An Engraved Landscape: Rock carvings in the Wadi al-Ajal, Libya Tertia Barnett, 2023-02-23 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al-Ajal, situated in the Central Saharan region of south west Libya. The wadi is renowned as the heartland of the Garamantian civilization, which emerged from local mobile Pastoral communities in the 1st millennium BC, and dominated trans-Saharan trade and politics for over a thousand years. Extensive archaeological and palaeoenvironmental investigations in recent years have provided detailed insight into the later prehistory and protohistory of the wadi and surrounding areas. However, prior to the fieldwork detailed in this work, only a handful of carvings had been recorded in the wadi. This work is based on systematic survey, conducted between 2004 and 2009, which recorded around 2,500 previously unknown or unpublished engraved and inscribed rock surfaces. All forms of engraving, whether figurative or surface markings, were viewed as significant residues of human interaction with the rock surface and were recorded. The resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts, and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence. An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened. This record of the fragile engravings provides an important source of information for researchers and students.

Zoo Portraits Yago Partal, 2017 While a fantastic cause, can the task of protecting animal rights and habitats also be fun? The answer for Spanish photographer Yago Partal is yes! as he joyfully embraces important environmental activism with his form of inventive entertainment. His aim is to increase our awareness of animals who need protection - from the Amur leopard to the plains zebra - with his Zoo Portraits project, which launched in 2013. The project presents animals in anthropomorphized form, wearing clothing and accessories that echo the animal's temperament and preferred habitat. It is not Partal's intention to create distance or make light of the animals, but rather to make people think and nudge them to get involved in protecting animals via pictures, education, and awareness. Mission accomplished: Yago Partal's wonderful animal portraits have found a huge audience, with media like CBS and the

Daily Mail reporting enthusiastically on the phenomenon. Beautiful, functional products including iPhone cases and even clothes hangers are available for purchase under the Zoo Portraits label. Ten percent of all proceeds are donated to animal welfare organisations. The book has the same objective: to make people smile as well as inform them. In addition to the unique pictures, there is information on each animal's habitat, size, and population as well as interesting and surprising facts. Presented in a clear and attractive format, this book is equally exciting for children and adults. AUTHOR: Yago Partal studied visual arts at the University of Barcelona. One of his creative projects gave him the inspiration for Zoo Portraits. With his enthusiasm for animals, cartoons, and fashion, he began experimenting with the popular anthropomorphisation of animals; the result was a cosmos of unique artworks. Yago Partal's work has been the subject of shows in Barcelona, London, Montreal, and Tokyo. His customers include world-renowned companies such as Apple and Body Shop. SELLING POINTS: * A creative animal atlas - new, unexpected, educational * Unique portraits of both familiar and less-known species as you've never seen them before * Lots of fun for everyone interested in animals and anyone who wants to join the movement to help protect them 70 colour photographs

Wild Souls Emma Marris, 2021-06-29 Winner of the 2022 Rachel Carson Environment Book Award * Winner of the 2022 Science in Society Journalism Award (Books) * Finalist for the Los Angeles Times Book Prize "Thoughtful, insightful, and wise, Wild Souls is a landmark work."--Ed Yong, author of An Immense World Fascinating . . . hands-on philosophy, put to test in the real world . . . Marris believes that our idea of wildness--our obsession with purity--is misguided. No animal remains untouched by human hands . . . the science isn't the hard part. The real challenge is the ethics, the act of imagining our appropriate place in that world. --Outside Magazine From an acclaimed environmental writer, a groundbreaking and provocative new vision for our relationships with--and responsibilities toward--the planet's wild animals. Protecting wild animals and preserving the environment are two ideals so seemingly compatible as to be almost inseparable. But in fact, between animal welfare and conservation science there exists a space of underexamined and unresolved tension: wildness itself. When is it right to capture or feed wild animals for the good of their species? How do we balance the rights of introduced species with those already established within an ecosystem? Can hunting be ecological? Are any animals truly wild on a planet that humans have so thoroughly changed? No clear guidelines yet exist to help us resolve such questions. Transporting readers into the field with scientists tackling these profound challenges, Emma Marris tells the affecting and inspiring stories of animals around the globe--from Peruvian monkeys to Australian bilbies, rare Hawai'ian birds to majestic Oregon wolves. And she offers a companionable tour of the philosophical ideas that may steer our search for sustainability and justice in the non-human world. Revealing just how intertwined animal life and human life really are, Wild Souls will change the way we think about nature--and our place within it.
