Singapore Inc.: A Century of Business Success in Global Markets Leon

Choong,Easwaramoorthy Rangaswamy,Ian Jamieson,Anne-Marie Kilday,2023-12-18 This book features 100 local case studies examining the experiences of leading Singaporean companies across different sectors including aviation, logistics, banking, and real estate. They offer valuable insights into how companies adapted to evolving market dynamics, expanded their business portfolios, ventured into global markets, prioritised sustainability, and leveraged innovation and technology to maintain competitiveness. Through case studies, readers gain practical knowledge that can be applied to their own enterprises, a unique perspective into Singapore's dynamic and competitive business landscape, and the successes and challenges faced by Singaporean companies. The book is divided into different sections exploring specific themes such as business strategy and transformation, diversification and expansion, sustainability, innovation and technology, financial performance, and risk management. It scrutinises how companies responded to shifting market conditions, competition, regulations, customer preferences, and global events. Additionally, it sheds light on the obstacles companies encountered in terms of sustainable practices, financial performance, risk management, talent retention, and technological advancements. By presenting cases across industries and companies in Singapore, Choong et al. highlight their triumphs, setbacks, and valuable lessons learned. This book can be rendered as a practical and essential resource for business professionals, entrepreneurs, and students interested in understanding effective business strategies.

Achieving Success Through Innovation Glenn Withiam,2016-09-11 This book investigates the genesis and success of innovation in the hospitality industry as detailed in over four dozen case studies. In many of the cases studies, the innovators themselves provide the insights into their innovative inspiration and the lessons learned from the way they brought their innovative ideas to life. The cases include innovations for improved customer service, stronger human resources, and new food service and lodging concepts. While updated technology forms the basis for many of the innovations, some of the cases focus specifically on technology improvements, with a particular focus on the use of technology as a mediator in the service value chain. With the passage of several years, the book shares the outcome of the innovative concepts—most of which continue to operate. The lessons presented will provide you a valuable perspective on success through innovation, whether you are operating in the hospitality industry or another business.

New York Cab Driver and His Fare Charles Vidich,2017-09-29 Using information derived from research and interviews with cab drivers, Vidich has written a basic work on New York City cab drivers (hacks) that also provides passengers (fares) with a survival manual. Cab drivers are quoted by newspaper columnists, politicians, and at dinner parties; yet a hard look at the profession and its role in the transportation system of the city has been completely lacking. Vidich brings out in clear language the conflicts between the cab driver's position as a dispenser of a public service and his needs as a working person subjected to violence and pressure. It is difficult to imagine a more enjoyable introduction to an industry whose members are a folk tradition. At the same time, this book provides insight into the history and sociology of an important urban institution. It is

a book about cab drivers everywhere; and cab drivers and fares in all cities have a new handbook in this volume.

Government In Business: Leading Or Lagging? Hwee Hua Lim, 2021-02-09 The evergreen debate over government's involvement in business continues in earnest. Participants straddle all stakeholder groups, from the state itself to the private sector to the public at large. Add to that debate increasing globalisation, and now de-globalisation, and the advent of technological advances. Criticism is often levelled at a government that is slow to act or one that belatedly introduces damning regulations. Many governments are already saddled with demands spanning mega infrastructural development to bulging fiscal deficits to evening out growth across the population. The politics of the day are however synonymous with short-termism. The Covid-19 pandemic has increased the bailout burden even more. The author attempts to provide a fair assessment of the potentially complementary roles that the public and private sectors can play in a fast-changing global economy, amidst the shifting expectations of society. 50 Years Of Transportation In Singapore: Achievements And Challenges Tien Fang Fwa, 2016-07-22 This unique volume presents the achievements of the land, sea and air transport industry of Singapore in the last 50 years after Singapore gained its independence in 1965. It provides a comprehensive overview of Singapore's progress in transportation from a typical third world system in the 1960s to one that is currently in the top league globally in all aspects of passenger and freight transportation. Singapore's successes in land transport planning, urban traffic management, and public transport systems provide valuable experience for major cities worldwide. The emergence of the Singapore Port as the most efficient container port in the world is another success story that inspires both established and up-and-coming port operators alike. The ambitious goal of Singapore to develop itself into a maritime knowledge hub of the future is a bold and exciting undertaking catching worldwide attention. In air transport, Singapore is well known for its efficiency as a major regional hub. This book examines in detail the important milestones and background developments that have led to the highly advanced state of transportation systems in the land, sea and air transport of Singapore today. Each chapter is written by professionals who are themselves part of the success stories presented. The chapter authors are specially invited to provide a professional account of the topics of their expertise. The authors have been able to draw on extensive amounts of published and unpublished documents and reports to present a comprehensive picture for the subject of interest in each chapter. As a whole, the book offers a holistic and informative professional reference book on the major happenings and achievements of Singapore in the transportation sector.

Taxi Life Tony Chinnock, 2019-10-16 this book tells the tales of everyday taxi life, the ups and downs of being a taxi driver, the good and the not so good, what life is like on the road over a ten year period and why i started taxi driving for the love of my wife.

Reforming the law of taxi and private hire services Great Britain: Law Commission, 2012-05-10 This consultation paper presents the Law Commission's provisional proposals for reform of the legal framework relating to taxis and private hire vehicles. Taxis and private hire vehicles (PHVs) are an important part of local transport. They operate in highly regulated markets where safety and quality control are paramount. Licensing covers key areas such as the quality of services, the fitness of drivers, fare regulation and restrictions on the number of licenses issued. The current law on taxis and PHVs has been criticised for being complex and outdated. These proposals retain the important distinction between taxis - which can ply for hire on the street or a cab rank - and private hire vehicles which can only be pre-booked. But all vehicles would be subject to national minimum safety standards and, for private hire vehicles, these would replace more than 340 sets of local regulations. This will reduce the burden on business because,

once appropriately licensed, a private hire firm could work freely across the country, without geographical restrictions. This would contribute to widening consumer choice and to making services cheaper and more competitive. The Commission also makes suggestions covering a wide range of issues, including improving provision for persons with disabilities, quantity restrictions and enforcement. [Law Commission website]
