**Cultivating Edible Fungi** P.J. Wuest,D.J. Royse,R.B. Beelman,2013-10-22 Developments in Crop Science, 10: Cultivating Edible Fungi covers the proceedings of the International Symposium on Scientific and Technical Aspects of Cultivating Edible Fungi (IMS 86), held on July 15-17, 1986. The book focuses on the methodologies, processes, and technologies involved in the cultivation of edible fungi. The selection first offers information on antitumor activities of edible mushrooms by oral administration; variability of fluorescent *Pseudomonas* populations in composts and casing soils used for mushroom cultures; and influence of microorganisms and fungistasis on sporophore initiation in *Agaricus brunnescens*. The text then elaborates on the kratovirulence determinant of wood-decay fungi in transfer of mycelia to, and basidiocarp formation on, wooden raw substrates; spent compost as a carrier for bacterial inoculant production; and effects of growth regulator compounds on yield and size of *Agaricus bisporus*. The manuscript examines the effect of benomyl application and spawnmate supplementation on yield and size of selected genotypes of *Pleurotus* spp; changes in free amino acid content of the compost during growth and development of *Agaricus bisporus*; and basidiospore number variation in *Agaricus*. The book then takes a look at the integrated control of pests and diseases in mushroom cultivation; status of pests in the cultivated mushroom in India; and laboratory and cropping tests with cyromazine for mushroom sciarid control in mushroom compost. The selection is a dependable source of data for researchers interested in the cultivation of edible fungi.

*No Whine with Dinner* Liz Weiss,Janice Newell Bissex,2011 *No Whine with Dinner* turns mealtime whines into wows with nutritious and delicious recipes kids and parents will love. Written by Liz Weiss and Janice Newell Bissex --- the dietitians behind the popular cooking blog, Meal

Makeover Moms' Kitchen --- the book features 150 easy-to-make, family-friendly recipes as well as 50 moms' secrets for getting picky eaters to try new foods. Every recipe in No Whine with Dinner was tested by moms and tasted by kids. With recipes like Smiley Face Casserole, Grab-and-Go Granola Bars, Piping-Hot Peanut Butter Soup, Fruity Chicken Kebabs, Sweet Brussels Sprouts, and Twice Baked Super Spuds, the dietitian duo aims to bring fun flavors and better nutrition to families everywhere. After the publication of their first cookbook, The Moms' Guide to Meal Makeover and the launch of their website, MealMakeoverMoms.com, Weiss and Bissex established themselves as two of the nation's leading experts on family nutrition. The idea for No Whine with Dinner came from a survey of nearly 600 moms who identified picky eaters who whine and complain as the number one obstacle to getting their children to eat healthy, well-balanced meals. Filled with beautiful photographs of their recipes --- breakfast, lunch box, soups, slow cooker, casseroles, snacks, and desserts --- and adorable photos of the hundreds of kids who tested their recipes, No Whine with Dinner is a must-have cookbook for families who crave flavor as well as good health.

The Labor of Lunch Jennifer E. Gaddis, 2019-11-12 There's a problem with school lunch in America. Big Food companies have largely replaced the nation's school cooks by supplying cafeterias with cheap, precooked hamburger patties and chicken nuggets chock-full of industrial fillers. Yet it's no secret that meals cooked from scratch with nutritious, locally sourced ingredients are better for children, workers, and the environment. So why not empower "lunch ladies" to do more than just unbox and reheat factory-made food? And why not organize together to make healthy, ethically sourced, free school lunches a reality for all children? The Labor of Lunch aims to spark a progressive movement that will transform food in American schools, and with it the lives of

thousands of low-paid cafeteria workers and the millions of children they feed. By providing a feminist history of the US National School Lunch Program, Jennifer E. Gaddis recasts the humble school lunch as an important and often overlooked form of public care. Through vivid narration and moral heft, *The Labor of Lunch* offers a stirring call to action and a blueprint for school lunch reforms capable of delivering a healthier, more equitable, caring, and sustainable future.

**Round Corners** Clement R Beaulieu, 2013-11-11 The skeletal remains of an infant are found in the walls of a stately home under renovation. The house, located in New Bedford, MA, had been built by the Whaling Captain Anthony Spooner in the mid 1800s. Daniel O'Malley, Chief Homicide Inspector, and his newly appointed detective, William Normandin, unearth evidence as far away as upstate New York. The previous occupants of the house included the dowager Abigail Spooner. Inspector O'Malley discovers that her son, Lieutenant Mortimer, presently serving on the USS Little in the South Pacific had exhibited strange and disturbing behaviors as a young man. During the time of the investigation members of the Lepage family volunteer to serve in the European and Pacific theaters of World War II. This large extended French-Canadian family comes from the wooden three-decker section of the city, adjacent to the thriving mills that now provide the economic engine for the city of New Bedford. One of the Lepages befriends a depressed Lieutenant Mortimer who awaits surgery to remove shrapnel from his spine, an injury that the Lieutenant had sustained when his ship was sunk by Japanese forces off Guadalcanal. This friendship between two persons of very different backgrounds assists the Lieutenant in facing his surgery and subsequent rehabilitation with bravery. Revelations are shared between them.

Holding Their Own: A Story of Survival Joe Nobody,2011-11-18 This first book of the Holding Their Own series, A Story of Survival, is set in the year 2015, when the world is burdened by the second Great Depression. The United States, already weakened by internal strife, becomes the target of an international terror plot. A series of attacks results in thousands of casualties and disables the country's core infrastructure. The combination of economic hardship and the staggering blow of the terror attacks results in a collapse of the government. All of their survival skills are tested during the action packed expedition in a world that resembles the American West of 200 years past.& ;& ;As previewed in the Epilogue of book one, Holding Their Own II: The Independents is scheduled for publication Spring of 2012.
