*Making Trouble* Otto Von Busch, 2022-02-24 Making hacks into reality. It engages matter in ways that trespass the boundaries between the civic realm and the state-assigned laws. Even with primitive tools and skills, designing and making can break open and repurpose arrangements of power. The proof is that some crafts are so controversial—lock-picking, moonshining, shoplifting, smuggling, sabotage—that they need to be controlled or even outlawed. When designers and makers touch on these contested realms, they run into trouble. This highly original book explores how the material power of design and making can challenge arrangements of agency and

domination. Unpacking a series of conflicting cases-from illegal making to the strategic and civic use of crafts to manifest radical alternatives to the current order-it shows how designers and makers can use even basic tools to work towards more.

**Say Nothing** Patrick Radden Keefe,2019-02-26 NEW YORK TIMES BESTSELLER • Soon to be an FX limited series streaming on HULU • From the author of *Empire of Pain*—a stunning, intricate narrative about a notorious killing in Northern Ireland and its devastating repercussions. Masked intruders dragged Jean McConville, a 38-year-old widow and mother of 10, from her Belfast home in 1972. In this meticulously reported book—as finely paced as a novel—Keefe uses McConville's murder as a prism to tell the history of the Troubles in Northern Ireland. Interviewing people on both sides of the conflict, he transforms the tragic damage and waste of the era into a searing, utterly gripping saga. —New York Times Book Review Jean McConville's abduction was one of the most notorious episodes of the vicious conflict known as The Troubles. Everyone in the neighborhood knew the I.R.A. was responsible. But in a climate of fear and paranoia, no one would speak of it. In 2003, five years after an accord brought an uneasy peace to Northern Ireland, a set of human bones was discovered on a beach. McConville's children knew it was their mother when they were told a blue safety pin was attached to the dress—with so many kids, she had always kept it handy for diapers or ripped clothes. Patrick Radden Keefe's mesmerizing book on the bitter conflict in Northern Ireland and its aftermath uses the McConville case as a starting point for the tale of a society wracked by a violent guerrilla war, a war whose consequences have never been reckoned with. The brutal violence seared not only people like the McConville children, but also I.R.A. members embittered by a peace that fell far short of the goal of a united Ireland, and left them wondering whether the killings they committed were not justified acts of war, but simple murders. From radical and impetuous I.R.A. terrorists such as Dolours Price, who, when she was barely out of her teens, was already planting bombs in London and targeting informers for execution, to the ferocious I.R.A. mastermind known as The Dark, to the spy games and dirty schemes of the British Army, to Gerry Adams, who negotiated the peace but betrayed his hardcore comrades by denying his I.R.A. past—Say Nothing conjures a world of passion, betrayal, vengeance, and anguish.
