**Classic Porsches** Claire Romaine,2020-07-15 When Ferdinand Porsche and his son created a car company in the 1940s, they set out to create a new kind of race car. This automobile and the high-performance vehicles that followed took the Porsche name. While these cool cars conquered the racing scene, they were also produced for everyday driving. Porsche is still manufacturing cars that elicit oohs and ahhs, whether rounding a turn on a tight track or driving down a country road. Readers and race fans will find all the information they crave while they enjoy plenty of striking photographs of Porsches in action.

**SeeMore Readers: Cool Cars - Level 2** Seymour Simon,2003-12 Presents facts and photographs of all kinds of cars, from one of the first automobiles ever built to the popular VW Beetle to a luxury Rolls Royce to the Thrust SSC, the fast car in the world.

**Machines of Youth** Gary S. Cross,2018-05-04 For American teenagers, getting a driver's license has long been a watershed moment, separating teens from their childish pasts as they accelerate toward the sweet, sweet freedom of their futures. With driver's license in hand, teens are on the road to buying and driving(and maybe even crashing) their first car, a machine which is home to many a teenage ritual—being picked up for a first date, “parking” at a scenic overlook, or blasting the radio with a gaggle of friends in tow. So important is this car ride into adulthood that automobile culture has become a stand-in, a shortcut to what millions of Americans remember about their coming of age. *Machines of Youth* traces the rise, and more recently the fall, of car culture among American teens. In this book, Gary S. Cross details how an automobile obsession drove teen peer culture from the 1920s to the 1980s, seducing budding adults with privacy, freedom, mobility, and spontaneity. Cross shows how the automobile redefined relationships between parents and teenage children, becoming a rite of passage, producing new courtship rituals, and fueling the growth of numerous car subcultures. Yet for teenagers today the lure of the automobile as a transition to adulthood is in decline. Tinkerers are now sidelined by the advent of digital engine technology and premolded body construction, while the attention of teenagers has been captured by iPhones, video games, and other digital technology. And adults have become less tolerant of teens on the road, restricting both cruising and access to drivers' licenses. Cars are certainly not going out of style, Cross acknowledges, but how upcoming generations use them may be changing. He finds that while vibrant enthusiasm for them lives on, cars may no longer be at the center of how American youth define themselves. But, for generations of Americans, the modern teen experience was inextricably linked to this particularly American icon.

The Voter File David Pepper, 2022-07-05 Pepper comes through again with this clever tale. -- President Bill Clinton A twisty, one-step-ahead-of-the-headlines political thriller featuring a rogue reporter who investigates election meddling of epic proportions, written by the ultimate insider. Investigative reporter Jack Sharpe is down to his last chance. Fired from his high-profile gig with a national news channel, his only lead is a phone full of messages from a grad student named Tori Justice, who swears she's observed an impossible result in a local election. Sharpe is sure she's mistaken...but what if she isn't? Sharpe learns that the most important tool in any election is the voter file: the database that keeps track of all voters in a district, and shapes a campaign's game plan for victory. If one person were to gain control of an entire party's voter file, they could manipulate the outcome of virtually every election in America. Sharpe discovers this has happened--and that the person behind the hack is determined to turn American politics upside down. The more he digs, the more Sharpe is forced to question the values--and viability--of the country he loves and a president he admired. And soon it becomes clear that not just his career is in jeopardy...so is his life.

**50 Cars to Drive** Dennis Adler, 2008-05-01 A gathering of votes from famous and prestigious drivers such as Carroll Shelby, Bob Bondurant, Sir Stirling Moss, Dan Gurney, and Jay Leno, this book reveals—for the first time—what the professionals list as the best of the best. This is a full-color book that will please anyone who's passionate about driving, even with more mundane transportation. "There are cars," says the author, "and then there are those greater than the sum of their parts." The expert panel picked the top fifty, largely avoiding traditional choices they call simply "fundamental to automotive history." This panel agreed that the Top Five list includes the 1957 Ferrari Testa Rossa, the 1913 Mercer Racabout, the 1932-37 Model SJ Dusenbergs, the 1955 Mercedes-Benz 300 SLR, and the Maserati Birdcage. Stunning full-color photos complement the passionate text from expert drivers in a book that will rev up the RPMs of many a man (and woman).

**Rainbow Reading Level 5 - Earth and Beyond: from Hot Wheels to Cool Cars** Dawn H. Daniels, Gail B. Hutton, 2009-03-13 This book begins with the creation of the wheel 5 000 years ago, and moves through the eras of car making. It looks at petrol and at oil as an energy source and at other interesting and futuristic ideas of car making and energy conservation. Readers will enjoy looking at the unusual photos of old and modern cars.

**The Best of Car Magazine: The 70s & 80s** Anova Books, 2008-10-01 Growing up as a child in the '80s had its ups and downs - it's perhaps the one decade that, more than any other, begets groans of, "oh, what were you thinking?" Those 10 years saw some huge changes - pop music went electronic, yuppies ruled the financial world, and fashion was never the same again. Neither was the car. Yes, despite some four-wheeled disasters, the '80s still had plenty of cool cars. The petrol heads of the time lusted after Magnum P.I.'s Ferrari 308; they salivated over the Ferrari Daytona and Testarossa from Miami Vice, they watched "Back to the Future" in cinemas across the country, mesmerised at the sight of the Doc's De Lorean (surely the ultimate in customisation?). Other 80s supercars included Porsche's peerless 911, the original Audi Quattro (a car resurrected on current U.K. television in the show *Ashes to Ashes*) and the Ford Capri SLE 71R driven by Terry McCann in *Minder*... the list goes on. Now, 'The Best of Car' takes you back to the days when cars were flash, angular and mean. It's time to don the shades and head out for a cool cruise down the strip. Flick through the glossy pages of what became the bible for aspiring car enthusiasts in the 80s - the only motoring magazine that reflected the true age of excess, and relive those long-forgotten dreams.

*Voting as a Christian: The Economic and Foreign Policy Issues* Wayne A. Grudem, 2012-02-07 Written not by a journalist or politician but rather by a theology professor with a Ph.D. in New Testament studies, *Voting by the Bible: The Economic and Foreign Policy Issues* begins with the

assumption that God intended the Bible to give guidance to every area of life—including how governments should function. Derived from author Wayne Grudem’s magisterial Politics According to the Bible, this book highlights those economic and foreign-policy issues that have dominated political debate recently. Throughout, author Wayne Grudem supports political positions that would be called more conservative than liberal. However, “it is important to understand that I see these positions as flowing out of the Bible’s teachings rather than positions I hold prior to, or independently of, those biblical teachings, he writes. My primary purpose in the book is not to be liberally or conservative, or Democrat or Republican, but to explain a biblical worldview and a biblical perspective on issues of politics, law, and government. Concise yet carefully argued, this book is a must-read for any Christian concerned about current debates over the economy, the size and role of government, and the best way forward out of the current recession. Not every reader will agree with the book’s conclusions. But by grounding his analysis deeply on Scripture, Grudem has equipped Christians to better understand and respond to some of today’s key political debates wisely and in a manner consistent with their primary citizenship as members and ambassadors of the kingdom of God.

Top Gear: My Dad Had One of Those Giles Chapman,Richard Porter,2012-06-30 Good old Dad and his good old Dad's car. As solid and dependable as the man himself, if a little less balding, Dad's car was almost a member of the family, whisking you to exciting days out, or just to visit boring relatives in distant parts of the country to the chant of 'are we nearly there yet?' Like the man behind the wheel, Dad's car made you feel safe and secure, because it was as reassuring and sensible as he was. Maybe in an idle moment Dad dreamt of driving something rakish and fast, just like in idle moments he dreamt that your Mum was Twiggy, but the demands of family life meant soft tops, hard suspension and anything even remotely sporty were off the cards. Even anything less than four doors would have been wildly hedonistic. But although the family car may not have been the very essence of rock 'n' roll, Dad was proud of it. Spanning the 1950s to the '80s, this is a celebration of the heyday of the Dad car. From much loved family workhorses like the Ford Cortina and Vauxhall Viva to the rakish excitement and playground kudos of the Rover 3500 and Citroen CX, all the great Dad cars are here. Reflecting a time before people carriers and lifestyle off roaders, when the nearest thing to an airbag was hiding behind your fat brother, this is a celebration of simple, honest cars that were as flawed and as loveable as your Dad himself.
