Dan Millman, Sierra Prasada

The Compass Tammy Kling, John Spencer Ellis, 2010-04-13 The Compass is a life transformation novel that will guide you on a journey of self-discovery. At the core of The Compass are specific lessons about belief systems and understanding who you really are in order to live out your destiny. Jonathan, the main character, escapes his suburban life after a tragedy that alters his plans for the future. Paralyzed by grief, he decides to journey across the globe in an effort to realign his inner compass. He sets off with just a backpack, leaving behind his career, friends, family, and home. His travels begin in the desert of Nevada, continue on to the pristine mountains of the Adirondacks, and then to a medieval village in Romania. At each destination, Jonathan encounters a pivotal person who offers a major life lesson, and he begins to realize that each individual was placed on his path for a reason. The Compass is a metaphor for the journey of our lives. In the tradition of the *The Alchemist*, The Compass provides readers with specific life lessons about authenticity, self-empowerment, and belief in their dreams. As humans we are all connected—by love, pain, and sometimes even by tragedies or events we cannot control. Each one of us travels a unique path, yet we are linked by experiences and emotions. In this connectedness, there is life.

The Compass Janet Coleman, 1991-11 The Compass began in a storefront theater near the U. of Chicago campus in the summer of 1955 and lasted only a few years before its players—including Paul Sills, Elaine May, Mike Nichols, Barbara Harris, Severn Darden, and Shelley Berman—moved on. Coleman recreates the time, the place, the personalities, and the neurotic magic whereby the Campus made theater history in America. Annotation copyrighted by Book News, Inc., Portland, OR.

COMPASS and Innovative Education for Students with Autism Lisa A. Ruble, John H. McGrew, 2023-08-24 This book examines the five primary areas of the Collaborative Model for Promoting Competence and Success (COMPASS). It describes COMPASS as an evidence-based practice in

psychology (EBPP) versus an evidence-based practice (EBP) and discusses how it informs innovative individualized education program (IEP) goal setting, planning, and implementation through teacher coaching. In addition, the book introduces the common elements necessary for improved teaching plan quality and child goal attainment in maximizing educational outcomes. It also describes the extension of COMPASS to transition-age high school students with autism as well as the integration of current research findings from NIH-funded studies for transition-age youth and professional development and training. Finally, the book explores innovative methods to support the consistent implementation and expansion of COMPASS across school, home, and community settings. It discusses how to integrate classroomwide performance assessment to identify students in need of the focused instruction that COMPASS provides. Key areas of coverage include: Identifying personalized goals and intervention strategies (i.e., EBPs) using an EBPP framework within COMPASS for students with autism. Advances in measurement of IEP quality for transition-age autistic youth Integration of accessible online educational materials necessary to implement COMPASS feasibly when implemented by school consultants and autism trainers Lessons learned from professional development and training of community-based autism school consultants for developing high quality intervention plans. COMPASS IEP goal attainment and fidelity outcomes with face-to-face, telecoaching, and electronic feedback. COMPASS and Innovative Education for Students with Autism is an invaluable resource for educators, clinicians, scientist-practitioners, and therapists as well as researchers, professors, and graduate students in the fields of child and school psychology, behavioral therapy, and social work as well as rehabilitation, special education, speech pathology, and all interrelated disciplines.

Every Traveller Needs a Compass Neil Cooke, Vanessa Daubney, 2015-10-31 A varied and charming collection of 17 papers that bring something new about the people from many countries and backgrounds who traveled to, from and within Egypt and the Near East, either singly or as a group, and explored, observed and recorded, or stayed for a short period of time to improve their health or simply to enjoy the experience. While some travelers kept a diary or journal that has survived until today, others did not. Their travels have to be extracted from the wide range of manuscript sources that are thankfully retained in libraries and archives, or which still remain with their descendants. Sometimes, the name of a traveler is only contained in a few words within a single piece of correspondence or journal entry, yet from such small beginnings and through detective work to link the chance meetings between travelers with a location, or news of a shared event, it is often possible to chart part of a traveler's journey and bring to life a person who has

long been forgotten. These minor characters and their travails often bring a new perspective to well-known places and events.
