

Contracts Law 101 107

Jolien Kruit

New York Contract Law Glen Banks, 2017

The Law of Contracts Robert Denicola, 2004 The Law of Contracts: Pearls of Wisdom is a review manual that will help you learn what a first-year student is supposed to know about contract law. It teaches you the substantive legal rules governing the creation, performance, and enforcement of contracts. It also helps you understand the policies and compromises behind the rules, so that you can apply them in a sensible way to reach sound results.

Contract Law in Focus Michael B. Kelly, Lucille M. Ponte, 2016-09-20 Providing a comprehensive, practice-oriented approach to the legal and practical aspects of contract law, *Contract Law In Focus* offers realworld scenarios throughout give students numerous opportunities to apply and solidify their understanding of important concepts. Clear explanatory text, Case Previews, and Case Follow-ups further clarify the doctrine and aid in student understanding. This text begins with a helpful introduction to the study of contract law, providing basic information about the way contracts are governed in the United States. It then introduces formation of contracts, covering offer, acceptance, consideration, and exceptions to consideration. The casebook moves on to provide clear and comprehensive discussions of defenses, excuses, and remedies for breach. By effectively synthesizing the statutory law, common law, relevant rules, and secondary sources, while offering a focus on understanding contract law -- as it developed in the past, exists today, and will evolve in the future -- the authors have created an indispensable guide for students learning contract law.

Commentaries on the Law of Contracts William Frederick Elliott, 1918

The Law of Contracts William Herbert Page, 1921

Contract Law Steven J. Burton, Melvin Aron Eisenberg, 2011 This best-selling supplement contains materials that can be used with any contracts casebook. This edition has received a significant makeover while retaining the basic, popular features. Most notably, it now includes short annotations that introduce each selection. These annotations put each selection in context by explaining its origins, central purpose(s), scope of application, and current legal status. Students will better understand the selection's point, purpose, and content; and teachers will have less need to explain an assigned selection's context. In addition, the authors have thoroughly updated the content. It includes excerpts from the brand new Restatement (Third) of Restitution and Unjust Enrichment, reference to the 2010 amendments to relevant parts of UCC, Article 9, and the 2010 amended version of the Bankruptcy Act, 24 (on subsequent promises to pay debts discharged in bankruptcy). The Tables of Comparisons, which identify counterpart provisions of the UCC, CISG, UNIDROIT Principles, and Restatement (Second) of Contracts, has been updated by replacing citations to the prior version of UCC, Article 1 with citations to the revised version; forty states now have enacted the latter.

Contracts Stewart Macaulay, 1993

The Law of Contracts Clarence Degrand Ashley, 1911

The Elements of the Law of Contracts Stephen Martin Leake, 1867

The Law of Contracts Samuel Williston, 1920

Contract Law and Practice Gerald E. Berendt, 2007

Contract Law and Its Application Daniel J. Bussel, Arthur Irwin Rosett, 2006 The Seventh Edition casebook has several distinct aims. Those who prefer to emphasize the centrality of remedies, and the economic orientation that implies, will find the new order of chapters congenial. Those who cannot imagine not starting with a discussion of the concept of bargain, or even offer and acceptance, will find that they do not need to rip the book apart to do so. New teachers, who are likely to view the experience of teaching contracts very differently at the end of the semester, need not worry about conducting major surgery to change their approach the next year. The book is constructed out of relatively brief, interchangeable, and free-standing blocks. At the same time the authors continue to avoid the temptation to edit cases heavily. It remains very important to present a judicial opinion that discloses the judge's process of decision and enough of the reasoning underlying the conclusion for students to appreciate the decision making process. It appears that most students and teachers prefer newer cases and up-to-date issues for examination. The authors have sadly bid farewell to a number of old friends that have been replaced by more contemporary cases. These new cases present students with relevant issues stated in a currently recognizable voice.

Contract Law and Theory Robert E. Scott, 2004-08-30

The Glannon Guide to Contracts Theodore Silver, 2024 For too many students, first-year contracts is a heartache, plaguing them perpetually with this demoralizing thought: I do my work, I go to class, I listen, I participate, and still - I don't know what it's all about or what my teacher wants me to know. We're here to spare you that sorrowful plight - to grab hold of contract law, tear away its veil of mystery, and flood it with such bright light as lets you see it for what it is: a course, like any other - easily understandable with ordinary work and thought--

Contracts Stewart Macaulay, John Kidwell, William C. Whitford, 2003

[illegible]

Contract Law in the United States Gregory Klass, 2012 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in the USA covers every aspect of the subject - definition and classification of contracts, contractual liability, rela

The Fundamentals of Contract Law and Clauses Nancy S. Kim, 2016-09-30 This accessible textbook helps students learn essential transactional skills by explaining the meaning and purpose of common contract clauses and exploring some potential pitfalls associated with their use. Nancy Kim utilizes select case summaries and contract clause examples to illustrate doctrinal concepts and how they may affect a transaction. The Fundamentals of Contract Law and Clauses will prove to be an invaluable resource in the classroom, as it will support law students in becoming preventive lawyers by teaching them how to preempt problems, reduce risks and add value to transactions.

Contract Law For Dummies Scott J. Burnham, 2011-12-06 Take the mumbo jumbo out of contract law and ace your contracts course Contract law deals with the promises and agreements that law will enforce.

Understanding contract law is vital for all aspiring lawyers and paralegals, and contracts courses are foundational courses within all law schools. Contract Law For Dummies tracks to a typical contracts course and assists you in understanding the foundational legal rules controlling voluntary agreements people enter into while conducting their personal and business affairs. Suitable as a supplement to introductory and advanced courses in contract law, Contract Law For Dummies gives you plain-English explanations of confusing terminology and aids in the reading and analysis of cases and statutes. Contract Law For Dummies gives you coverage of everything you need to know to score your highest in a typical contracts course. You'll get coverage of contract formation; contract defenses; contract theory and legality; agreement, consideration, restitution, and promissory estoppel; fraud and remedies; performance and breach; electronic contracts and signatures; and much more. Tracks to a typical contracts course Plain-English explanations demystify intimidating information Clear, practical information helps you interpret and understand cases and statutes If you're enrolled in a contracts course or work in a profession that requires you to be up-to-speed on the subject, Contract Law For Dummies has you covered.

General average, legal basis and applicable law Jolien Kruit, 2017-02-16 General average is considered to be one of the most uniformly regulated topics of maritime law. This study concludes that this perception is flawed. The invariably applicable York-Antwerp Rules do not provide a full regime, whereas their applicability is generally contractual only. As a result, questions arise as to which law applies to general average obligations, how the applicable national law is to be determined (taking into consideration the impact of the European Rome I and II Regulations), and what is provided in the national regimes. In addition, questions arise as to what the influence is of contractual provisions set out in contracts for the carriage of goods by sea and general average security forms, and how the various sources interact. This study contains an in depth assessment of these questions.
