**Stigmas of the Tamil Stage** Susan Seizer, 2005-04-11 A study of the lives of popular theater artists, *Stigmas of the Tamil Stage* is the first in-depth analysis of Special Drama, a genre of performance unique to the southernmost Indian state of Tamilnadu. Held in towns and villages throughout the region, Special Drama performances last from 10 p.m. until dawn. There are no theatrical troupes in Special Drama; individual artists are contracted "specially" for each event. The first two hours of each performance are filled with the kind of bawdy, improvisational comedy that is the primary focus of this study; the remaining hours present more markedly staid dramatic treatments of myth and history. Special Drama artists themselves are of all ages, castes, and ethnic and religious affiliations; the one common denominator in their lives is their lower-class status. Artists regularly speak of how poverty compelled their entrance into the field. Special Drama is looked down upon by the middle- and upper-classes as too popular, too vulgar, and too "mixed." The artists are stigmatized: people insult them in public and landlords refuse to rent to them. Stigma falls most heavily, however, on actresses, who are marked as "public women" by their participation in Special Drama. As Susan Seizer's sensitive study shows, one

of the primary ways the performers deal with such stigma is through humor and linguistic play. Their comedic performances in particular directly address questions of class, culture, and gender deviations—the very issues that so stigmatize them. Seizer draws on extensive interviews with performers, sponsors, audience members, and drama agents as well as on careful readings of live Special Drama performances in considering the complexities of performers' lives both on stage and off.

Unsettling Translation Mona Baker, 2022-05-31 This collection engages with translation and interpreting from a diverse but complementary range of perspectives, in dialogue with the seminal work of Theo Hermans. A foundational figure in the field, Hermans's scholarly engagement with translation spans several key areas, including history of translation, metaphor, norms, ethics, ideology, methodology, and the critical reconceptualization of the positioning of the translator and of translation itself as a social and hermeneutic practice. Those he has mentored or inspired through his lectures and pioneering publications over the years are now household names in the field, with many represented in this volume. They come together here both to critically re-examine translation as a social, political and conceptual site of negotiation and to celebrate his contributions to the field. The volume opens with an extended introduction

and personal tribute by the editor, which situates Hermans's work within the broader development of critical thinking about translation from the 1970s onward. This is followed by five parts, each addressing a theme that has been broadly taken up by Theo Hermans in his own work: translational epistemologies; historicizing translation; performing translation; centres and peripheries; and digital encounters. This is important reading for translation scholars, researchers and advanced students on courses covering key trends and theories in translation studies, and those engaging with the history of the discipline. Doing Style Constantine V. Nakassis, 2016-04-25 In *Doing Style*, Constantine V. Nakassis explores the world of youth and mass media in South India, where what Tamil youth call "style" anchors their day-to-day lives and media worlds. Through intimate ethnographic descriptions of college life in Tamil Nadu, Nakassis explores the complex ways that acts and objects of style such as brand fashion, English slang, and film representations express the multiple desires and anxieties of this generation, who live in the shadow of the promise of global modernity. As Nakassis shows, while signs of the global, modern world are everywhere in post-liberalization India, for most of these young people this world is still very distant—a paradox that results in youth's profound sense of being in between. This in-betweenness manifests itself in the ambivalent quality of style, the ways in which stylish objects are necessarily marked as counterfeit, mixed, or ironical. In order to show how this in-betweenness materializes in particular media, Nakassis explores the entanglements between youth peer groups and the sites where such stylish media objects are produced, arguing that these entanglements deeply condition the production and circulation of the media objects themselves. The result is an important and timely look at the tremendous forces of youth culture, globalization, and mass media as they interact in the vibrancy of a rapidly changing India.

**Knowing Their Place** Lucy Delap, 2011-06-16 Historians have traditionally seen domestic service as an obsolete or redundant sector from the middle of the twentieth century. *Knowing Their Place* challenges this by linking the early twentieth-century employment of maids and cooks to later practices of employing au pairs, mothers' helps, and cleaners. Lucy Delap tells the story of lives and labour within British homes, from great houses to suburbs and slums, and charts the interactions of servants and employers along with the intense controversies and emotions they inspired. *Knowing Their Place* also examines the employment of men and migrant workers, as well as the role of laughter and erotic desire in shaping domestic service. The memory of domestic service and the role of the past in shaping and mediating the

present is examined through heritage and televisual sources, from Upstairs, Downstairs to The 1900 House. Drawing from advice manuals, magazines, novels, cinema, memoirs, feminist tracts, and photographs, this fascinating book points to new directions in cultural history through its engagement in innovative areas such as the history of emotions and cultural memory. Through its attention to the contemporary rise in the employment of domestic workers, *Knowing Their Place* sets modern Britain in a new and compelling historical context.
