The Galileo Conspiracy Steven J. Patterson,2010 It is the twenty-second century. The Earth is an ecological mess where the UN has become the dominant political influence. To reduce the exploitation of resources and pollution on earth, mining colonies have been established on the Moon and Mars. The jewel in the UN space development program was 'Project JUPITER', centred on the UNSV GALILEO, a deep space, survey and mining vessel built to exploit the vast mineral resources of Jupiter and the asteroid belt. Jan Maldrick of the Central Intelligence and Security Service had been given a simple close protection assignment. However, he found himself being dragged into the centre of conflicting conspiracies to save the human race and obtain global dictatorial power, with the GALILEO as the target for both. With no way out, he becomes embroiled in a complex plot involving espionage, sabotage, assassination and corruption. The GALILEO was the key. The vessel needed to be protected and fate had selected him to achieve this. Only the GALILEO and her crew could guarantee the future of mankind. Confined to the Earth, humanity remains vulnerable. Extreme climate change, volcanic activity, asteroid impact or global nuclear war; any one of these could threaten us with extinction. We have the technological capability; isn't it about time we expanded beyond our planet to ensure survival of the species? The story of the GALILEO Conspiracy seeks to create a fictional future situation that might lead to a small band of humanity taking that leap and leaving them in a state of affairs that sets the scene and raises questions for future stories. What might happen if a small band of talented and dedicated people made their home in space? How would they survive? What kind of society might they build? What would their challenges be? Are we alone?

War and Peace John Wilker,2020-04-15 Sometimes the jobs are simple, deliver a crate. Sometimes the crate is full of space bees and Bennie opens it. Gabe is back from his mission of leading a droid civil rights movement and seems to have been more or less successful. A new client approaches the crew, escort and protection detail for a summit. That sounds easy, and the pay is good. Turns out the Galactic Commonwealth is only partly run by the governing council... Things, as they do, turn sideways and now the Ghost is hiding from a super-advanced warship that shouldn't exist. Turns out one of their previous clients is far more evil than they ever imagined, and someone they thought worthless turns out to be a valuable ally. Who doesn't like learning new things?! Space Opera, space opera adult, space opera series, space opera military science fiction, scifi adventure, space opera book, science fiction adventure, space western, science fiction, scifi, galactic empire, first contact, alien contact, space adventure, scifi series, scifi fun

Erasing the Sky and Creating a New Horizon Jaime Polites, 2012-12-17 Erasing the Sky and Creating a New Horizon Living Life After a Traumatic Brain Injury Jaime Polites With Gabriella Gafni No one could have imagined that November 28, 1994, an ordinary day in Jaime Polites' life, would forever change her future. At 18, the world was at her feet. Through hard work, dedication, and perseverance, Jaime enjoyed the gifts of hope and promise. Always on the go, Jaime more than lived up to her namesake, the Bionic Woman, Jaime Sommers, a fictional character in the 1970's television series. Juggling school, work, and an active social life was simply a matter of course for the vivacious teen, whose magnetic personality and infectious laugh drew everyone she met into her world. Then, just one semester away from earning her Associates Degree and moving on to college, Jaime made a fateful decision that forever altered her life. By accepting a dinner invitation from Eric, her former boyfriend, she had hoped to catch up, show him that she had moved on and was ascending the ladder of success. That innocent plan transformed into a nightmare when, on the way home, Eric drifted into oncoming traffic. Although Eric's side of the car was totaled, he miraculously emerged with only a sprained ankle and a temporary limp. Jaime's side of the vehicle, however, displayed a minor, almost imperceptible dent. Tragically, the passenger inside was rendered comatose and fighting for her life. Judy and Gary Polites rushed to the hospital to be at their daughter's bedside, hoping against hope that she would defy the odds - and she did; but the road was long and painful, filled with uncertainty and incorrect diagnoses. After trial and error - and, ultimately, proper medical intervention, Jaime discovered that she was experiencing the symptoms of epilepsy. Supported and uplifted by her mother's love, strength, and tenacity, Jaime slowly integrated into life again. Despite intense personal disappointments and physical setbacks, her never-give-up approach never failed to win the day - and always does. In her compelling autobiography, *Erasing the Sky and Creating a New Horizon - Living Life After a Traumatic Brain Injury*, Jaime triumphantly demonstrates that all is possible through faith, hope, and optimism. Read her story, be inspired, and acknowledge the beauty of showing up for life. Jaime is an ambassador for Cyberonics, the pioneer in Vagus Nerve Stimulation Therapy.

Users are increasingly using these devices for activities beyond simple communication including gaming and e-commerce and to access confidential information including banking accounts and medical records. While mobile devices are being so widely used and accepted in daily life, and subsequently housing more and more personal data, it is evident that the security of these devices is paramount. Dr. Chelli Lona Aphra, rogue archaeologist, is in trouble again. A pioneer in the field of criminal xenoarchaeology, Aphra recognizes no law, has no fear, and possesses no impulse control. To her, the true worth of the galactic relics she discovers is found not in a museum but in an arsenal. This viewpoint has led to a lot of misunderstandings. After her latest plan goes horribly wrong, Aphra’s roguish ways are on the verge of catching up to her. That’s when suddenly Darth Vader, terror of the galaxy, swoops in with his lightsaber and . . . saves her life? Don’t get her wrong—it’s not like she’s ungrateful. Sure, her new boss is a lord of the Sith. And okay, she may have just become a pawn in a deadly game being played by him and his boss, who happens to be the Galactic Emperor. And yes, the life expectancy of anyone who disappoints Vader can be measured in seconds. But she’s back doing what she does best. She’s got a ship to fly, a heist to pull, and two unorthodox but effective metal buddies: Triple-Zero, a protocol droid specializing in etiquette, customs, translation, and torture; and BT-1, an astromech loaded with enough firepower to take down a battlecruiser. Together, they might just find a way to get the job done and avoid the deadly performance review that waits at its conclusion. Just kidding. She’s doomed.
