid is the subject of this monograph."

Tips from the Frontline offer suggestions from experienced personnel. Updated throughout including the latest demographic data, the new

edition also features: -New chapter (9) on women service members that addresses the accomplishments and challenges faced by this population including sexual bias and assault, and combat-related psychological disorders. - New chapter (10) on veterans and families looks at veterans by era (e.g.WW2), each era's signature issues and how those impact programs and policies, and challenges veterans may face such as employment, education, and mental and physical health issues. -Two new more comprehensive and cohesive chapters (11 & 12) review military and civilian programs, policies, and organizations that support military and veteran families. -Additional information on TBI and PTSD, the deployment cycle, stress and resilience, the possible negative effects of military life on families, same-sex couples and their children, and the recent increase in suicides in the military. -More applied cases and exercises that focus on providing services to military families. Intended as a text for advanced undergraduate or graduate courses on military families or as a supplement for courses on the family, marriage and family, stress and coping, or family systems taught in family science, human development, clinical or counseling psychology, sociology, social work, and nursing, this book also appeals to helping professionals who work with military and veteran families.
