Mostly the bodies are never found. Sometimes they're made an example of: tied to juke boxes or left on street corners as 'examples'. In the latest addition to his Gangland series, James Morton lifts the lid on the hidden world of the contract killer. Who are these people? Where can they be found? How do the best of them commit untraceable crimes? Is the female more deadly than the male? And how true is it that the FBI, the police and others organisations devoted to solving crime have aided, abetted and even instigated contracts to kill?

Global London on screen Keith B. Wagner,Roland-François Lack,2023-09-26 Global London on screen presents a mélange of films by directors from the Global South and North, portraying everyday life to the more fantastical, odious, or extraordinary in terms of circumstances as captured cinematically in this superdiverse city. This book portrays a segment of such superdiversity by historicising and theorising various cinematic reproductions of London by filmmakers coming to this megacity from abroad. As visitors, cosmopolitans, or even migrant filmmakers, their treatment of London's zonal locations as both foreign and familiar is fascinating; their narratives and visualisations of London's spatial and architectural uniqueness is given a sojourners' touch; while other foreign filmmakers showcase and sometimes problematise London's socio-cultural globality and locality as both British and a city open (and sometimes closed off) to the world.

Defining Danger James W Clarke,2018-02-06 Since 1789, when George Washington became the first president of the United States, forty-three men have held the nation's highest office. Four were killed by assassins, and serious attempts were made on the lives of eight others. Add to that list the names of Martin Luther King, Jr. and Malcolm X, and it is reasonable to conclude that political prominence in the United States entails grave risks. In *Defining Danger*, James W. Clarke explores the cultural and psychological linkages that define assassinations and a new era of domestic terrorism in America. Clarke notes an upsurge in political violence beginning with the assassination of John F. Kennedy in 1963. Since then, there have been ten assassination attempts on nationally prominent political leaders. That is two more than the eight recorded in the previous 174 years of the nation's presidential history. New elements of domestic terror in American life were introduced in the 1990s by Timothy McVeigh, the Oklahoma City Bomber, Ted Kaczynski, the Unabomber, and Eric Rudolph, the abortion clinic bomber. These men were politically motivated; their crimes unprecedented. These events and the perpetrators behind them are the subjects of this book. The volume conveys two central themes. The first is that individual acts of violence directed toward America's democratically elected leaders represent a defining element of American politics. The second addresses how danger is defined, through an analysis of the motives and characteristics of twenty-one perpetrators responsible for these acts of political violence where shots were fired, or bombs detonated, and, in most instances, victims died. The importance and originality of this material have been acknowledged in presentations to and consultations with the U.S. Secret Service and some of the nation's top independent private investigators. It is written in an accessible and engaging style that will appeal to the informed general reader, as well as to professionals in a variety of fields - especially in the wake of recent events and the specter of future violence that, sadly, haunts us all.
