Intercultural Communication James W. Neuliep,2020-01-28 Intercultural Communication: A Contextual Approach introduces students to the fundamental topics, theories, concepts, and themes of intercultural communication. Best-selling author James W. Neuliep presents a clear model for examining communication within a variety of contexts, including cultural, microcultural, environmental, sociorelational, and perceptual. Each chapter focuses on one context and explores the combination of factors within that context, including setting, situation, and circumstances. The updated Eighth Edition reflects the most recent research in the field and further incorporates the role of modern technology and its impact on intercultural communication. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

Operational and Medical Management of Explosive and Blast Incidents David W. Callaway,Jonathan L. Burstein,2020-07-03 This book provides a comprehensive overview of the medical and operational management of blast and explosive incidents affecting civilian populations. It incorporates global lessons learned from first responders, emergency medicine providers, surgeons, intensivists, and military specialists with deep experience in handling blast injuries from point of injury through rehabilitation. The book begins with background and introductory information on blast physics, explosion types, frequency, and perspectives from the military. This is followed by a section on prehospital management focusing on medical and trauma responses, triage, psychological consequences, and operational considerations. It then examines the roles of the emergency department and ICU with chapters on planning and training, surge capacity, resilience, management of common injury types, contamination, and ventilator strategies. The next section covers surgical treatment of a variety of blast injuries such as thoracoabdominal, extremity and vascular, and orthopedic injuries. The book then discusses medical treatment of various injury patterns including lung, abdominal, extremity, and traumatic brain

injury. The final section of the book covers post-hospital considerations such as rehabilitation, mental health, and community resilience. Throughout, case studies of recent incidents provide real-life examples of operational and medical management. Operational and Medical Management of Explosive and Blast Incidents is an essential resource for physicians and related professionals, residents, nurses, and medical students in emergency medicine, traumatic surgery, intensive care medicine, and public health as well as civilian and military EMS providers.

The Palgrave Handbook of Gender, Media and Communication in the Middle East and North Africa Loubna H. Skalli,Nahed Eltantawy,2023-05-20 The Palgrave Handbook of Gender, Media and Communication in the Middle East and North Africa stands as an authoritative and up-to-date resource on the critical debates, research methods and ongoing reflections on how gender and communication intersect with the economic, social, political, and cultural fabrics of the countries in the MENA region. The Handbook comprises thirty-one chapters written by both established and rising scholars of gender, media, and digital technologies, and will rely on fresh data which seeks to capture the dynamic and complex realities of MENA societies, as well as the tensions and contradictions in the politics of gender and uses of communication technologies. The Handbook is split into six sections: Gender, Identities and Sexualities; The Gender of Politics; Gender and Activism; Gender-Based Violence; Gender and Entrepreneurship; and Gender in Expressive Cultures.
